October 1, 2018

Mr. Bruce H. Wolfe  
Executive Officer  
San Francisco Bay Regional Water Quality Control Board  
1515 Clay Street, Suite 1400  
Oakland, CA 94612

Subject: **City of Daly City**  
FY 2017/18 Annual Report

Dear Mr. Wolfe:

This letter and Annual Report with attachments is submitted by City of Daly City pursuant to Permit Provision C.17.a of the Municipal Regional Stormwater NPDES Permit (MRP), Order R2-2015-0049, NPDES Permit No CAS612008 issued by the San Francisco Bay Regional Water Quality Control Board. The Annual Report provides documentation of compliance activities conducted during FY 2017/18 and related accomplishments.

Please contact Richard Chiu, Jr. at 650-991-8163 regarding any questions or concerns.

Very truly yours,

Richard Chiu, Jr.  
Director of Public Works

**CITY OF DALY CITY  
FY 2017/18 ANNUAL REPORT**

**Certification Statement**

"I certify, under penalty of law, that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to ensure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted, is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

**Signature of Duly Authorized Representative:**

  
Richard Chiu, Jr. Director of Public Works

Telephone Number:		Fax Number:			
E-mail Address:					

Section 2 - Provision C.2 Reporting Municipal Operations

**Program Highlights and Evaluation**

Highlight/summarize activities for reporting year:

Summary:

Daly City continues to provide effective street sweeping services by utilizing regenerative air street sweepers, and parking restrictions that include “No Parking” time prohibition during street sweeping activities. Having the street sweeping path free of vehicles ensures that the street sweepers are collecting debris, vegetation, and fines that accumulate along the curb face. The City continues to utilize Tymco 600-BAH regenerative air street sweeper with a broom assist pick-up head. The broom assist pick-up head is more efficient in removing vegetation and fines that accumulate within the street sweeper’s path of travel as confirmed by the street sweeper operator that has been operating the Tymco 600-BAH.

Daly City participates in the SMCWPPP Public Works Municipal Maintenance Subcommittee; and the BASMAA Municipal Operations Committee.

**C.2.a. ► Street and Road Repair and Maintenance**

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

<b>Y</b>	Control of debris and waste materials during road and parking lot installation, repaving or repair maintenance activities from polluting stormwater
<b>Y</b>	Control of concrete slurry and wastewater, asphalt, pavement cutting, and other street and road maintenance materials and wastewater from discharging to storm drains from work sites.
<b>Y</b>	Sweeping and/or vacuuming and other dry methods to remove debris, concrete, or sediment residues from work sites upon completion of work.

Comments:

**C.2.b. ► Sidewalk/Plaza Maintenance and Pavement Washing**

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

N/A	Control of wash water from pavement washing, mobile cleaning, pressure wash operations at parking lots, garages, trash areas, gas station fueling areas, and sidewalk and plaza cleaning activities from polluting stormwater
N/A	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs

Comments:  
 In an effort to conserve water, Daly City did not perform any sidewalk/plaza pavement washing during this annual reporting period.

**C.2.c. ► Bridge and Structure Maintenance and Graffiti Removal**

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

N/A	Control of discharges from bridge and structural maintenance activities directly over water or into storm drains
Y	Control of discharges from graffiti removal activities
Y	Proper disposal for wastes generated from bridge and structure maintenance and graffiti removal activities
Y	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs for graffiti removal
Y	Employee training on proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.
Y	Contract specifications requiring proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.

Comments:  
 The City performs no bridge or structure maintenance activities directly over water or in areas where runoff would flow into a storm drain system. City of Daly City staff trained in the proper capture and disposal of graffiti removal waste when performing graffiti removal activities on public facilities.

C.2.e. ► Rural Public Works Construction and Maintenance			
Does your municipality own/maintain rural <sup>1</sup> roads:		<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
If your answer is <b>No</b> then skip to C.2.f.			
Place a <b>Y</b> in the boxes next to activities where applicable BMPs were implemented. If not applicable, type <b>NA</b> in the box and provide an explanation in the comments section below. Place an <b>N</b> in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.			
<input type="checkbox"/>	Control of road-related erosion and sediment transport from road design, construction, maintenance, and repairs in rural areas		
<input type="checkbox"/>	Identification and prioritization of rural road maintenance based on soil erosion potential, slope steepness, and stream habitat resources		
<input type="checkbox"/>	No impact to creek functions including migratory fish passage during construction of roads and culverts		
<input type="checkbox"/>	Inspection of rural roads for structural integrity and prevention of impact on water quality		
<input type="checkbox"/>	Maintenance of rural roads adjacent to streams and riparian habitat to reduce erosion, replace damaging shotgun culverts and excessive erosion		
<input type="checkbox"/>	Re-grading of unpaved rural roads to slope outward where consistent with road engineering safety standards, and installation of water bars as appropriate		
<input type="checkbox"/>	Inclusion of measures to reduce erosion, provide fish passage, and maintain natural stream geomorphology when replacing culverts or design of new culverts or bridge crossings		
Comments including listing increased maintenance in priority areas:			

<sup>1</sup>Rural means any watershed or portion thereof that is developed with large lot home-sites, such as one acre or larger, or with primarily agricultural, grazing or open space uses.

**C.2.f. ► Corporation Yard BMP Implementation**

Place an **X** in the boxes below that apply to your corporations yard(s):

<input type="checkbox"/>	We do not have a corporation yard
<input type="checkbox"/>	Our corporation yard is a filed NOI facility and regulated by the California State Industrial Stormwater NPDES General Permit
<input checked="" type="checkbox"/>	We have a <b>Stormwater Pollution Prevention Plan (SWPPP)</b> for the Corporation Yard(s)

Place an **X** in the boxes below next to implemented SWPPP BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

<input checked="" type="checkbox"/>	Control of pollutant discharges to storm drains such as wash waters from cleaning vehicles and equipment
<input checked="" type="checkbox"/>	Routine inspection prior to the rainy seasons of corporation yard(s) to ensure non-stormwater discharges have not entered the storm drain system
<input checked="" type="checkbox"/>	Containment of all vehicle and equipment wash areas through plumbing to sanitary or another collection method
<input checked="" type="checkbox"/>	Use of dry cleanup methods when cleaning debris and spills from corporation yard(s) or collection of all wash water and disposing of wash water to sanitary or other location where it does not impact surface or groundwater when wet cleanup methods are used
<input checked="" type="checkbox"/>	Cover and/or berm outdoor storage areas containing waste pollutants

Comments:  
 Daly City has two corporation yards that are inspected annually before the start of the rainy season.

If you have a corporation yard(s) that is not an NOI facility, complete the following table for inspection results for your corporation yard(s) or attach a summary including the following information:

Corporation Yard Name	Corp Yard Activities w/ site-specific SWPPP BMPs	Inspection Date <sup>2</sup>	Inspection Findings/Results	Date and Description of Follow-up and/or Corrective Actions
Westlake Pump Station	<ul style="list-style-type: none"> <li>Outdoor Material Storage Area</li> <li>Outdoor Waste, Recycling &amp; Scrap Metal Storage</li> </ul>	9/27/17	Pass – All BMPs in place before the start of the rainy season. Trough and perimeter drains cleaned of weeds and wind-blown litter.	None

<sup>2</sup> Minimum inspection frequency is once a year during September.

	<ul style="list-style-type: none"> <li>• Outdoor Vehicle and Heavy Equipment Storage</li> <li>• Washrack</li> <li>• General Housekeeping.</li> </ul>			
Niantic	<ul style="list-style-type: none"> <li>• Outdoor Fueling Area</li> <li>• Outdoor Material Storage Area</li> <li>• Outdoor Waste, Recycling and Scrap Metal Storage</li> <li>• Outdoor Vehicle and Heavy Equipment Storage with Maintenance Area</li> <li>• Employee Parking</li> <li>• Outdoor Washrack</li> <li>• Concrete Washout Area</li> <li>• General Housekeeping</li> </ul>	9/27/17	Pass – All BMPs in place before the start of the rainy season.	None

Section 3 - Provision C.3 Reporting New Development and Redevelopment

**C.3.b.iv.(2) ► Regulated Projects Reporting**

Fill in attached table C.3.b.iv.(2) or attach your own table including the same information.

**C.3.e.iv. ► Alternative or In-Lieu Compliance with Provision C.3.c.**

Is your agency choosing to require 100% LID treatment onsite for all Regulated Projects and not allow alternative compliance under Provision C.3.e.?	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No
--	--------------------------	-----	-------------------------------------	----

Comments (optional):

**C.3.e.v ► Special Projects Reporting**

1. In FY 2017-18, has your agency received, but not yet granted final discretionary approval of, a development permit application for a project that has been identified as a potential Special Project based on criteria listed in MRP Provision C.3.e.ii.(2) for any of the three categories of Special Projects (Categories A, B or C)?	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No
2. In FY 2017-18, has your agency granted final discretionary approval to a Special Project? If yes, include the project in both the C.3.b.iv.(2) Table, and the C.3.e.v. Table.	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No

If you answered "Yes" to either question,

- 1) Complete Table C.3.e.v.
- 2) Attach narrative discussion of 100% LID Feasibility or Infeasibility for each project.

**C.3.h.v.(2) ► Reporting Newly Installed Stormwater Treatment Systems and HM Controls (Optional)**

On an annual basis, before the wet season, provide a list of newly installed (installed within the reporting year) stormwater treatment systems and HM controls to the local mosquito and vector control agency and the Water Board. The list shall include the facility locations and a description of the stormwater treatment measures and HM controls installed.

**C.3.h.v.(3)(a) –(c) and (f) ► Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting**

Site Inspections Data	Number/Percentage
Total number of Regulated Projects (including offsite projects, and Regional Projects) in your agency's database or tabular format at the end of the previous fiscal year (FY16-17)	16
Total number of Regulated Projects (including offsite projects, and Regional Projects) in your agency's database or tabular format at the end of the reporting period (FY 17-18)	17
Total number of Regulated Projects (including offsite projects, and Regional Projects) for which O&M verification inspections were conducted during the reporting period (FY 17-18)	7
Percentage of the total number of Regulated Projects (including offsite projects, and Regional Projects) inspected during the reporting period (FY 17-18)	41% <sup>3</sup>

<sup>3</sup> Based on the number of Regulated Projects in the database or tabular format at the end of the previous fiscal year, per MRP Provision C.3.h.ii.(6)(b).

**C.3.h.v.(3)(d)-(e) ► Installed Stormwater Treatment Systems  
Operation and Maintenance Verification Inspection Program  
Reporting**

Provide a discussion of the inspection findings for the year and any common problems encountered with various types of treatment systems and/or HM controls. This discussion should include a general comparison to the inspection findings from the previous year.

Summary:

There were 7 sites that were inspected during the reporting period. All 7 sites were scheduled for a regular inspection. 1 regulated project was added to the O&M Inspection Program. The new site had a 3<sup>rd</sup> party new installation inspection. There are a total of 17 sites in the program. The following is a discussion of the O&M verification inspection findings for the 7 inspected sites:

AU Energy – Hillside: There are 3 separate bioretention areas that receive flow from various areas of the site. The areas needed litter and cigarette butts removed. Also, the rock energy dissipaters were missing in certain spots which also needed to be brought up to grade. A 30-day follow-up inspection confirmed that all litter was removed with new rocks installed to grade. There were no areas where bare soil was exposed.

Crestview Estates: A private HOA now manages the site. The site consists of 1 main bioretention area and 58 on lot areas. The main area had missing vegetation, depleted mulch thickness and rock energy dissipaters that needed to be brought up to grade. Also, there were broken filter screens in the overflow drain inlets that needed to be replaced. Compliance took longer than 30 days as a new landscape contractor had to be hired and the scope of work approved by the HOA. There were no rain events during the compliance period. New screens were installed; the area was cleaned of all wind-blown litter, the rocks were brought up to grade and a new layer of 3" mulch was installed. There were no issues with the other lot areas which are maintained daily/weekly.

Dick's Sporting Goods: Located at Serramonte Shopping Center. The area consists of 8 bioretention areas that receive flow from the parking lot. Rock dissipaters installed in a 2'x2' pattern are needed in most curb inlets. A 3" layer of mulch needs to be added between each plant in all areas. 30 day follow-up inspection confirmed that all rock dissipaters were installed to grade and new mulch installed.

Habitat for Humanity: Infiltration trench in landscape area. Landscape vegetation is healthy. No evidence of erosion and catch basins are clean. Inlet box is dry with no standing water. Three discharge pipes to the overflow outlet are free of debris and clean.

Peninsula Del Rey: The Flo-Gard Dual Vortex Hydrodynamic Separator provides gravity separation of suspended stormwater pollutants in a compact configuration. It receives flow from all catch basins on the property. The unit also captures floating debris and oil. The separator was inspected and cleaned of all accumulated sediment and debris by S.W.I.M.S.

Republic Services: They have 7 flow-through planters surrounding a new CNG fueling station. The planters had trash and litter in them. They also needed weeds pulled with energy dissipating rocks installed in damaged places. A 3" layer of mulch is needed on exposed soil areas. Roof leaders from a building need to be extended to the paved parking area which flows to the planters. A 30-day follow-up inspection confirmed that all trash and weeds were removed, dissipaters installed to grade, roof leaders extended and new mulch installed.

Taco Bell: Flow-through planters, permeable pavers and bioretention areas at this site. Flow-through planters had healthy vegetation with no erosion. Permeable pavers were in good shape with gravel joints very much intact. 1 bioretention area was a little scoured with bare soil exposed. Their landscaper immediately fixed the area by re-installing rock dissipaters and installing mulch.

Common problems found with all the bioretention sites are wind-blown debris and litter, missing or displaced rock dissipaters to grade, exposed soil and spent mulch. 30 day compliance was achieved in all but the one case where HOA board approval was needed to hire a

new landscape contractor and to approve the scope of work for the bioretention area.
Provide a discussion of the effectiveness of the O&M Program and any proposed changes to improve the O&M Program (e.g., changes in prioritization plan or frequency of O&M inspections, other changes to improve effectiveness program).
<p>Summary:</p> <p>Daly City's O&amp;M program remains effective. No changes were made during the reporting period. A contracted third party reviews the applicant's proposed treatment system design, installation, certification and to conduct the final inspection. Environmental Compliance staff will continue to do the O&amp;M verification inspections and provide enforcement. There was 1 site added to the O&amp;M program during the reporting period. There are currently 17 sites in the program.</p>

<b>C.3.h.v.(4) ► Enforcement Response Plan</b>				
Does your agency have an Enforcement Response Plan for all O&M inspections of stormwater treatment measures?	<input checked="" type="checkbox"/>	Yes	<input type="checkbox"/>	No
If No, explain:				

<b>C.3.i. ► Required Site Design Measures for Small Projects and Detached Single Family Home Projects</b>	
On an annual basis, discuss the implementation of the requirements of Provision C.3.i, including ordinance revisions, permit conditions, development of standard specifications and/or guidance materials, and staff training.	
<p>Summary:</p> <p>BASMAA prepared standard specifications in four fact sheets regarding the site design measures listed in Provision C.3.i, as a resource for Permittees. The City of Daly City, in issuing permits to projects that create and/or replace at least 2,500 square feet, but less than 10,000 square feet, of impervious surface, including stand-alone single family home projects that create and/or replace 2,500 square feet or more of impervious surface, requires that all such implement at least one of the site design measures listed in Provision C.3.i.</p> <ul style="list-style-type: none"> <li>• Direct roof runoff into cisterns or rain barrels for use.</li> </ul>	

- Direct roof runoff onto vegetated areas.
- Direct runoff from sidewalks, walkways, and/or patios onto vegetated areas.
- Direct runoff from driveways/uncovered parking lots onto vegetated areas.
- Construct sidewalks, walkways, and/or patios with permeable surfaces.<sup>2</sup>
- Construct bike lanes, driveways, and/or uncovered parking lots with permeable surfaces.

The City provides handouts to project sponsors of these requirements and Planning Division staff are trained to ensure all that all plan checks involving such projects, when applicable, incorporate the above measures. Such projects are furthermore required to provide a Stormwater Checklist for Small Projects upon discretionary application or building permit submittal.

**C.3.j.i.(5)(d) ► Green Infrastructure Outreach**

On an annual basis, provide a summary of your agency’s outreach and education efforts pertaining to Green Infrastructure planning and implementation.

Summary:

Staff has consistently participated in the countywide Green Infrastructure Committee. Staff has also attended the Stakeholders training for PCB reduction in October, 2017. An article regarding green infrastructure was published in the City newsletter which reaches out to businesses and residents in our community.

Please refer to the SMCWPPP FY 17-18 Annual Report for a summary of outreach efforts implemented at the countywide level.

**C.3.j.ii.(2) ► Early Implementation of Green Infrastructure Projects**

On an annual basis, submit a list of green infrastructure projects, public and private, that are already planned for implementation during the permit term and infrastructure projects planned for implementation during the permit term that have potential for green infrastructure measures. Include the following information:

- A summary of planning or implementation status for each public and private green infrastructure project that is not also a Regulated Project as defined in Provision C.3.b.ii. (see C.3.j.ii.(2) Table B - Planned Green Infrastructure Projects).
- A summary of how each public infrastructure project with green infrastructure potential will include green infrastructure measures to the maximum extent practicable during the permit term. For any public infrastructure project where implementation of green infrastructure measures is not practicable, submit a brief description of the project and the reasons green infrastructure measures were impracticable to implement (see C.3.j.ii.(2) Table A - Public Projects Reviewed for Green Infrastructure).

Background Information:

Describe how this provision is being implemented by your agency, including the process used by your agency to identify projects with potential for green infrastructure, if applicable.

<p><u>Summary of Planning or Implementation Status of Identified Projects:</u> See attached Tables C.3.j.ii.(2)-A and C.3.j.ii.(2)-B for the required information</p>
---

**C.3.j.iii.(2) ▶ Participate in Processes to Promote Green Infrastructure**

<p>On an annual basis, report on the goals and outcomes during the reporting year of work undertaken to participate in processes to promote green infrastructure.</p>
<p>Please refer to the SMCWPPP FY 17-18 Annual Report for a summary of efforts conducted to help regional, State, and federal agencies plan, design and fund incorporation of green infrastructure measures into local infrastructure projects, including transportation projects.</p>

**C.3.j.iv.(2) ▶ Tracking and Reporting Progress**

<p>On an annual basis, report progress on development and implementation of methods to track and report implementation of green infrastructure measures and provide reasonable assurance that wasteload allocations for TMDLs are being met.</p>
<p>Please refer to the SMCWPPP FY 17-18 Annual Report for a summary of methods being developed to track and report implementation of green infrastructure measures.</p>

**C.3.b.iv.(2) ► Regulated Projects Reporting Table (part 1) – Projects Approved During the Fiscal Year Reporting Period**

Project Name Project No.	Project Location <sup>4</sup> , Street Address	Name of Developer	Project Phase No. <sup>5</sup>	Project Type & Description <sup>6</sup>	Project Watershed <sup>7</sup>	Total Site Area (Acres)	Total Area of Land Disturbed (Acres)	Total New Impervious Surface Area (ft <sup>2</sup> ) <sup>8</sup>	Total Replaced Impervious Surface Area (ft <sup>2</sup> ) <sup>9</sup>	Total Pre- Project Impervious Surface Area <sup>10</sup> (ft <sup>2</sup> )	Total Post- Project Impervious Surface Area <sup>11</sup> (ft <sup>2</sup> )
<b>Private Projects</b>											
None to Report											
<b>Public Projects</b>											
None to Report											
Comments:											

<sup>4</sup>Include cross streets

<sup>5</sup>If a project is being constructed in phases, indicate the phase number and use a separate row entry for each phase. If not, enter "NA".

<sup>6</sup>Project Type is the type of development (i.e., new and/or redevelopment). Example descriptions of development are: 5-story office building, residential with 160 single-family homes with five 4-story buildings to contain 200 condominiums, 100 unit 2-story shopping mall, mixed use retail and residential development (apartments), industrial warehouse.

<sup>7</sup>State the watershed(s) in which the Regulated Project is located. Downstream watershed(s) may be included, but this is optional.

<sup>8</sup>All impervious surfaces added to any area of the site that was previously existing pervious surface.

<sup>9</sup>All impervious surfaces added to any area of the site that was previously existing impervious surface.

<sup>10</sup>For redevelopment projects, state the pre-project impervious surface area.

<sup>11</sup>For redevelopment projects, state the post-project impervious surface area.

**C.3.b.iv.(2) ► Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period (private projects)**

Project Name Project No.	Application Deemed Complete Date <sup>12</sup>	Application Final Approval Date <sup>13</sup>	Source Control Measures <sup>14</sup>	Site Design Measures <sup>15</sup>	Treatment Systems Approved <sup>16</sup>	Type of Operation & Maintenance Responsibility Mechanism <sup>17</sup>	Hydraulic Sizing Criteria <sup>18</sup>	Alternative Compliance Measures <sup>19/20</sup>	Alternative Certification <sup>21</sup>	HM Controls <sup>22/23</sup>
<b>Private Projects</b>										
None to Report										

<sup>12</sup>For private projects, state project application deemed complete date. If the project did not go through discretionary review, report the building permit issuance date.

<sup>13</sup>For private projects, state project application final discretionary approval date. If the project did not go through discretionary review, report the building permit issuance date.

<sup>14</sup>List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.

<sup>15</sup>List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.

<sup>16</sup>List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).

<sup>17</sup>List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.

<sup>18</sup>See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).

<sup>19</sup>For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.

<sup>20</sup>For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.

<sup>21</sup>Note whether a third party was used to certify the project design complies with Provision C.3.d.

<sup>22</sup>If HM control is not required, state why not.

<sup>23</sup>If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), bioretention unit(s), regional detention basin, or in-stream control).

Permittee Name: \_\_\_\_\_

**C.3.b.iv.(2) ► Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period (public projects)**

Project Name Project No.	Approval Date <sup>24</sup>	Date Construction Scheduled to Begin	Source Control Measures <sup>25</sup>	Site Design Measures <sup>26</sup>	Treatment Systems Approved <sup>27</sup>	Operation & Maintenance Responsibility Mechanism <sup>28</sup>	Hydraulic Sizing Criteria <sup>29</sup>	Alternative Compliance Measures <sup>30/31</sup>	Alternative Certification <sup>32</sup>	HM Controls <sup>33/34</sup>
<b>Public Projects</b>										
No public projects were approved in FY 17-18										
Comments:										

<sup>24</sup>For public projects, enter the plans and specifications approval date.

<sup>25</sup>List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.

<sup>26</sup>List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.

<sup>27</sup>List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).

<sup>28</sup>List the legal mechanism(s) (e.g., maintenance plan for O&M by public entity, etc.) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.

<sup>29</sup>See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).

<sup>30</sup>For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.

<sup>31</sup>For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.

<sup>32</sup>Note whether a third party was used to certify the project design complies with Provision C.3.d.

<sup>33</sup>If HM control is not required, state why not.

<sup>34</sup>If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), bioretention unit(s), regional detention basin, or in-stream control).

**C.3.h.v.(2). ► Table of Newly Installed<sup>35</sup> Stormwater Treatment Systems and Hydromodification Management (HM) Controls (Optional)**

Fill in table below or attach your own table including the same information.

Name of Facility	Address of Facility	Party Responsible <sup>36</sup> For Maintenance	Type of Treatment/HM Control(s)
Edgeworth Avenue Homes	1600-1656 Edgeworth Ave; 1629-1665 Annie St. Daly City, CA 94015	Edgeworth – Daly City, L.P. Pat Toohey	Bioretention & Pervious Pavement
Serramonte Shopping Center – Southeast Quadrant Redevelopment	5 Serramonte Center	Troy Brownlee - Regency Centers (owner)	Biotreatment areas (flow-through planter)
Serramonte Shopping Center – Southwest Quadrant Redevelopment	133 Serramonte Boulevard	Troy Brownlee - Regency Centers(owner)	Biotreatment areas (flow-through planter)
Serramonte Shopping Center – Parking Garage	3 Serramonte Center	Troy Brownlee - Regency Centers (owner)	Biotreatment areas (flow-through planter)
Verizon Store	137 Serramonte Boulevard	Alan Zimmerman – Pacific Royale (owner)	Biotreatment areas (flow-through planter)
Edgeworth Nursery Residential Subdivision	515 Washington Street	Homeowners Association	Biotreatment areas (flow-through planter)
Wellington Heights Residential Subdivision	387 Peoria Street	Homeowners Association	Biotreatment areas (flow-through planter)

<sup>35</sup> "Newly Installed" includes those facilities for which the final installation inspection was performed during this reporting year.

<sup>36</sup>State the responsible operator for installed stormwater treatment systems and HM controls.

C.3.e.v.Special Projects Reporting Table												
Reporting Period – July 1 2017 - June 30, 2018												
Project Name & No.	Permittee	Address	Application Submittal Date <sup>37</sup>	Status <sup>38</sup>	Description <sup>39</sup>	Site Total Acreage	Gross Density DU/Acre	Density FAR	Special Project Category <sup>40</sup>	LID Treatment Reduction Credit Available <sup>41</sup>	List of LID Stormwater Treatment Systems <sup>42</sup>	List of Non-LID Stormwater Treatment Systems <sup>43</sup>
N/A									Category A: Category B: Category C: Location: Density: Parking:	Category A: Category B: Category C: Location: Density: Parking:	Indicate each type of LID treatment system and % of total runoff treated.	Indicate each type of non-LID treatment system and % of total runoff treated. Indicate whether minimum design criteria met or certification received

<sup>37</sup>Date that a planning application for the Special Project was submitted.

<sup>38</sup> Indicate whether final discretionary approval is still pending or has been granted, and provide the date or version of the project plans upon which reporting is based.

<sup>39</sup>Type of project (commercial, mixed-use, residential), number of floors, number of units, type of parking, and other relevant information.

<sup>40</sup> For each applicable Special Project Category, list the specific criteria applied to determine applicability. For each non-applicable Special Project Category, indicate n/a.

<sup>41</sup>For each applicable Special Project Category, state the maximum total LID Treatment Reduction Credit available. For Category C Special Projects also list the individual Location, Density, and Minimized Surface Parking Credits available.

<sup>42</sup>. List all LID stormwater treatment systems proposed. For each type, indicate the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area.

<sup>43</sup>List all non-LID stormwater treatment systems proposed. For each type of non-LID treatment system, indicate: (1) the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area, and (2) whether the treatment system either meets minimum design criteria published by a government agency, or received certification issued by a government agency, and reference the applicable criteria or certification.

**Special Projects Narrative**

No special projects were approved in FY 17-18

**C.3.j.ii.(2) ► Table A - Public Projects Reviewed for Green Infrastructure**

Project Name and Location <sup>44</sup>	Project Description	Status <sup>45</sup>	GI Included? <sup>46</sup>	Description of GI Measures Considered and/or Proposed or Why GI is Impracticable to Implement <sup>47</sup>
John Daly Blvd Streetscape Bioswales	The project improves John Daly Blvd to enhance the multimodal connectivity between BART station at DeLong Street and the bus transit hub at Mission Street.	Project was completed on September 2017	Yes	The bioswales at John Daly Boulevard are integrated into the road medians and parallel to roadway to infiltrate and treat a portion of the stormwater volume. Surface runoff from the roadway enters the bioswale through the curb cuts and gets treated by the soil and vegetation prior to entering into the storm drain system.

<sup>44</sup> List each public project that is going through your agency’s process for identifying projects with green infrastructure potential.

<sup>45</sup> Indicate status of project, such as: beginning design, under design (or X% design), projected completion date, completed final design date, etc.

<sup>46</sup> Enter “Yes” if project will include GI measures, “No” if GI measures are impracticable to implement, or “TBD” if this has not yet been determined.

<sup>47</sup> Provide a summary of how each public infrastructure project with green infrastructure potential will include green infrastructure measures to the maximum extent practicable during the permit term. If review of the project indicates that implementation of green infrastructure measures is not practicable, provide the reasons why green infrastructure measures are impracticable to implement.

**C.3.j.ii.(2) ► Table B - Planned and/or Completed Green Infrastructure Projects**

Project Name and Location <sup>48</sup>	Project Description	Planning or Implementation Status	Green Infrastructure Measures Included
Westlake Elementary School Green Streets Improvements	Project includes new stormwater pedestrian bulb-outs at the southeast and northeast corners at the intersection of Fieldcrest Drive and Westlawn Avenue.	The design phase is almost complete. We anticipate construction will begin in Spring 2019.	The proposed stormwater curb extensions will receive stormwater runoff from impervious stormwater runoff from the public street and sidewalk.
Projects will be identified in the next CIP Budget (FY20-21) <small>51</small>			

<sup>48</sup> List each planned (and expected to be funded) public and private green infrastructure project that is not also a Regulated Project as defined in Provision C.3.b.ii. Note that funding for green infrastructure components may be anticipated but is not guaranteed to be available or sufficient.

Permittee Name: \_\_\_\_\_

**Section 4 – Provision C.4 Industrial and Commercial Site Controls**

**Program Highlights and Evaluation**

Highlight/summarize activities for reporting year:

Summary:

The Business Inspection Plan, Potential Facilities List and inspection database were updated. There continues to be no industries in Daly City. Daly City has commercial businesses which are predominantly food service establishments and vehicle service facilities.

152 business inspections were performed during the reporting period. Business inspections consist of a combination of stormwater, wastewater and water conservation inspection by Environmental Compliance staff. Businesses are given a priority rating of 1, 2 or 3 based on previous inspections and site performance. Businesses with a 1 priority are inspected every year. A site with a 2 priority is a medium priority site and inspected every two years. Sites with a 3 priority are low priority and inspected every three-five years. Enforcement during inspections follows the City’s ERP. Ward Donnelly continued to chair the C/I/I Subcommittee and attended meetings. Staff attended a 4-day stormwater municipal inspector training in July 2017. Daly City has never contracted with San Mateo County Environmental Health, we do our own inspections.

**C.4.b.iii ► Potential Facilities List (i.e., List of All Facilities Requiring Stormwater Inspections)**

List below or attach your list of industrial and commercial facilities in your Inspection Plan to inspect that could reasonably be considered to cause or contribute to pollution of stormwater runoff.

Please see Attachment 4-1 in the Appendix

**C.4.d.iii.(2)(a) & (c) ► Facility Inspections**

Fill out the following table or attach a summary of the following information. Indicate your reporting methodology below.

Permittee reports multiple discrete potential and actual discharges as one enforcement action.

Permittee reports the total number of discrete potential and actual discharges on each site.

	Number
Total number of inspections conducted (C.4.d.iii.(2)(a))	152
Violations, enforcement actions, or discreet number of potential and actual discharges resolved within 10 working days or otherwise deemed resolved in a longer but still timely manner (C.4.d.iii.(2)(c))	23

Comments:

There were 152 business inspections that included 14 follow-up inspections. There were 23 enforcement actions and all enforcement actions were resolved within 10 working days or otherwise deemed resolved in a longer but still timely manner.

Permittee Name: \_\_\_\_\_

**C.4.d.iii.(2)(b) ▶ Frequency and Type of Enforcement Conducted**

Fill out the following table or attach a summary of the following information.

	Enforcement Action (as listed in ERP) <sup>49</sup>	Number of Enforcement Actions Taken
Level 1	Verbal Warning	18
Level 2	Notice to Comply	2
Level 3	Notice of Violation	3
Level 4	Stop Work Order/Legal Notice	0
<b>Total</b>		23

**C.4.d.iii.(2)(d) ▶ Frequency of Potential and Actual Non-stormwater Discharges by Business Category**

Fill out the following table or attach a summary of the following information.

Business Category <sup>50</sup>	Number of Actual Discharges	Number of Potential Discharges
Food Service Establishments	3	4
Nursing/Assisted Living Facilities	3	0
Vehicle Service Facilities	1	2
Miscellaneous	0	4
Retail Food Services	0	2
Utility	0	2
Vehicle Miscellaneous	0	1
Retail Gasoline Outlet	0	1

**C.4.d.iii.(2)(e) ▶ Non-Filers**

List below or attach a list of the facilities required to have coverage under the Industrial General Permit but have not filed for coverage:

There were no businesses identified as non-filers for the reporting period.

<sup>49</sup>Agencies to list specific enforcement actions as defined in their ERPs.

<sup>50</sup>List your Program's standard business categories.

Permittee Name: \_\_\_\_\_

**C.4.e.iii ► Staff Training Summary**

Training Name	Training Dates	Topics Covered	No. of Industrial/ Commercial Site Inspectors in Attendance	Percent of Industrial/ Commercial Site Inspectors in Attendance	No. of IDDE Inspectors in Attendance	Percent of IDDE Inspectors in Attendance
National Stormwater Center - Certified Stormwater Inspector – MS4	7/17/17-7/20/17	All types of inspections including construction, illicit discharges, BMPs, PIP, reporting and permit requirements	1	100%	N/A	N/A
Comments: There is only 1 inspector that does both business inspections and illicit discharge investigations.						

Section 5 – Provision C.5 Illicit Discharge Detection and Elimination

**Program Highlights and Evaluation**

**Highlight/summarize activities for reporting year:**

Provide background information, highlights, trends, etc.

Summary:

Daly City continued with an aggressive illicit discharge detection program. Daly City utilizes surface detection as a primary means of identifying and preventing illicit discharges. There were 25 more illicit discharge complaints compared to last fiscal year. Daly City has seen a residential and commercial remodeling boom this last fiscal year which has resulted in an increase in illicit discharges. A majority of the discharges continue to be in residential areas caused by home improvement contractors or property owners. The types of discharges continue to be consistent with previous fiscal year data. Construction materials (40%) continue to be the major type of discharge found, just like last fiscal year, followed by vehicle fluids (15%). 67% of the illicit discharge complaints were from city staff and 31% from the public. Daly City continues to see the trend of San Francisco based contractors working in Daly City with little BMP knowledge. Education continues to be part of every illicit discharge investigation with BMP materials distributed as needed.

Ward Donnelly continues to chair SMCWPPP's C/I/I Subcommittee and attend meetings.

**C.5.c.iii ► Complaint and Spill Response Phone Number**

Summary of any changes made during FY 17-18:

There were no changes during the reporting period.

**C.5.d.iii.(1), (2), (3) ► Spill and Discharge Complaint Tracking**

Spill and Discharge Complaint Tracking (fill out the following table or include an attachment of the following information)

	Number
Discharges reported (C.5.d.iii.(1))	46
Discharges reaching storm drains and/or receiving waters (C.5.d.iii.(2))	30
Discharges resolved in a timely manner (C.5.d.iii.(3))	46

Comments:

Daly City continues to have an aggressive, proactive and reactive illicit discharge detection, elimination and response program. Environmental Compliance staff responds to all complaints that have a potential to pose a threat to water quality. Daly City is extremely aggressive in mitigating illicit discharges. In most cases, the discharges are abated the same day, on the spot, with cleanup required almost immediately. Abatement and cleanup is usually done by the responsible party and involves immediate cessation of the discharge, education, enforcement, utilizing dry cleanup methods and BMP implementation, all under the direction of Environmental Compliance staff. If there is evidence of a discharge and the discharge has occurred in the past, the responsible party, if found, is still accountable for cleaning the affected areas. If the responsible party is unable to clean up or lacks the resources, Daly City staff will clean and/or abate the discharge. Daly City can recover costs for services rendered.

If no responsible party is found, city staff will clean all affected areas, absorbing the costs.

There were 48 illicit discharge complaints. Of the 48 complaints, 2 had no merit where there was nothing to be found. There were a total of 46 discharges. 30 discharges reached the storm drain. 16 discharges did not reach the storm drain. All 46 discharges were resolved in a timely manner. All information is entered on the Complaint/Spill/Discharge Tracking Spreadsheet. The spreadsheet also includes discharges from mobile businesses. Daly City also utilizes illicit discharge source identification forms (field) to aid in documentation when necessary. If a complaint is received and is found to be unsubstantiated in the field, the data is still entered in the tracking spreadsheet and noted in the "Nothing Found to Abate" section. Daly City utilizes large vacuum trucks, sand bags, grease sweep, berms, booms, diversion to landscape, disposal to the sanitary sewer, etc. to prevent discharges from reaching the conveyance system, Pacific Ocean and Bay.

Section 6 – Provision C.6 Construction Site Controls

<b>C.6.e.iii.(3)(a), (b), (c), (d) ▶ Site/Inspection Totals</b>			
Number of active Hillside Sites (sites disturbing < 1 acre of soil requiring storm water runoff quality inspection) (C.6.e.iii.3.a)	Number of High Priority Sites (sites disturbing < 1 acre of soil requiring storm water runoff quality inspection) (C.6.e.iii. 3.c)	Number of sites disturbing ≥ 1 acre of soil (C.6.e.iii.3.b)	Total number of storm water runoff quality inspections conducted (include only Hillside Sites, High Priority Sites and sites disturbing 1 acre or more) (C.6.e.iii. 3.d)
# 2	# 0	# 3	# 32
Comments: The Brunswick Senior Apartments and West Coast Self-Storage were classified as Hillside Sites. The Brunswick Senior Apartments disturbs around 35,000 square feet and the West Coast Self-Storage disturbs around 40,000 square feet of land area. One of the projects did not run for the seven months in the winter, and that's why only 32 inspections were conducted.			

<b>C.6.e.iii.(3)(e) ▶ Construction Related Storm Water Enforcement Actions</b>		
	Enforcement Action (as listed in ERP) <sup>51</sup>	Number Enforcement Actions Issued
Level 1 <sup>52</sup>	Verbal Warning	1
Level 2	Written Warning/Notice to Comply	0
Level 3	Stop Work order/Notice of Violation	1
Level 4	Administrative Fine/Legal Notice	0
<b>Total</b>		<b>2</b>

<sup>51</sup>Agencies should list the specific enforcement actions as defined in their ERPs.

<sup>52</sup>For example, Enforcement Level 1 may be Verbal Warning.

**C.6.e.iii.(3)(f) ► Illicit Discharges**

		Number
Number of illicit discharges, actual and those inferred through evidence at hillside sites, high priority sites and sites that disturb 1 acre or more of land (C.6.e.iii. 3.f)		1

**C.6.e.iii.(3)(g) ► Corrective Actions**

Indicate your reporting methodology below.		
<input type="checkbox"/>	Permittee reports multiple discrete potential and actual discharges as one enforcement action.	
<input checked="" type="checkbox"/>	Permittee reports the total number of discrete potential and actual discharges on each site.	
		Number
Enforcement actions or discrete potential and actual discharges fully corrected within 10 business days after violations are discovered or otherwise considered corrected in a timely period (C.6.e.iii. .3.g)		2
Comments: This year we had two corrective actions.		

**C.6.e.iii.(4) ► Evaluation of Inspection Data**

Describe your evaluation of the tracking data and data summaries and provide information on the evaluation results (e.g., data trends, typical BMP performance issues, comparisons to previous years, etc.).
Description: This year we issued two warnings for our projects. There were problems and maintenance needed with the Sediment Control and Run-on and Runoff. Last year we did not need to issue any warnings for our projects.

**C.6.e.iii.(4) ► Evaluation of Inspection Program Effectiveness**

Describe what appear to be your program’s strengths and weaknesses, and identify needed improvements, including education and outreach.
Description: Daly City’s inspector has been performing the construction site inspection report for over 11 years for the City. All reported violations in the past few years were minor in nature and corrections were very minimal. The City can improve the training of staff with MRP updates.

**C.6.f.iii ▶ Staff Training Summary**

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance
SMCWPPP Construction Stormwater Inspection Training	3/20/2018	Best Management Practices (BMPs) MRP Construction Site Control Program Requirements	2

**Section 7 – Provision C.7. Public Information and Outreach**

**C.7.b.i.1 ► Outreach Campaign**

Summarize outreach campaign. Include details such as messages, creative developed, and outreach media used. The detailed outreach campaign report may be included as an attachment. If outreach campaign is being done by participation in a countywide or regional program, refer to the separate countywide or regional Annual Report.

Summary:

See Section 7 and Section 9 of the SMCWPPP FY 17-18 Annual Report for a description of outreach campaign activities conducted at the countywide level.

**C.7.c. Stormwater Pollution Prevention Education**

There was no change during the reporting period.

Permittee Name: \_\_\_\_\_

**C.7.d ► Public Outreach and Citizen Involvement Events**

Describe general approach to event selection. Provide a list of outreach materials and giveaways distributed. Use the following table for reporting and evaluating public outreach events

Daly City’s general approach to event selection has been to pursue those events that meet a broad spectrum of people. The following table represents 16 local events and 2 countywide events. Also, See Section 7 of the SMCWPPP FY 17-18 Annual Report for a description of public outreach and citizen involvement event activities conducted at the countywide level.

Event Details	Description (messages, audience)	Evaluation of Effectiveness
<p style="text-align: center;"><u>Local Events</u></p> <ol style="list-style-type: none"> <li>1. Treatment Plant &amp; Gateway Garden Tour – 7/14/17, NSMCSD Plant</li> <li>2. <p>The following involvement events were conducted on a countywide level by SMCWPPP and are described in detail in the Public Information &amp; Outreach section of the SMCWPPP FY 17-18 Annual Report:</p> <ol style="list-style-type: none"> <li>1. Coastal Cleanup Day, 9/16/17</li> <li>2. San Mateo County Fair, 6/9-6/17/18</li> </ol>	<ol style="list-style-type: none"> <li>1. Daly City promoted California Coastal Cleanup Day by advertising the event. Daly City participated in its own local event at Thornton Beach with information included in this section of the Annual Report.</li> <li>2. Daly City promoted the San Mateo County Fair by advertising the event at local community centers and libraries.</li> </ol>	<p>See the C.7 Public Outreach and Citizen Involvement Events section of SMCWPPP FY 17-18 Annual Report for a summary of activities.</p>

Permittee Name: \_\_\_\_\_

**C.7.e. ► Watershed Stewardship Collaborative Efforts**

Summarize watershed stewardship collaborative efforts and/or refer to a regional report that provides details. Describe the level of effort and support given (e.g., funding only, active participation etc.). State efforts undertaken and the results of these efforts. If this activity is done regionally refer to a regional report.

Evaluate effectiveness by describing the following:

- Efforts undertaken
- Major accomplishments

Summary:

See Section 7 of the SMCWPPP FY 17-18 Annual Report for a description of watershed stewardship collaborative efforts conducted at the countywide level.

**C.7.f. ► School-Age Children Outreach**

Summarize school-age children outreach programs implemented. A detailed report may be included as an attachment.

Use the following table for reporting school-age children outreach efforts.

**Daly City continues to combine resources and partner with BAWSCA for school assemblies. The outreach table below summarizes the local outreach provided by EarthCapades. See Section 7 of the SMCWPPP FY 17-18 Annual Report for a description of school-age children outreach efforts conducted at the countywide level.**

Program Details	Focus & Short Description	Number of Students/Teachers reached	Evaluation of Effectiveness
1. Thomas Edison Elementary	EarthCapades targeted 16 schools and the public library providing 32 shows. EarthCapades is a group that provides assemblies emphasizing all phases of pollution prevention through music, dance and vaudeville entertainment.	1. 450	Teachers and administrators were asked to reply to an online survey regarding their experience with the EarthCapades program. 76% rated the message as excellent. 19% said it was very good and 5% said it was good. The teachers and administrators would like to see the program continue.
2. George Washington Elementary		2. 400	
3. Skyline Elementary		3. 440	
4. Marjorie H. Tobias Elementary		4. 400	
5. Our Lady of Perpetual Help Elementary		5. 180

Section 9 – Provision C.9 Pesticides Toxicity Controls

**C.9.a. ► Implement IPM Policy or Ordinance**

Is your municipality implementing its IPM Policy/Ordinance and Standard Operating Procedures?	<input checked="" type="checkbox"/>	Yes	<input type="checkbox"/>	No
---	-------------------------------------	-----	--------------------------	----

If no, explain:

Report implementation of IPM BMPs by showing trends in quantities and types of pesticides used, and suggest reasons for increases in use of pesticides that threaten water quality, specifically organophosphates, pyrethroids, carbamates fipronil, indoxacarb, diuron, and diamides. A separate report can be attached as evidence of your implementation.

**Trends in Quantities and Types of Pesticide Active Ingredients Used<sup>53</sup>**

Pesticide Category and Specific Pesticide Active Ingredient Used	Amount <sup>54</sup>					
	FY 15-16	FY 16-17	FY 17-18	FY 18-19	FY 19-20	FY 20-21
<b>Organophosphates</b>	0	0	0			
Active Ingredient Chlorpyrifos	0	0	0			
Active Ingredient Diazinon	0	0	0			
Active Ingredient Malathion	0	0	0			
<b>Pyrethroids (see footnote #57 for list of active ingredients)</b>	0	0	0			
Active Ingredient Type X	0	0	0			
Active Ingredient Type Y	0	0	0			
<b>Carbamates</b>	0	0	0			
Active Ingredient Carbaryl	0	0	0			
Active Ingredient Aldicarb	0	0	0			
<b>Fipronil</b>	0	0	0			
<b>Indoxacarb</b>	Reporting	0	0			

<sup>53</sup>Includes all municipal structural and landscape pesticide usage by employees and contractors.

<sup>54</sup>Weight or volume of the active ingredient, using same units for the product each year. Please specify units used. The active ingredients in any pesticide are listed on the label. The list of active ingredients that need to be reported in the pyrethroids class includes: metofluthrin, bifenthrin, cyfluthrin, beta-cyfluthrin, cypermethrin, deltamethrin, esfenvalerate, lambdacyhalothrin, and permethrin.

	not required in FY 15-16					
Diuron	Reporting not required in FY 15-16	0	0	0		
Diamides	Reporting not required in FY 15-16	0	0	0		
Active Ingredient Chlorantraniliprole		0	0	0		
Active Ingredient Cyantraniliprole		0	0	0		
IPM Tactics and Strategies Used: <ul style="list-style-type: none"> <li>• Use of non-chemical strategies such as monitoring, mowing weeds, line trimming, and mulching.</li> <li>• Use of baits and traps instead of broadcast pesticides</li> </ul>						

<b>C.9.b ▶ Train Municipal Employees</b>	
Enter the number of employees that applied or used pesticides (including herbicides) within the scope of their duties this reporting year.	10
Enter the number of these employees who received training on your IPM policy and IPM standard operating procedures within this reporting year.	10
Enter the percentage of municipal employees who apply pesticides who have received training in the IPM policy and IPM standard operating procedures within this reporting year.	100
Type of Training: SMCWPPP Landscape IPM Training held on March 7, 2018, SMCWPPP IPM Contractor Management Workshop held on May 15, 2018) Annual City of Daly City Pesticide and IPM Employee Training January 2018	

Permittee Name: \_\_\_\_\_

<b>C.9.c ▶ Require Contractors to Implement IPM</b>			
Did your municipality contract with any pesticide service provider in the reporting year, for either landscaping or structural pest control?	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/> No
If yes, did your municipality evaluate the contractor’s list of pesticides and amounts of active ingredients used?	<input type="checkbox"/>	Yes	<input type="checkbox"/> No,
If your municipality contracted with any pesticide service provider, briefly describe how contractor compliance with IPM Policy/Ordinance and SOPs was monitored			

<b>C.9.d ▶ Interface with County Agricultural Commissioners</b>			
Did your municipality communicate with the County Agricultural Commissioner to: (a) get input and assistance on urban pest management practices and use of pesticides or (b) inform them of water quality issues related to pesticides,	<input checked="" type="checkbox"/>	Yes	<input type="checkbox"/> No
If yes, summarize the communication. If no, explain. See Section 9 of the SMCWPPP FY 17-18 Annual Report for a summary of communication with the San Mateo County Agricultural Commissioner.			
Did your municipality report any observed or citizen-reported violations of pesticide regulations (e.g., illegal handling and applications of pesticides) associated with stormwater management, particularly the California Department of Pesticide Regulation (DPR) surface water protection regulations for outdoor, nonagricultural use of pyrethroid pesticides by any person performing pest control for hire.	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/> No
If yes, provide a summary of improper pesticide usage reported to the County Agricultural Commissioner and follow-up actions taken to correct any violations. A separate report can be attached as your summary.			

<b>C.9.e.ii (1) ▶ Public Outreach: Point of Purchase</b>
Provide a summary of public outreach at point of purchase, and any measurable awareness and behavior changes resulting from outreach (here or in a separate report); <b>OR</b> reference a report of a regional effort for public outreach in which your agency participates.
Summary: See Section 9 of the SMCWPPP FY 17-18 Annual Report for a description of point of purchase public outreach efforts conducted at the countywide level and regionally

Permittee Name: \_\_\_\_\_

**C.9.e.ii (2) ► Public Outreach: Pest Control Contracting Outreach**

Provide a summary of outreach to residents who use or contract for structural pest control and landscape professionals); **AND/OR** reference a report of a regional effort for outreach to residents who hire pest control and landscape professionals in which your agency participates.

Summary:

See Section 9 of the SMCWPPP FY 17-18 Annual Report for a summary of outreach to residents who hire pest control and landscape professionals.

**C.9.e.ii.(3) ► Public Outreach: Pest Control Operators**

Provide a summary of public outreach to pest control operators and landscapers and reduced pesticide use (here or in a separate report); **AND/OR** reference a report of a regional effort for outreach to pest control operators and landscapers in which your agency participates.

Summary:

See Section 9 of the SMCWPPP FY 17-18 Annual Report for a summary of pest control operators and landscapers to reduce pesticide use.

**C.9.f ► Track and Participate in Relevant Regulatory Processes**

Summarize participation efforts, information submitted, and how regulatory actions were affected; **AND/OR** reference a regional report that summarizes regional participation efforts, information submitted, and how regulatory actions were affected.

Summary:

During FY 17-18, we participated in regulatory processes related to pesticides through contributions to the Countywide Program, BASMAA and CASQA. For additional information, see the Regional Report submitted by BASMAA on behalf of all MRP Permittees.

Section 10 - Provision C.10 Trash Load Reduction

**C.10.a.i ► Trash Load Reduction Summary**

For population-based Permittees, provide the overall trash reduction percentage achieved to-date within the jurisdictional area of your municipality that generates problematic trash levels (i.e., Very High, High or Moderate trash generation). Base the reduction percentage on the information presented in C.10.b i-iv and C.10.e.i-ii. Provide a discussion of the calculation used to produce the reduction percentage	
<b>Trash Load Reductions</b>	
Percent Trash Reduction in All Trash Management Areas (TMAs) due to <b>Trash Full Capture Systems</b> (as reported C.10.b.i)	46.5%
Percent Trash Reduction in all TMAs due to <b>Control Measures Other than Trash Full Capture Systems</b> (as reported in C.10.b.ii) <sup>109</sup>	20.4%
Percent Trash Reduction due to <b>Jurisdictional-wide Source Control Actions</b> (as reported in C.10.b.iv)	10.0%
<b>SubTotal for Above Actions</b>	<b>76.9%</b>
<b>Trash Offsets (Optional)</b>	
Offset Associated with Additional Creek and Shoreline Cleanups (as reported in C.10.e.i)	0.0%
Offset Associated with Direct Trash Discharges (as reported in C.10.e.ii)	0.0%
<b>Total (Jurisdictional-wide) % Trash Load Reduction through FY 2017-18</b>	<b>76.9%</b>
<p><b>Discussion of Trash Load Reduction Calculation:</b>          The City attained and reported 71.3% trash load reduction (including trash offsets) in its FY 16-17 Annual Report. During FY 17-18, the City continued to implement a robust trash control measure program. This helped the City maintain and increase its trash load reduction above the mandatory 70% trash load reduction requirement included in the MRP. The total (jurisdiction-wide) percent trash load reduction in FY 17-18 is 76.9% (including trash offsets). The most recent version of the City's Baseline Trash Generation Map can be downloaded at <a href="http://www.flowstobay.org/content/municipal-trash-generation-maps">http://www.flowstobay.org/content/municipal-trash-generation-maps</a></p>	

<sup>109</sup> See Appendix 10-1 for changes between 2009 and FY 17-18 in trash generation by TMA as a result of Full Capture Systems and Other Measures.

**C.10.a.ii.b ► Trash Generation Area Management - Identification of Private Drainages >10,000 ft<sup>2</sup>**

State (Y/N) if your agency completed Permit Provision C.10.a.ii.b. If Yes, attach a map (or other record) or provide a website link to a map (or other record) of the location of lands >10,000 ft<sup>2</sup> (in Very High, High, and Moderate trash generation areas) that are plumbed directly to the Permittee’s storm drain systems, including trash control status of these areas. If No, provide explanation of why the provision was not completed and the estimated date when the provision will be completed.

<b>Did your agency complete Permit Provision C.10.a.ii.b?</b>	<input checked="" type="checkbox"/>	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> NA
---	-------------------------------------	------------------------------	-----------------------------	-----------------------------

**If No, provide explanation and estimated completion date:**

Not Applicable

**Description of the process used to identify applicable areas and their trash control status:**

The City worked through SMCWPPP to identify the location of land areas >10,000 ft<sup>2</sup> in very high, high, and moderate trash generation areas (as depicted on the City’s baseline trash generation map) that are plumbed directly to the City’s MS4. In summary, applicable land areas were identified using existing data/information and a combination of desktop analyses and field visits. Land areas <10,000 ft<sup>2</sup>, or areas identified as low trash generating on the City’s baseline trash generation maps, or are currently treated by full capture systems were excluded from the analysis. The preliminary trash control status of these land areas were identified by conducting virtual (desktop) on-land visual trash assessments (OVTAs). For a complete description of the methods and process used to identify applicable land areas and their trash control status, please see the SMCWPPP FY 17-18 Annual Report.

**URL link to Map:**

<http://www.flowstobay.org/content/municipal-trash-generation-maps>

**C.10.a.iii ► Mandatory Trash Full Capture Systems**

Provide the following:

- 1) Total number and types of full capture systems (publicly and privately-owned) installed prior to FY 17-18, during FY 17-18, and to-date, including inlet-based and large flow-through or end-of-pipe systems, and qualifying low impact development (LID) required by permit provision C.3.
- 2) Total land area (acres) treated by full capture systems for population-based Permittees and total number of systems for non-population based Permittees compared to the total required by the permit.

Type of System	# of Systems	Areas Treated (Acres)
<b>Installed Prior to FY 17-18</b>		
Connector Pipe Screens (Public)	396	507.3
Connector Pipe Screens (Private)	36	15.5
<b>Installed in FY 17-18</b>		
None		
<b>Total for all Systems Installed To-date</b>	<b>432</b>	<b>522.8</b>
<b>Treatment Acreage Required by Permit (Population-based Permittees)</b>		<b>73</b>
<b>Total # of Systems Required by Permit (Non-population-based Permittees)</b>		<b>N/A</b>

**C.10.b.i ► Trash Reduction - Full Capture Systems**

Provide the following:

- 1) Jurisdictional-wide trash reduction in FY 17-18 attributable to trash full capture systems implemented in each TMA;
- 2) The total number of full capture systems installed to-date in your jurisdiction;
- 3) The percentage of systems in FY 17-18 that exhibited significant plugged/blinded screens or were >50% full when inspected or maintained;
- 4) A narrative summary of any maintenance issues and the corrective actions taken to avoid future full capture system performance issues; and
- 5) A certification that each full capture system is operated and maintained to meet the full capture system requirements in the permit.

TMA	Jurisdiction-wide Reduction (%)	Total # of Full Capture Systems	% of Systems Exhibiting Plugged/Blinded Screens or >50% full in FY 17-18	Summary of Maintenance Issues and Corrective Actions
1	0.0%	432	The information below is based on inspecting 394 full capture devices. Although it is noted that 432 full capture devices are installed, 36 were private and 2 were still punchlist items on the Phase II installation project. Also, documentation on 96 devices was lost (294 devices have documentation). Of the 294 documented inspections, 30 devices (8%) were reported as being >50% full.	The City of Daly City did not find any maintenance issues with the full trash capture devices installed. Staff could clean all full capture devices either by hand or with vacuum operated equipment. Maintenance issues stem from reporting/documentation and not from field operations & maintenance. Going from a paper-based inspection program of 63 devices to a paper-based 396 inspection has proven to be untenable. The City is in the process of replacing the paper-based reporting process with a process based in a new asset management system (Lucity) for FY 2018-19.
2	8.6%			
3	1.7%			
4	7.4%			
5	24.4%			
6	3.5%			
7	0.0%			
<b>Total</b>	<b>46.5%*</b>			

**Certification Statement:**  
*The City of Daly City certifies that a full capture system maintenance and operation program is currently being implemented to maintain all applicable systems in manner that meets the full capture system requirements included in the Permit.*

\*The % reduction from full capture includes 0.8% for 17.8 acres of full capture covering non-jurisdictional public K-12, college and university school area

<b>C.10.b.ii ► Trash Reduction – Other Trash Management Actions (PART A)</b>	
Provide a summary of trash control actions other than full capture systems or jurisdictional source controls that were implemented within each TMA, including the types of actions, levels and areal extent of implementation, and whether actions are new, including initiation date.	
<b>TMA</b>	<b>Summary of Trash Control Actions Other than Full Capture Systems</b>
<b>All TMAs</b>	City-wide to-the-curb street sweeping has been in effect since the Fall of 2007. The City of Daly City's current street sweeping program includes sweeping most streets in residential and retail areas once (1) per week, and sweeping most of the major arterial roadways (e.g., Mission Street) five (5) time per week. The northern segment of Mission Street and a few other streets are swept three (3) times per week. The City mechanically sweeps 12,600 curb miles of roadway annually. Parking enforcement exist for all streets within the City. This includes signage on streets indicating sweeping schedules and that no-parking is allowed during designated sweeping days and times, and enforcement (citation).
<b>All TMAs</b>	City of Daly City employs one temporary hourly staff to remove litter/debris from the public right-of-way, four days a week. The staff focus their effort on removing litter/debris in areas where mechanical street sweeping is not possible (i.e., bulb outs, alleys, areas of heavy pedestrian traffic, and commercial areas.)
<b>All TMAs</b>	City of Daly City inspects and cleans all storm drain catch basins annually.
<b>3</b>	City of Daly City inspects and cleans storm drain lines draining from HWY 35 to Higate Dr. (14 storm drain catch basins and 350' of storm drain pipe ranging from 12" to 24" in diameter).
<b>1</b>	Improved Trash Bin/Container Management – Since March 2015 four "Bear Boxes" were installed in place of open mouth trash/recycling containers at coastal access points (Thornton Beach Overlook and Muscle Rock). Since the installation of the Bear Boxes, trash scattering from wind and foraging animals has been eliminated.
<b>2, 4, 5, 6</b>	Improved Trash Bin/Container Management – The City of Daly City installed 32 "Big Belly Solar" (16 trash and 16 Recycling) waste management containers in high trash generation areas throughout the TMAs noted (FY2012-13). The locations have been carefully selected to target areas where bin overflow issues are known to occur. Top of the Hill area: Mission St. and John Daly Blvd., War Memorial Community Center, Civic Center South, Gellert Park/Serramonte Library, and Westlake Park.

**Summary of Trash Control Measures Other than Full Capture Devices: (Do not delete this section)**

- **Street Sweeping:** Include a description of any enhancements or new actions implemented after the MRP 1.0 effective date (i.e., December 2009). Identify portions of the TMA where enhanced street sweeping (i.e., increased sweeping frequency) and parking enforcement above 2009 levels was implemented.
- **On-land Cleanup:** Include a description of on-land cleanup activities that began after the MRP 1.0 effective date (i.e., December 2009) and continued into FY 17-18, including any enhancements or new actions implemented in FY 17-18. Describe if these actions are Permittee or volunteer-led.
- **Partial Capture Devices:** Provide a description of devices installed after the MRP 1.0 effective date (i.e., December 2009). Describe the level of maintenance conducted per device types.
- **Storm Drain Inlet Cleaning:** Describe storm drain inlet maintenance activities implemented after the MRP 1.0 effective date (i.e., December 2009) and continued in FY 17-18, including any enhancements or new maintenance activities implemented in FY 17-18. For new/enhanced actions, include the number of inlets where enhanced maintenance occurred, and the increased frequency of maintenance.
- **Uncovered Loads:** Describe activities designed to reduce trash from uncovered loads that began after the MRP 1.0 effective date (i.e., December 2009) and continued in FY 17-18, including any enhancements or new actions implemented in FY 17-18. Describe the types of actions implemented including new or redirected enforcement efforts to increase the focus towards new or enhanced actions.
- **Anti-littering and illegal dumping enforcement activities:** Describe anti-littering and illegal dumping enforcement activities began after to the MRP 1.0 effective date (i.e., December 2009) and continued in FY 17-18, and any enhancements or new actions implemented in FY 17-18. Include any new or redirected enforcement efforts to increase the focus towards new or enhanced actions. Describe the number of citations or other correction actions accomplished this year, and compare with previous years. Indicate how anti-littering and illegal dumping enforcement records are kept, and how they may be retrieved for audit.
- **Improved Trash Bin/Container Management:** Describe activities designed to improve trash bin/container management that began after the MRP1.0 effective date (i.e., December 2009) and continued in FY 17-18, and any enhancements or new actions implemented in FY 17-18. Include any new or redirected efforts to increase the focus towards these new or enhanced actions.
- **Other Types of Actions:** Describe activities designed after the MRP effective date (i.e., December 2009) and continued in FY 17-18, and any enhancements or new (post December 2009 effective date) actions implemented in FY 17-18.

**C.10.b.ii ► Trash Reduction – Other Trash Management Actions (PART B)**

Provide the following:

- 1) A summary of the on-land visual assessments in each TMA (or control measure area), including the street miles or acres available for assessment (i.e., those associated with VH, H, or M trash generation areas not treated by full capture systems), the street miles or acres assessed, the % of available street miles or acres assessed, and the average number of assessments conducted per site within the TMA; and
- 2) Percent jurisdictional-wide trash reduction in FY 17-18 attributable to trash management actions other than full capture systems implemented in each TMA; OR
- 3) Indicate that no on-land visual assessments were performed.

If no on-land visual assessments were performed, check here and state why:

<b>X</b>	<b>Explanation:</b> No OVTAs were conducted in TMA #1 in FY 17/18 because limited street lengths were available for assessments. No OVTAs were conducted in TMA #6 in FY17/18 because the majority of the TMA is low trash generating as depicted on the baseline map and includes non-jurisdictional areas.
----------	--

TMA ID <i>or (as applicable)</i> Control Measure Area	Total Street Miles <sup>56</sup> or Acres Available for Assessment	Summary of On-land Visual Assessments			Jurisdictional-wide Reduction (%)
		Street Miles or Acres Assessed	% of Available Street Miles or Acres Assessed	Avg. # of Assessments Conducted at Each Site	
1	0.43	0.00	0.0%	0.0	0.0%
2	3.28	1.01	30.7%	3.0	6.9%
3	2.04	0.80	39.5%	3.0	2.8%
4	2.33	0.65	27.9%	3.0	9.4%

<b>Total</b>		<b>3.69</b>	-	-	<b>20.4%</b>

<sup>56</sup> Linear feet are defined as the street length and do not include street median curbs.

**C.10.b.iv ► Trash Reduction – Source Controls**

Provide a description of each jurisdictional-wide trash source control action implemented to-date. For each control action, identify the trash reduction evaluation method(s) used to demonstrate on-going reductions, summarize the results of the evaluation(s), and estimate the associated reduction of trash within your jurisdictional area. Note: There is a maximum of 10% total credit for source controls.

Source Control Action	Summary Description & Dominant Trash Sources and Types Targeted	Evaluation/Enforcement Method(s)	Summary of Evaluation/Enforcement Results To-date	% Reduction	Total Reduction Credit (%)
Single-Use Bag Ordinance	Single-use carryout bags were prohibited at retail stores within Daly City as of April 22, 2013 (Earth Day): <a href="http://www.dalycity.org/City_Hall/City_News/_Announcements/City_News/PlasticBagBan_s1_p2795.htm">http://www.dalycity.org/City_Hall/City_News/_Announcements/City_News/PlasticBagBan_s1_p2795.htm</a>	On behalf of all SMCWPPP Permittees, the County of San Mateo conducted assessments evaluating the effectiveness of the single use plastic bag ban in municipalities within San Mateo County. Assessments conducted by the County included audits of businesses and surveys of customer bag usage at many businesses in San Mateo County. Additionally, the number of complaints by customers was also tracked by the County. The results of assessments conducted by these cities are assumed to be representative of all SMCWPPP Permittees, given the consistency between the scope, implementation, and enforcement of the ordinances among the municipalities. The City developed its % trash reduced estimate using the following assumptions:  1.) Single use plastic bags comprise 8% of the trash discharged from stormwater conveyances, based on the Regional Trash Generation Study conducted by BASMAA;	Results of assessments conducted by the County of San Mateo on behalf of all municipalities in San Mateo County indicate that the City's ordinance is effective in reducing the number of single use plastic bags in stormwater discharges. This preliminary conclusion is based on the very small number of complaints received from customers about businesses in San Mateo County that are continuing to use single use plastic bags after ordinances were adopted. Assuming single use bags are 8% of the trash observed in stormwater discharges, the City concludes that there has been a 7% (i.e., 8% x 86% effectiveness in reducing bags) reduction in trash in stormwater discharges as a result of the City's ordinance.	7%	

C.10.b.iv ► Trash Reduction – Source Controls					
Provide a description of each jurisdictional-wide trash source control action implemented to-date. For each control action, identify the trash reduction evaluation method(s) used to demonstrate on-going reductions, summarize the results of the evaluation(s), and estimate the associated reduction of trash within your jurisdictional area. Note: There is a maximum of 10% total credit for source controls.					
		<p>2) 95% of single use plastic bags distributed in the City are affected by the implementation of the ordinance, based on the County of San Mateo’s Environmental Impact Report; and</p> <p>3) Of the bags affected by the ordinance, there are now 90% less bags being distributed, based on customer complaints received by the County of San Mateo’s Department of Environmental Health Services. This is conservative estimate given that in FY 13-14 Environmental Services only received complaints about 4, of the over 1900 businesses in San Mateo County that are affected by the single-use plastic bag ordinances.</p>			
Expanded Polystyrene Food Service Ware Ordinance	<p>Polystyrene Food Service Ware was banned by City Ordinance on July 23, 2012.  <a href="http://www.dalycity.org/Assets/Departments/Water+and+Wastewater/pdf/FoodwareOrdinance.pdf">http://www.dalycity.org/Assets/Departments/Water+and+Wastewater/pdf/FoodwareOrdinance.pdf</a></p>	<p>Although the City has adopted and implemented an ordinance prohibiting the distribution of EPS food ware by food vendors, evaluations of the effectiveness of the ordinance have not yet been conducted. For the purpose of estimating trash reductions in stormwater discharges associated with the ordinance, the results of assessments conducted by the cities of Los Altos and Palo Alto were used to represent the reduction of trash associated with the City’s ordinance. Assessments conducted by these cities were conducted prior to and following the effective date of their</p>	<p>Results of assessments that are representative of the City, but were conducted by the cities of Los Altos and Palo Alto, indicate that City’s ordinance is effective in reducing EPS food ware in stormwater discharges. This conclusion is based on the following assessment result - an average of 95% of businesses affected by the ordinance are no longer distributing EPS food ware post-ordinance. Based on these results, the estimated average reduction of EPS food ware in stormwater discharges is 90%. Assuming EPS food ware is</p>		

**C.10.b.iv ▶ Trash Reduction – Source Controls**

Provide a description of each jurisdictional-wide trash source control action implemented to-date. For each control action, identify the trash reduction evaluation method(s) used to demonstrate on-going reductions, summarize the results of the evaluation(s), and estimate the associated reduction of trash within your jurisdictional area. Note: There is a maximum of 10% total credit for source controls.

		<p>ordinances, and include audits of businesses and/or assessments of EPS food ware observed on streets, storm drains and local creeks. The results of assessments conducted by these cities are assumed to be representative of the effectiveness of the City's ordinance because the implementation (including enforcement) of the City's ordinance is similar to the City of Los Altos' and Palo Alto's. The City developed its % trash reduced estimate using the following assumptions:</p> <ol style="list-style-type: none"> <li>1.) EPS food ware comprises 6% of the trash discharged from stormwater conveyances, based on the Regional Trash Generation Study conducted by BASMAA;</li> <li>2) 80% of EPS food ware distributed by food vendors or sold via stores in the City is affected by the implementation of the ordinance; and</li> <li>3) There is now 95% less EPS food ware being distributed, sold and/or observed in the environment, based on assessments conducted by the City of Palo Alto and City of Los Altos.</li> </ol>	<p>6% of the trash observed in stormwater discharges, the City concludes that there has been a 5% (i.e., 6% x 90%) reduction in trash in stormwater discharges as a result of the ordinance.</p>		
--	--	---	--	--	--

**C.10.b.v ▶ Trash Reduction – Receiving Water Monitoring**

Report on the progress of developing and testing your agency's trash receiving water monitoring program.

In FY 17-18, the City began implementing the BASMAA regional Trash Monitoring Program Plan that was approved by the Water Board's Executive Officer. Implementation included preparing for and conducting qualitative assessments and quantitative monitoring in receiving water locations in San Mateo County. Implementation occurred through the City's participation in the San Mateo Countywide Water Pollution Prevention Program (SMCWPPP). Additional information on accomplishments in FY 17-18 can be found in the Trash Receiving Water Monitoring Progress Report included in the SMCWPPP FY 17-18 Annual Report.

**C.10.c ► Trash Hot Spot Cleanups**

Provide the FY 17-18 cleanup date and volume of trash removed during each MRP-required Trash Hot Spot cleanup during each fiscal year listed. Indicate whether the site was a new site in FY 17-18.

Trash Hot Spot	New Site in FY 17-18 (Y/N)	FY 17-18 Cleanup Date(s)	Volume of Trash Removed (cubic yards)				
			FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17	FY 2017-18
DCY01	N	-	0.7	0.5	-	-	-
DCY02	N	9/12/2017	0.2	0.2	0.5	1.4	1.0
DCY03	N	9/14/2017	0.2	0.3	5.0	7.2	15.6
DCY04	N	9/13/2017	-	-	0.3	59.0	2.7

**C.10.d ► Long-Term Trash Load Reduction Plan**

Provide descriptions of significant revisions made to your Long-term Trash Load Reduction Plan submitted to the Water Board in February 2014. Describe significant changes made to primary or secondary trash management areas (TMA), baseline trash generation maps, control measures, or time schedules identified in your plan. Indicate whether your baseline trash generation map was revised and if so what information was collected to support the revision. If your baseline trash generation map was revised, attach it to your Annual Report.

Description of Significant Revision	Associated TMA
In FY 15-16, consistent with all MRP Permittees, all public K-12 schools, college and university parcels were made non-jurisdictional on the City's baseline trash generation maps. Under California Government Code Sections 4450 through 4461, the construction, modification, or alternation of facilities and/or structures on these parcels are under the jurisdiction of the California Division of State Architect and not the City. The public right-of-way (e.g., streets and sidewalks) surrounding these parcels remain as jurisdictional on the City's baseline trash generation maps. The City's revised baseline trash generation map was included as Appendix 10-2 in the FY 15-16 Annual Report.	All Applicable

**C.10.e. ► Trash Reduction Offsets (Optional)**

Provide a summary description of each offset program implemented, the volume of trash removed, and the offset claimed in FY 17-18. Also, for additional creek and shoreline cleanups, describe the number and frequency of cleanups conducted, and the locations and cleanup dates. For direct discharge control programs approved by the Water Board Executive Officer, also describe the results of the assessments conducted in receiving waters to demonstrate the effectiveness of the control program. Include an Appendix that provides the calculations and data used to determine the trash reduction offset.

Offset Program	Summary Description of Actions and Assessment Results	Volume of Trash (CY) Removed/Controlled in FY 17-18	Offset (% Jurisdiction-wide Reduction)
Additional Creek and Shoreline Cleanups (Max 10% Offset)	NA	NA	NA
Direct Trash Discharge Controls (Max 15% Offset)	NA	NA	NA

\*The % reduction from full capture includes 0.8% for 17.8 acres of full capture covering non-jurisdictional public K-12, college and university school area

<sup>60</sup> Due to rounding, total acres and percentages presented in this table may be slightly different than the sum of the acres/percentages in the corresponding rows/columns (e.g., differ by 1 acre or 0.1%).

Section 11 - Provision C.11 Mercury Controls

**C.11.a ► Implement Control Measures to Achieve Mercury Load Reductions**

**C.11.b ► Assess Mercury Load Reductions from Stormwater**

See the SMCWPPP FY 2017-18 Annual Report for updated information on:

- Documentation of mercury control measures implemented in our agency’s jurisdictional area for which load reductions will be reported and the associated management areas;
- A description of how the BASMAA Interim Accounting Methodology<sup>57</sup> was used to calculate the mercury load reduced by each control measure implemented in our agency’s jurisdictional area and the calculation results (i.e., the estimated mercury load reduced by each control measure);
- Supporting data and information necessary to substantiate the load reduction estimates; and
- For Executive Officer approval, any refinements, if necessary, to the measurement and estimation methodologies to assess mercury load reductions in the subsequent permit.

**C.11.c ► Plan and Implement Green Infrastructure to Reduce Mercury Loads**

See the SMCWPPP FY 2017-18 Annual Report for information on the quantitative relationship between green infrastructure implementation and mercury load reductions, including all data used and a full description of models and model inputs relied on to establish this relationship.

**C.11.e ► Implement a Risk Reduction Program**

A summary of countywide and regional accomplishments for this sub-provision are included in the SMCWPPP FY 2017-18 Annual Report.

<sup>57</sup>BASMAA 2017. Interim Accounting Methodology for TMDL Loads Reduced, Version 1.0. Prepared for BASMAA by Geosyntec Consultants and EOA, Inc., September 19, 2016.

Section 12 - Provision C.12 PCBs Controls

**C.12.a ► Implement Control Measures to Achieve PCBs Load Reductions**  
**C.12.b ► Assess PCBs Load Reductions from Stormwater**

See the SMCWPPP FY 2017-18 Annual Report for:

- Documentation of PCBs control measures implemented in our agency's jurisdictional area for which load reductions will be reported and the associated management areas;
- A description of how the BASMAA Interim Accounting Methodology<sup>58</sup> was used to calculate the PCBs load reduced by each control measure implemented in our agency's jurisdictional area and the calculation results (i.e., the estimated PCBs load reduced by each control measure);
- Supporting data and information necessary to substantiate the load reduction estimates; and
- For Executive Officer approval, any refinements, if necessary, to the measurement and estimation methodologies to assess PCBs load reductions in the subsequent permit.

**C.12.c ► Plan and Implement Green Infrastructure to Reduce PCBs Loads**

See the SMCWPPP FY 2017-18 Annual Report for information on the quantitative relationship between green infrastructure implementation and PCBs load reductions, including all data used and a full description of models and model inputs relied on to establish this relationship.

**C.12.e ► Evaluate PCBs Presence in Caulks/Sealants Used in Storm Drain or Roadway Infrastructure in Public Rights-of-Way**

A summary of countywide and regional accomplishments for this sub-provision is included in the SMCWPPP FY 2017-18 Annual Report.

---

<sup>58</sup>BASMAA 2017. Interim Accounting Methodology for TMDL Loads Reduced, Version 1.0. Prepared for BASMAA by Geosyntec Consultants and EOA, Inc., September 19, 2016.

**C.12.f ► Manage PCB-Containing Materials and Wastes During Building Demolition Activities So That PCBs Do Not Enter Municipal Storm Drains**

A summary of countywide and regional accomplishments for this sub-provision is included in the C.12 PCBs Controls section of the SMCWPPP FY 2017-18 Annual Report.

Does your agency plan to seek exemption from this requirement?

Yes

No

**C.12.g ► Fate and Transport Study of PCBs: Urban Runoff Impact on San Francisco Bay Margins**

A summary of countywide and regional accomplishments for this sub-provision are included in the SMCWPPP FY 2017-18 Annual Report.

**C.12.h ► Implement a Risk Reduction Program**

A summary of countywide and regional accomplishments for this sub-provision are included in the SMCWPPP FY 2017-18 Annual Report.

Permittee Name: \_\_\_\_\_

**Section 13 - Provision C.13 Copper Controls**

**C.13.a.iii.(3) ► Manage Waste Generated from Cleaning and Treating of Copper Architectural Features**

Provide summaries of permitting and enforcement activities to manage waste generated from cleaning and treating of copper architectural features, including copper roofs, during construction and post-construction.

Summary:

Daly City has identified that copper from buildings may harm aquatic life. Daly City, through an ordinance, has banned the new installation of copper roofing, shingles, gutters, downspouts, flashing and architectural ornaments. The building division reviews building permit applications for the use of copper architectural features. Daly City has enforcement authority that prohibits the discharge of washwaters from cleaning and treating of existing copper architectural features from entering the storm drain system. We distribute SMCWPPP’s “Requirements for Architectural Copper” for BMPs as needed for cleaning or washing existing copper features. Daly City’s illicit discharge inspector is responsible for responding to, investigating and identifying illegal discharges of wastewater from copper washing or cleaning. Any enforcement actions or reported discharges are recorded in the Provision C.5 illicit discharge inspection data. Inspectors are made aware of the concerns with existing copper architectural features at SMCWPPP training workshops and internal municipal trainings. There were no reported illicit discharges of copper washwater for the reporting period.

**C.13.b.iii.(3) ► Manage Discharges from Pools, Spas, and Fountains that Contain Copper-Based Chemicals**

Provide summaries of any enforcement activities related to copper-containing discharges from pools, spas, and fountains.

Summary:

Copper containing discharges from pools, spas and fountains are directed to the sanitary sewer. Daly City distributes the OWOW “Maintenance Tips for Pools, Spas and Fountains” Fact Sheet, available at the SMCWPPP website to educate the public. Daly City responds to discharges from pools through our illicit discharge detection and elimination program and requires all regulated projects to discharge pools, spas and fountain water to the sanitary sewer. Upon review of our Provision C.5 illicit discharge inspection data, we found no enforcement activities related to copper-containing discharges from pools, spas and fountains for the reporting period.

**C.13.c.iii ► Industrial Sources Copper Reduction Results**

Permittee Name: \_\_\_\_\_

Based upon inspection activities conducted under Provision C.4, highlight copper reduction results achieved among the facilities identified as potential users or sources of copper, facilities inspected, and BMPs addressed.

Summary:

There continues to be no industry in Daly City. However, 4 business categories have been identified as having the potential to be sources of copper: Vehicle Service Facilities, Retail Gasoline Outlets, Utility and Vehicle Miscellaneous. All those affected businesses are inspected as part of the commercial business inspection program with BMP material distributed as needed. There were 34 business inspections in the business categories that have been identified as having the potential to be sources of copper during the reporting period. Of the 34 inspections, there were 8 violations. There was 1 actual discharge of washwater but it flowed to SF's combined system and 7 potential discharges. A majority of the potential discharges were storing scrap metal and/or used vehicle parts that were outside and not covered. All 8 violations were resolved within 10 working days.

Daly City continues to encourage residents to take their vehicles to commercial car washes instead of washing at home where the washwater flows to storm drains. All commercial car washes in Daly City drain to the sanitary sewer. In addition, staff reviewed BASMAA's POC Inspector Training Materials which included a topic on copper.

Permittee Name: \_\_\_\_\_

**Section 15 -Provision C.15 Exempted and Conditionally Exempted Discharges**

**C.15.b.vi.(2) ► Irrigation Water, Landscape Irrigation, and Lawn or Garden Watering**

Provide implementation summaries of the required BMPs to promote measures that minimize runoff and pollutant loading from excess irrigation. Generally the categories are:

- Promote conservation programs
- Promote outreach for less toxic pest control and landscape management
- Promote use of drought tolerant and native vegetation
- Promote outreach messages to encourage appropriate watering/irrigation practices
- Implement Illicit Discharge Enforcement Response Plan for ongoing, large volume landscape irrigation runoff.

Summary:

Daly City is a water purveyor. Daly City has adopted an indoor water use efficiency and conservation ordinance. Daly City has an ongoing water conservation program that includes a High Efficiency Toilet rebate program for residents and businesses. Daly City promotes conservation through our website and through various city-wide media. Daly City is an active member and partner with BAWSCA and we support and promote regional water recycling efforts and programs.

Through the use of regional partnerships and local media, Daly City promotes IPM techniques and messages. Our Water, Our World (OWOW)/ IPM store partnership program materials are distributed to residents and businesses as needed or requested.

Daly City also requires projects subject to SMCWPPP’s C.3 requirements to incorporate Source Control Measures that require the usage of water efficient fixtures and landscaping that minimizes irrigation and runoff, promotes surface infiltration where possible, minimizes the use of pesticides and fertilizers and incorporates appropriate sustainable landscaping practices and programs such as Bay-Friendly Landscaping. Site Design Measures are also required for applicable projects and based on the site could include: minimizing impervious surfaces, micro-detention in landscape, porous pavement, disconnecting downspouts, etc.

Daly City produces tertiary treated (recycled) water at the wastewater treatment plant. Daly City irrigates some community parks and island medians with the recycled water. Daly City also provides recycled water for irrigation use to four local golf courses; the Olympic Club, Lake Merced, San Francisco and Harding Park. Daly City continues to promote DWR’s updated model water efficient ordinance and its requirements.

Daly City responds to complaints about residential over-watering and enforces ongoing, large landscape irrigation runoff in the illicit discharge response program and water conservation ordinance. Residents are encouraged to check out BAWSCA’s, Water-Wise Gardening in the Bay Area for tips on everything related to a water-wise garden including suggested irrigation practices and watering schedule, drought tolerant and native vegetation plants, etc.

Daly City staff also participates in SMCWPPP’s Public Information & Participation subcommittee, Parks Maintenance workgroup, IPM workgroup and supports and promotes the public outreach related to those both regionally and locally to Daly City residents.

**Appendix 4-1  
Potential Facilities List**

## *Facility List (open)*

<i>Facility Name</i>	<i>Number</i>	<i>Street</i>	<i>City</i>	<i>State</i>	<i>Zip Code</i>	<i>Contact</i>	<i>Phone</i>	<i>Business Type</i>
19th Auto Body Center	7323	Mission St	Daly City	CA	94014	Ji Lee	301-5050	Auto Body Shop
24 Hour Fitness	373	Gellert Blvd	Daly City	CA	94015	Marvin Navas	756-3303	Physical Fitness Facility
