TOO TOXIC TO TRASH

Don't know where to take it or what to do with it?

Use this San Mateo County Guide to Household Hazardous Waste Recycling and Disposal.

Curbside Service

To see if your waste hauler provides curbside pick-up for single family homes, check the chart on the reverse side.

Used motor oil

Household batteries

Cell phones

***Note:** Used oil must be placed in a clear plastic container, taped shut to avoid spills, (limit: 2 gal.). Contaminated oil is not accepted. Put cell phones and batteries in a clear plastic zip-lock bag on top of your recycling container and use clear tape to cover the battery terminals. Contact your waste hauling company for further information and services.

Electronic Waste Disposal

Options for keeping your old computer, TV and other electronics out of the landfill include:

- Take-back programs from some manufacturers
- Take-back program from some retailers
- Donation to Goodwill – recyclers' job training program
- Collection events in your area

For more information, visit www.recycleworks.org.

Sharps Disposal

Check with your health care provider to see if they offer free collection to their patients.
