

CITY COUNCIL 2017

PRADEEP GUPTA, PH.D., MAYOR
LIZA NORMANDY, VICE MAYOR
MARK ADDIEGO, COUNCILMEMBER
RICHARD A. GARBARINO, COUNCILMEMBER
KARYL MATSUMOTO, COUNCILMEMBER

MIKE FUTRELL, CITY MANAGER

OFFICE OF THE SUPERINTENDENT OF
WATER QUALITY CONTROL
(650) 877-8555
FAX (650) 829-3855

September 22, 2017

Mr. Bruce H. Wolfe
Executive Officer
San Francisco Bay Regional Water Quality Control Board
1515 Clay Street, Suite 1400
Oakland, CA 94612

Subject: **City of South San Francisco**
FY 2016/17 Annual Report

Dear Mr. Wolfe:

This letter and Annual Report with attachments is submitted by the City of south San Francisco pursuant to Permit Provision C.17.a of the Municipal Regional Stormwater NPDES Permit (MRP), Order R2-2015-0049, NPDES Permit No CAS612008 issued by the San Francisco Bay Regional Water Quality Control Board. The Annual Report provides documentation of compliance activities conducted during FY 2016/17 and related accomplishments.

Please contact Andrew Wemmer at 650-829-3840 regarding any questions or concerns.

Very truly yours,

Andrew Wemmer
Environmental Compliance Supervisor

**CITY OF SOUTH SAN FRANCISCO
FY 2016/17 ANNUAL REPORT**

Certification Statement

"I certify, under penalty of law, that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to ensure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted, is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

Telephone Number:	(650) 829-3840	Fax Number:	(650) 829-3855
E-mail Address:	Andrew.wemmer@ssf.net		

Section 2 - Provision C.2 Reporting Municipal Operations

Program Highlights and Evaluation

Highlight/summarize activities for reporting year:

Summary:

The City of South San Francisco has developed and utilizes an electronic data management system for full trash capture device O&M inspection/maintenance.

The City of South San Francisco participated in the Program's

- 1) Municipal Maintenance Subcommittee in Fiscal Year 16-17;
- 2) Development of a trash full capture device O&M inspection/maintenance data management system and;
- 3) Development of a pesticide data management program, and the Parks Department uses an internal pesticide tracking log, and also tracks this data on the California Pesticide Permitting and Use Reporting (CalAgPermits.org) database.

Refer to the C.2 Municipal Operations section of the Program's FY 16-17 Annual Report for a description of activities implemented at the countywide and/or regional level.

C.2.a. ► Street and Road Repair and Maintenance

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

Y	Control of debris and waste materials during road and parking lot installation, repaving or repair maintenance activities from polluting stormwater
Y	Control of concrete slurry and wastewater, asphalt, pavement cutting, and other street and road maintenance materials and wastewater from discharging to storm drains from work sites
Y	Sweeping and/or vacuuming and other dry methods to remove debris, concrete, or sediment residues from work sites upon completion of work

Comments:

C.2.b. ► Sidewalk/Plaza Maintenance and Pavement Washing

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

Y	Control of wash water from pavement washing, mobile cleaning, pressure wash operations at parking lots, garages, trash areas, gas station fueling areas, and sidewalk and plaza cleaning activities from polluting stormwater
Y	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs

Comments:

C.2.c. ► Bridge and Structure Maintenance and Graffiti Removal

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

NA	Control of discharges from bridge and structural maintenance activities directly over water or into storm drains
Y	Control of discharges from graffiti removal activities
Y	Proper disposal for wastes generated from bridge and structure maintenance and graffiti removal activities
Y	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs for graffiti removal
Y	Employee training on proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities
Y	Contract specifications requiring proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities

Comments:

Bridges located in South San Francisco's service area are owned and operated by either San Mateo County or Caltrans.

C.2.e. ► Rural Public Works Construction and Maintenance					
Does your municipality own/maintain rural ¹ roads:		<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No
If your answer is No then skip to C.2.f.					
Place a Y in the boxes next to activities where applicable BMPs were implemented. If not applicable, type NA in the box and provide an explanation in the comments section below. Place an N in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.					
<input type="checkbox"/>	Control of road-related erosion and sediment transport from road design, construction, maintenance, and repairs in rural areas				
<input type="checkbox"/>	Identification and prioritization of rural road maintenance based on soil erosion potential, slope steepness, and stream habitat resources				
<input type="checkbox"/>	No impact to creek functions including migratory fish passage during construction of roads and culverts				
<input type="checkbox"/>	Inspection of rural roads for structural integrity and prevention of impact on water quality				
<input type="checkbox"/>	Maintenance of rural roads adjacent to streams and riparian habitat to reduce erosion, replace damaging shotgun culverts and excessive erosion				
<input type="checkbox"/>	Re-grading of unpaved rural roads to slope outward where consistent with road engineering safety standards, and installation of water bars as appropriate				
<input type="checkbox"/>	Inclusion of measures to reduce erosion, provide fish passage, and maintain natural stream geomorphology when replacing culverts or design of new culverts or bridge crossings				
Comments including listing increased maintenance in priority areas:					

¹Rural means any watershed or portion thereof that is developed with large lot home-sites, such as one acre or larger, or with primarily agricultural, grazing or open space uses.

C.2.f. ► Corporation Yard BMP Implementation				
Place an X in the boxes below that apply to your corporations yard(s):				
<input type="checkbox"/>	We do not have a corporation yard			
<input type="checkbox"/>	Our corporation yard is a filed NOI facility and regulated by the California State Industrial Stormwater NPDES General Permit			
<input checked="" type="checkbox"/>	We have a Stormwater Pollution Prevention Plan (SWPPP) for the Corporation Yard(s)			
Place an X in the boxes below next to implemented SWPPP BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type NA in the box. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:				
<input checked="" type="checkbox"/>	Control of pollutant discharges to storm drains such as wash waters from cleaning vehicles and equipment			
<input checked="" type="checkbox"/>	Routine inspection prior to the rainy seasons of corporation yard(s) to ensure non-stormwater discharges have not entered the storm drain system			
<input checked="" type="checkbox"/>	Containment of all vehicle and equipment wash areas through plumbing to sanitary or another collection method			
<input checked="" type="checkbox"/>	Use of dry cleanup methods when cleaning debris and spills from corporation yard(s) or collection of all wash water and disposing of wash water to sanitary or other location where it does not impact surface or groundwater when wet cleanup methods are used			
<input checked="" type="checkbox"/>	Cover and/or berm outdoor storage areas containing waste pollutants			
Comments: All areas of the Corporation Yard utilized acceptable BMPs.				
If you have a corporation yard(s) that is not an NOI facility, complete the following table for inspection results for your corporation yard(s) or attach a summary including the following information:				
Corporation Yard Name	Corp Yard Activities w/ site-specific SWPPP BMPs	Inspection Date ²	Inspection Findings/Results	Date and Description of Follow-up and/or Corrective Actions
City of South San Francisco Corporation Yard	Activities at the SSF Corp Yard with site-specific BMPs include: general housekeeping, vehicle/equipment washing;	9/15/16	All areas of the Corporation Yard utilized acceptable BMPs.	No follow-up actions required

² Minimum inspection frequency is once a year during September.

	vehicle/equipment maintenance & repair, fuel dispensing; outdoor material storage; outdoor waste/recycling storage; municipal vehicle/heavy equipment parking; employee parking.			
--	--	--	--	--

Section 3 - Provision C.3 Reporting New Development and Redevelopment

C.3.b.iv.(1) ► Regulated Projects Approved Prior to C.3 Requirements

(For FY 2016-17 Annual Report only) Does your agency have any Regulated Projects that were approved with no Provision C.3 stormwater treatment requirements under a previous MS4 permit and that did not begin construction by January 1, 2016 (i.e., that are subject to Provision C.3.b.i.(2))?

	Yes		No
		X	

If yes, complete attached Table C.3.b.iv.(1).

C.3.b.iv.(2) ► Regulated Projects Reporting

Fill in attached table C.3.b.iv.(2) or attach your own table including the same information.
 See attached C.3.b.iv.(2) tables one and two

C.3.e.iv. ► Alternative or In-Lieu Compliance with Provision C.3.c.

Is your agency choosing to require 100% LID treatment onsite for all Regulated Projects and not allow alternative compliance under Provision C.3.e.?

	Yes		No
		X	

Comments (optional):

C.3.e.v. ► Special Projects Reporting

1. In FY 2016-17, has your agency received, but not yet granted final discretionary approval of, a development permit application for a project that has been identified as a potential Special Project based on criteria listed in MRP Provision C.3.e.ii.(2) for any of the three categories of Special Projects (Categories A, B or C)?	X	Yes		No
2. In FY 2016-17, has your agency granted final discretionary approval to a Special Project? If yes, include the project in both the C.3.b.iv.(2) Table, and the C.3.e.v. Table.	X	Yes		No
See Table C.3.e.v. and attached narrative discussion of 100% LID Feasibility or Infeasibility for each project.				

C.3.h.v.(2) ► Reporting Newly Installed Stormwater Treatment Systems and HM Controls (Optional)

On an annual basis, before the wet season, provide a list of newly installed (installed within the reporting year) stormwater treatment systems and HM controls to the local mosquito and vector control agency and the Water Board. The list shall include the facility locations and a description of the stormwater treatment measures and HM controls installed.
See attached Table C.3.h.v.(2) for list of newly installed Stormwater Treatment Systems/HM Controls.

C.3.h.v.(3)(a)–(c) and (f) ► Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Site Inspections Data	Number/Percentage
Total number of Regulated Projects (including offsite projects, and Regional Projects) in your agency's database or tabular format at the end of the previous fiscal year (FY15-16)	91
Total number of Regulated Projects (including offsite projects, and Regional Projects) in your agency's database or tabular format at the end of the reporting period (FY 16-17)	95
Total number of Regulated Projects (including offsite projects, and Regional Projects) for which O&M verification inspections were conducted during the reporting period (FY 16-17)	23
Percentage of the total number of Regulated Projects (including offsite projects, and Regional Projects) inspected during the reporting period (FY 16-17)	25% ³

³ Based on the number of Regulated Projects in the database or tabular format at the end of the previous fiscal year (FY 15-16), per MRP Provision C.3.h.ii.(6)(b).

C.3.h.v.(3)(d)-(e) ► Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Provide a discussion of the inspection findings for the year and any common problems encountered with various types of treatment systems and/or HM controls. This discussion should include a general comparison to the inspection findings from the previous year.

Summary:
 The City of South San Francisco performed 23 facility O & M inspections in 2016/2017. Of the 23 inspections performed, 5 devices required maintenance. One device that required maintenance this FY was a vault-based system, two filter insert based systems required maintenance. Two vegetation-based systems required maintenance. All other systems were all in good working order. In FY 15/16, there were 4 treatment systems requiring maintenance. Overall the trend is showing that a majority of the sites are keeping up with maintenance. Overall, the majority of treatment systems are kept in good working order.

Provide a discussion of the effectiveness of the O&M Program and any proposed changes to improve the O&M Program (e.g., changes in prioritization plan or frequency of O&M inspections, other changes to improve effectiveness program).

Summary:
 The City has developed a spreadsheet listing all facilities and the treatment systems associated with those facilities. At this time, the City of South San Francisco has approximately 95 locations with treatment systems installed (or in the process of installation). The inspectors do occasionally locate additional treatment systems that are not on the spreadsheet when performing other stormwater inspections. These systems are added to the spreadsheet when they are located. Conversely, Inspectors have also updated the spreadsheet based on field observations where treatment systems have not been present and/or are combined under one O&M Agreement for the property/parcel. Environmental Compliance Inspectors perform O&M inspections at minimum of the required rate as established by the MRP. The facility list is reviewed and updated as new systems are installed and additional systems are located.

C.3.h.v.(4) ► Enforcement Response Plan

(For FY 2016-17 Annual Report only) Has your agency completed an Enforcement Response Plan for all O&M inspections of stormwater treatment measures by July 1, 2017?

X	Yes		No
---	-----	--	----

If No, provide schedule for completion:

C.3.i. ► Required Site Design Measures for Small Projects and Detached Single Family Home Projects

On an annual basis, discuss the implementation of the requirements of Provision C.3.i, including ordinance revisions, permit conditions, development of standard specifications and/or guidance materials, and staff training.

Summary:
BASMAA prepared standard specifications in four fact sheets regarding the site design measures listed in Provision C.3.i, as a resource for Permittees. We have modified local ordinances/policies/procedures and forms/checklists to require all applicable projects approved after December 1, 2012 to implement at least one of the site design measures listed in Provision C.3.i.

C.3.j.i.(5)(a) ► Green Infrastructure Framework or Work Plan

<i>(For FY 2016-17 Annual Report only)</i> Was your agency's Green Infrastructure Framework or Work Plan approved by the agency's governing body, mayor, city manager, or county manager by June 30, 2017?	X	Yes, approval documentation attached		No
--	---	--------------------------------------	--	----

If Yes, describe approval process and documentation:

The City of South San Francisco, contracting with consultant Schaaf and Wheeler, utilized the SMCWPPP Green Infrastructure Framework template in order to develop a customized Green Infrastructure Framework, which was approved by the South San Francisco City Council on June 27, 2017 under Resolution 60-2017 (Attachment A).

C.3.j.i.(5)(d) ► Green Infrastructure Outreach

On an annual basis, provide a summary of your agency's outreach and education efforts pertaining to Green Infrastructure planning and implementation.

Summary:
The City of South San Francisco provided Green Infrastructure outreach/training via a presentation to two City Council Members during a local Environmental Subcommittee Meeting held on March 13, 2017.
In addition, a full presentation on the MRP Green Infrastructure requirements and proposed City GI framework was conducted at the Special City Council Meeting on June 27, 2017 by the City's consultant, Schaaf and Wheeler.

 Please refer to the SMCWPPP FY 16-17 Annual Report for a summary of outreach efforts implemented.

C.3.j.ii.(2) ► Early Implementation of Green Infrastructure Projects

On an annual basis, submit a list of green infrastructure projects, public and private, that are already planned for implementation during the permit term and infrastructure projects planned for implementation during the permit term that have potential for green infrastructure measures. Include the following information:

- A summary of planning or implementation status for each public and private green infrastructure project that is not also a Regulated Project as defined in Provision C.3.b.ii. (see C.3.j.ii.(2) Table B - Planned Green Infrastructure Projects).
- A summary of how each public infrastructure project with green infrastructure potential will include green infrastructure measures to the maximum extent practicable during the permit term. For any public infrastructure project where implementation of green infrastructure measures is not practicable, submit a brief description of the project and the reasons green infrastructure measures were impracticable to implement (see C.3.j.ii.(2) Table A - Public Projects Reviewed for Green Infrastructure).

Background Information:

Describe how this provision is being implemented by your agency, including the process used by your agency to identify projects with potential for green infrastructure, if applicable.

City staff attended the SMCWPPP C.3 New Development Workshop on June 14, 2016, where early GI identification and implementation was presented, based in part on BASMAA's "Guidance for Identifying Green Infrastructure Potential in Municipal Capital Improvement Program Projects." This guidance is incorporated into the City's Green Infrastructure Framework as noted below.

In February 2016, the City of SSF convened a Green Infrastructure Planning Study and Group. The group consisted of representatives from Environmental Compliance, Engineering, Planning and an outside consultant that will be developing the City's long-term GI strategy. This group has continued to work to identify potential GI projects through the Plan Review and Building Plan Review process. The group will be expanding its scope and meeting more frequently beginning in FY 17-18.

Larry Walker and Associates developed a regional GI framework for the San Mateo Countywide Pollution Prevention Program and was contracted to assist municipalities in making them city-specific. The City of SSF contracted with consultant Schaaf and Wheeler to incorporate this template into a specific City Green Infrastructure Plan Framework, including project identification procedures, which was approved by the City Council on June 27, 2017.

Summary of Planning or Implementation Status of Identified Projects:

See attached Table C.3.j.ii.(2)-A for Public Projects Reviewed for Green Infrastructure within the City of SSF.

C.3.j.iii.(2) ► Participate in Processes to Promote Green Infrastructure

On an annual basis, report on the goals and outcomes during the reporting year of work undertaken to participate in processes to promote green infrastructure.

Please refer to the SMCWPPP FY 16-17 Annual Report for a summary of efforts conducted to help regional, State, and federal agencies plan, design and fund incorporation of green infrastructure measures into local infrastructure projects, including transportation projects.

C.3.j.iv.(2) ► Tracking and Reporting Progress

On an annual basis, report progress on development and implementation of methods to track and report implementation of green infrastructure measures and provide reasonable assurance that wasteload allocations for TMDLs are being met.

Please refer to the SMCWPPP FY 16-17 Annual Report for a summary of methods being developed to track and report implementation of green infrastructure measures.

C.3.b.iv.(1) ► List of Regulated Projects Approved Prior to C.3 Requirements			
Project Name Project No.	Project Location ⁴ , Street Address	Type of Stormwater Treatment Required ⁵	Type of Exemption Granted ⁶
N/A	N/A	N/A	N/A

⁴ Include cross streets

⁵ Indicate the stormwater treatment system required, if applicable

⁶ Indicate the type for exemption, if applicable. For example, the project was previously approved with a vesting tentative map, or the Permittee has no legal authority to require changes to previously granted approvals (such as previously granted building permits).

**C.3.b.iv.(2) ► Regulated Projects Reporting Table (part 1) –
 Projects Approved During the Fiscal Year Reporting Period**

Project Name Project No.	Project Location ⁷ , Street Address	Name of Developer	Project Phase No. ⁸	Project Type & Description ⁹	Project Watershed ¹⁰	Total Site Area (Acres)	Total Area of Land Disturbed (Acres)	Total New Impervious Surface Area (ft ²) ¹¹	Total Replaced Impervious Surface Area (ft ²) ¹²	Total Pre- Project Impervious Surface Area ¹³ (ft ²)	Total Post- Project Impervious Surface Area ¹⁴ (ft ²)
Private Projects											
Vacant Ford Properties Parcel A, B & D B16-1564	Miller Ave & Cypress Ave.	Sares Regis LLC.	1	260 apartment units and 12 townhomes	Colma Creek/ San Francisco Bay	1.9	1.9	0	82,824	83,509	82,824
Park SFO Expansion B15-1325	195 North Access Road	Bob Simms	1	New 7-Story Parking Garage	Colma Creek/ San Francisco Bay	6.95	2.78	95,717	2,706	267,758	258,901

⁷Include cross streets

⁸If a project is being constructed in phases, indicate the phase number and use a separate row entry for each phase. If not, enter "NA".

⁹Project Type is the type of development (i.e., new and/or redevelopment). Example descriptions of development are: 5-story office building, residential with 160 single-family homes with five 4-story buildings to contain 200 condominiums, 100 unit 2-story shopping mall, mixed use retail and residential development (apartments), industrial warehouse.

¹⁰State the watershed(s) in which the Regulated Project is located. Downstream watershed(s) may be included, but this is optional.

¹¹All impervious surfaces added to any area of the site that was previously existing pervious surface.

¹²All impervious surfaces added to any area of the site that was previously existing impervious surface.

¹³For redevelopment projects, state the pre-project impervious surface area.

¹⁴For redevelopment projects, state the post-project impervious surface area.

**C.3.b.iv.(2) ► Regulated Projects Reporting Table (part 1) –
 Projects Approved During the Fiscal Year Reporting Period**

Project Name Project No.	Project Location ⁷ , Street Address	Name of Developer	Project Phase No. ⁸	Project Type & Description ⁹	Project Watershed ¹⁰	Total Site Area (Acres)	Total Area of Land Disturbed (Acres)	Total New Impervious Surface Area (ft ²) ¹¹	Total Replaced Impervious Surface Area (ft ²) ¹²	Total Pre- Project Impervious Surface Area ¹³ (ft ²)	Total Post- Project Impervious Surface Area ¹⁴ (ft ²)

**C.3.b.iv.(2) ► Regulated Projects Reporting Table (part 2) –
 Projects Approved During the Fiscal Year Reporting Period
 (private projects)**

Project Name Project No.	Application Deemed Complete Date ¹⁵	Application Final Approval Date ¹⁶	Source Control Measures ¹⁷	Site Design Measures ¹⁸	Treatment Systems Approved ¹⁹	Type of Operation & Maintenance Responsibility Mechanism ²⁰	Hydraulic Sizing Criteria ²¹	Alternative Compliance Measures ^{22/ 23}	Alternative Certification ²⁴	HM Controls ^{25/26}
Private Projects										
Vacant Ford Properties Parcel A, B & D B16-1564	2/10/16	4/24/17	-Covered, enclosed, trash area with drain to sanitary -Fire Sprinkler drain to sanitary -Plumb interior floor drains to sanitary sewer -Storm drain labeling	-Direct runoff from sidewalks, walkways and/or patios into vegetated areas. -Direct runoff from driveways and/or uncovered parking lots into vegetated areas -Minimize land disturbance and impervious surface	-Media filter/ Vault based treatment -Media filter will meet the specifications of the Western Washington Technical Assessment Protocol- Ecology (TAPE) program	O & M Agreement Required	2.C	N/A	N/A	The project site is located in an area that is exempt from HM controls

¹⁵For private projects, state project application deemed complete date. If the project did not go through discretionary review, report the building permit issuance date.

¹⁶For private projects, state project application final discretionary approval date. If the project did not go through discretionary review, report the building permit issuance date.

¹⁷List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.

¹⁸List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.

¹⁹List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).

²⁰List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.

²¹See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).

²²For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.

²³For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.

²⁴Note whether a third party was used to certify the project design complies with Provision C.3.d.

²⁵If HM control is not required, state why not.

²⁶If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), bioretention unit(s), regional detention basin, or in-stream control).

Comments: No Public Projects approved in FY 16-17.										

²⁷For public projects, enter the plans and specifications approval date.

²⁸List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.

²⁹List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.

³⁰List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).

³¹List the legal mechanism(s) (e.g., maintenance plan for O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.

³²See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).

³³For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.

³⁴For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.

³⁵Note whether a third party was used to certify the project design complies with Provision C.3.d.

³⁶If HM control is not required, state why not.

³⁷If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), bioretention unit(s), regional detention basin, or in-stream control).

C.3.h.v.(2) ► Table of Newly Installed³⁸ Stormwater Treatment Systems and Hydromodification Management (HM) Controls (Optional)

Fill in table below or attach your own table including the same information.

Name of Facility	Address of Facility	Party Responsible ³⁹ For Maintenance	Type of Treatment/HM Control(s)
Genentech, Inc. B34	340 DNA Way, South San Francisco, Ca 94080	Genentech, Inc.	Bio-retention area
Fremont Frontier Motel General Partnership	180 S. Airport Blvd., South San Francisco, CA 94080	Fremont Frontier Motel General Partnership	Bio-retention area
City Ventures	1256 Mission Road, South San Francisco, CA 94080	City Ventures Homebuilding, Inc.	Bio-retention area Flow-through Planter Vault
Prologis	175 Sylvester Road, South San Francisco, CA 94080	Prologis, LLC	Bio-retention area

³⁸ "Newly Installed" includes those facilities for which the final installation inspection was performed during this reporting year.

³⁹ State the responsible operator for installed stormwater treatment systems and HM controls.

C.3.e.v. ► Special Projects Reporting Table												
Reporting Period – July 1 2016 - June 30, 2017												
Project Name & No.	Permittee	Address	Application Submittal Date ⁴⁰	Status ⁴¹	Description ⁴²	Site Total Acreage	Gross Density DU/Acre	Density FAR	Special Project Category ⁴³	LID Treatment Reduction Credit Available ⁴⁴	List of LID Stormwater Treatment Systems ⁴⁵	List of Non-LID Stormwater Treatment Systems ⁴⁶
Vacant Ford Properties Parcel A&D B16-1564	Sares Regis LLC	Miller Ave. & Cypress Ave	Approved by planning commission 2/10/16	Building plans approved by Water Quality Control on 4/24/17, Building Permit approved	260 apartment units and 12 townhomes	1.9	>100 DU/ac	>6:1	Category C: Transit-Oriented Development; Non-auto related use Location: At least 50% of project is within 0.25 miles of a transit hub Density: >100 DU/ac Parking: No surface	Category C: 100% allowable credit Location: 50% Density: 30% Parking: 20%	None	Media Filter 100% Media filter will meet the specifications of the Western Washington Technical Assessment Protocol-Ecology (TAPE) program

⁴⁰Date that a planning application for the Special Project was submitted.

⁴¹ Indicate whether final discretionary approval is still pending or has been granted, and provide the date or version of the project plans upon which reporting is based.

⁴²Type of project (commercial, mixed-use, residential), number of floors, number of units, type of parking, and other relevant information.

⁴³ For each applicable Special Project Category, list the specific criteria applied to determine applicability. For each non-applicable Special Project Category, indicate n/a.

⁴⁴For each applicable Special Project Category, state the maximum total LID Treatment Reduction Credit available. For Category C Special Projects also list the individual Location, Density, and Minimized Surface Parking Credits available.

⁴⁵: List all LID stormwater treatment systems proposed. For each type, indicate the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area.

⁴⁶List all non-LID stormwater treatment systems proposed. For each type of non-LID treatment system, indicate: (1) the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area, and (2) whether the treatment system either meets minimum design criteria published by a government agency or received certification issued by a government agency, and reference the applicable criteria or certification.

									parking			
--	--	--	--	--	--	--	--	--	---------	--	--	--

Special Projects Narrative

Vacant Ford Properties (parcels A&D)

Miller Ave & Cypress Ave.

Project (residential) has been approved by the Planning Commission in July 2015 and the project was approved February 2016. Building Permit was applied for on September 30, 2016 and Building Permit issued July 19, 2017.

The project will be a lot line to lot line complex.

The project will be within ¼ mile of a transit hub, there will be a Density of >100 DU/ac.

There will be no surface parking (surface parking lot redeveloped on Parcel B, which is utilizing LID treatment).

This project will have a media filter. Media filter will meet the specifications of the Western Washington Technical Assessment Protocol-Ecology (TAPE) program and Municipal regional permit requirements for NON-LID measures.

1. Feasibility/Infeasibility of Onsite Infiltration, Evapotranspiration, and Harvesting/Use

The Countywide Program's infiltration/harvesting and use feasibility screening worksheet was completed for the project. The results of this analysis showed that it was infeasible to treat the C.3.d amount of runoff with infiltration and/or harvesting and use.

2. Feasibility/Infeasibility of Onsite LID Treatment

The project site was reviewed with regard to the feasibility and infeasibility of onsite LID treatment. The results of this review showed that it was infeasible to treat 100% percent of the C.3.d amount of runoff with LID treatment. The findings of this review are presented below.

- a. **On-site Drainage Conditions.** The building occupies the entire site, common in urban areas. Roof leaders for each building will be directed to media filters. The media filter discharge will then be plumbed to the existing underground storm drain system.

b. **Constraints to Providing On-site LID.** Due to the fact that the building footprints cover the entire property, typical of urban downtown developments, the use of on-site LID treatment has been determined infeasible.

3. Feasibility/Infeasibility of Off-Site LID Treatment. The possibility of providing off-site LID treatment was found to be infeasible for the following reasons.

- i. The project proponent does not own or otherwise control land within the same watershed of the project that can accommodate in perpetuity off-site bioretention facilities adequately sized to treat the runoff volume of the primary project.
- ii. There is no regional LID stormwater mitigation program available to the project for in-lieu C.3 compliance.

C.3.j.ii.(2) ► Table A - Public Projects Reviewed for Green Infrastructure				
Project Name and Location⁴⁷	Project Description	Status⁴⁸	GI Included?⁴⁹	Description of GI Measures Considered and/or Proposed or Why GI is Impracticable to Implement⁵⁰
Sewer Replacement Project (Throughout SSF)	Sewer Rehabilitation	4-year project, ongoing	TBD	Engineering Dept. to consider applicable GI measures when/if street modifications are incorporated.
Underground Electrical Replacement Project (Spruce Ave b/w Parkway Ave and Railroad Ave)	Moving electrical services underground	Beginning planning and design phase	TBD	Engineering Dept. to consider applicable GI measures when/if street modifications are incorporated.
SSF Caltrain Station and Plaza (Grand Ave and Airport Blvd)	Move existing Caltrain station closer to SSF downtown area and incorporate plaza	Beginning planning and design phase	TBD	Specific details on GI not yet available, as project is in very early planning stage.
SSF City Services Facility (El Camino Real and Chestnut Ave)	New facility/campus featuring Police Station, Parks & Rec HQ and Library	Beginning planning and design phase	TBD	Specific details on GI not yet available, as project is in very early planning stage.
Grand Avenue Improvement Project (Grand Ave b/w Linden Ave and Airport Blvd)	Green street improvements along Grand Ave and Linden in main downtown commercial area	Design concept generated (through SMCWPPP regional consultant)	Yes	Curb extensions proposed as primary stormwater treatment approach. Project not yet in development due to funding and current prioritization of Orange Memorial Park Project.
Orange Memorial Park Stormwater Capture Project (Regional)	Installation of two subsurface infiltration chambers for capture/treatment of large portion of upper Colma Creek watershed.	Design concept generated (through SMCWPPP regional consultant)	Yes	Infiltration chambers and hydrodynamic separator. Potential LID incorporated within adjacent parking lots. Project may also provide beneficial flood alleviation and groundwater recharge.
Linden Avenue Complete	Pedestrian and Bike Lane	Beginning planning	TBD	Potential LID incorporated into design. Details

⁴⁷ List each public project that is going through your agency's process for identifying projects with green infrastructure potential.

⁴⁸ Indicate status of project, such as: beginning design, under design (or X% design), projected completion date, completed final design date, etc.

⁴⁹ Enter "Yes" if project will include GI measures, "No" if GI measures are impracticable to implement, or "TBD" if this has not yet been determined.

⁵⁰ Provide a summary of how each public infrastructure project with green infrastructure potential will include green infrastructure measures to the maximum extent practicable during the permit term. If review of the project indicates that implementation of green infrastructure measures is not practicable, provide the reasons why green infrastructure measures are impracticable to implement.

Streets (Linden Ave from California St to Aspen St)	improvements	and design phase		not yet available as project is in very early planning stage.
---	--------------	------------------	--	---

C.3.j.ii.(2) ► Table B - Planned and/or Completed Green Infrastructure Projects

Project Name and Location ⁵¹	Project Description	Planning or Implementation Status	Green Infrastructure Measures Included
None	N/A	N/A	N/A

⁵¹ List each planned (and expected to be funded) public and private green infrastructure project that is not also a Regulated Project as defined in Provision C.3.b.ii. Note that funding for green infrastructure components may be anticipated but is not guaranteed to be available or sufficient.

Section 4 – Provision C.4 Industrial and Commercial Site Controls

Program Highlights and Evaluation

Highlight/summarize activities for reporting year:

Summary:

Each year, the business inspection plan and enforcement response plan (ERP) are reviewed to make sure that they continue to meet the needs of the industrial and commercial inspection program. The business inspection plan was updated June 1, 2017 and the ERP was updated June 13, 2016.

The facilities list is reviewed to determine the inspection frequencies and priorities for the coming fiscal year. The facility spreadsheet is updated as needed. A list of facilities to be inspected for the next fiscal year is generated between June and August. Inspectors work from this spreadsheet and businesses are lined out as they are inspected. A master inspection spreadsheet is also updated after each inspection or at the end of each day. The findings of each inspection are summarized on the spreadsheet. More details are included on the inspection forms. Follow-up inspections are performed as needed.

Environmental Compliance Supervisor Andrew Wemmer and Inspector Daniel Garza participated in the CII Subcommittee in FY 16-17.

Inspectors attend trainings as they are offered on a countywide/regional basis.

The three (3) current Environmental Compliance Inspectors received training on the updated Stormwater Enforcement Response Plan on June 21, 2017.

Refer to the C.4. Industrial and Commercial Site Controls section of the SMCWPPP FY 16-17 Annual Report for a description of Program activities.

C.4.b.iii. ► Potential Facilities List

List below or attach your list of industrial and commercial facilities in your Inspection Plan to inspect that could reasonably be considered to cause or contribute to pollution of stormwater runoff.

Please see Attachment B for a list of industrial and commercial facilities in the City of South San Francisco's Inspection Plan to inspect that could reasonably be considered to cause or contribute to pollution of stormwater runoff.

C.4.d.iii.(2)(a) & (c) ► Facility Inspections		
Fill out the following table or attach a summary of the following information. Indicate your reporting methodology below.		
<input checked="" type="checkbox"/>	Permittee reports multiple discrete potential and actual discharges as one enforcement action.	
<input type="checkbox"/>	Permittee reports the total number of discrete potential and actual discharges on each site.	
	Number	Percent
Total number of inspections conducted (C.4.d.iii.(2)(a))	267	
Number of enforcement actions or discrete number of potential and actual discharges	58	
Violations Enforcement actions or discrete number of potential and actual discharges resolved within 10 working days or otherwise deemed resolved in a longer but still timely manner (C.4.d.iii.(2)(c))	58	100%
Comments: Any violation not resolved at the time of a follow-up inspection is considered to be part of the original violation, so is not counted separately. All violations were resolved within 10 days or otherwise deemed resolved in a longer but still timely manner.		

C.4.d.iii.(2)(b) ► Frequency and Type of Enforcement Conducted

Fill out the following table or attach a summary of the following information.

	Enforcement Action (as listed in ERP) ⁵²	Number of Enforcement Actions Taken
Level 1	Verbal Warnings/ Warning Letters/ NOVs	58
Level 2	Administrative Citation	2
Level 3	Compliance Meeting/ Cease & Desist Order	0

⁵²Agencies to list specific enforcement actions as defined in their ERPs.

	r/Not ice to Abat e/Sto p Work Orde r	
Level 4	Crimi nal Pena lties/ Civil Injun ction s	0
Total		60

C.4.d.iii.(2)(d) ► Frequency of Potential and Actual Non-stormwater Discharges by Business Category

Fill out the following table or attach a summary of the following information.

Business Category ⁵³	Number of Actual Discharges	Number of Potential Discharges
Restaurants/Food Service Facilities	2	12
Hotels	0	1
Auto Repair	4	10
All Others	5	24

C.4.d.iii.(2)(e) ► Non-Filers

List below or attach a list of the facilities required to have coverage under the Industrial General Permit but have not filed for coverage:

No industries were identified as non-filers during scheduled inspections during fiscal year 2016-2017.

⁵³List your Program's standard business categories.

C.4.e.iii. ► Staff Training Summary						
Training Name	Training Dates	Topics Covered	No. of Industrial/Commercial Site Inspectors in Attendance	Percent of Industrial/Commercial Site Inspectors in Attendance	No. of IDDE Inspectors in Attendance	Percent of IDDE Inspectors in Attendance
SSF Stormwater ERP Review	6/21/17	Stormwater ERP was revised in 2017, and was reviewed by the 3 current Inspectors.	3	100%	3	100%
CWEA Tri-State Seminar	9/20-9/21/17	Stormwater visual assessments, evaluating stormwater BMPs, spill response, stormwater inspections.	1	25%	1	25%
CWEA P3S Annual Conference	2/27-3/1/17	Industrial Stormwater Inspections, Stormwater Inspection Program Audits, MRP updates	1	25%	1	25%
Comments: The City of South San Francisco employs up to 4 Inspectors, all of which perform the duties of both Industrial/Commercial Site Inspections and IDDE Inspections. Total number of Inspectors varied in FY 2016-2017 due to resignation and recruitment activities.						

Section 5 – Provision C.5 Illicit Discharge Detection and Elimination

Program Highlights and Evaluation

Highlight/summarize activities for reporting year:

Provide background information, highlights, trends, etc.

Summary:

- 1) The City of South San Francisco has an ongoing program for reporting illicit discharges within the City. When the street crew observes an illicit discharge or a suspected illicit discharge in the course of performing regularly scheduled maintenance, they call on the Environmental Compliance Inspectors to investigate. Additionally, Inspectors participate in a quarterly creek walk along Colma Creek with County of San Mateo staff, enabling Inspectors to identify problem areas containing evidence of past discharges. Residents of South San Francisco also call the Street Department or the WQCP to report illicit discharges/potential discharges. Additionally, the Public Works Department offers the SeeClickFix mobile application, allowing residents and citizens to report various issues in the service area, including illicit stormwater discharges. Responses and communication are tracked electronically.
The WQCP maintains a stormwater hotline for residents to report suspected illicit discharges. The hotline is publicized on the City's website, and is printed on outreach materials such as brochures, reusable shopping bags, sponges, pencils, erasers and more. The Inspectors receive and follow up on these reports as well.
Illicit Discharge Inspections and Responses are tracked via tracking table.
The Enforcement Response Plan (ERP) was updated on June 21, 2017.
- 2) Environmental Compliance Supervisor Andrew Wemmer and Environmental Compliance Inspector Daniel Garza participated in the CII Subcommittee in FY 16-17.
- 3) Refer to the C.5 Illicit Discharge Detection and Elimination section of the SMCWPPP FY 16-17 Annual Report for description of activities at the countywide or regional level.
- 4) The IDDE Tacking Table was updated to include information on Mobile Businesses.

C.5.c.iii. ► Complaint and Spill Response Phone Number

Summary of any changes made during FY 16-17:

No Change

C.5.d.iii.(1)-(3) ► Spill and Discharge Complaint Tracking

Spill and Discharge Complaint Tracking (fill out the following table or include an attachment of the following information)		
	Number	Percentage
Discharges reported (C.5.d.iii.(1))	72	
Discharges reaching storm drains and/or receiving waters (C.5.d.iii.(2))	41	57%
Discharges resolved in a timely manner (C.5.d.iii.(3))	72	100%
<p>Comments:</p> <p>Illicit discharges are discovered in the course of routine surveillance, in response to calls to the stormwater hotline, reports from the Public Works Department Street Crew and citizen reports via the SeeClickFix application (app). All tabulated discharges were reported on illicit discharge forms completed by WQCP staff. In some cases, a discharge may have reached the storm drain system, but was recovered by the street crew. Such discharges were not included in the number of discharges reaching storm drains and/or receiving water. If multiple types of discharges are observed at a location on the same report form they are counted as one discharge for the purpose of reporting in the tracking table above. However, each type of discharge is counted separately in the chart below "Summary of Major Types of Discharges and Complaints". The City had 72 separate discharge complaints with 20 different types of pollutants in those complaints. 38 Notices of Violation (NOVs) and 18 Administrative Citations were issued in response to the Illicit Discharges reported above.</p> <p>All reported discharges were resolved in a timely manner.</p> <p>If the City receives a complaint on either the hotline or through other channels, inspectors will go into the field and verify the claim of a discharge. All but 3 of the reported discharges were substantiated in the field. 57% of the discharges reached the storm drain. For the remaining 43% of the discharges there was no clear evidence that the discharge reached the storm drain.</p>		

C.5.e.iii.(1) ► Control of Mobile Sources

(a) Provide your agency's minimum standards and BMPs for various types of mobile businesses (C.5.e.iii.(1)(a))
<p>The City of South San Francisco follows the minimum standards and BMPs described in the "Mobile Businesses - Best Management Practices" brochure developed by the SMCWPPP CII Subcommittee in March 2015 for the following mobile business categories: automobile washers/detailers, power washers, carpet cleaners, steam cleaners, pet care services. The BMP brochure is included in the Program Annual Report.</p> <p>The City of South San Francisco encourages businesses to become a BASMAA Recognized Mobile Cleaner and follow the BASMAA BMPs available on the website: http://basmaa.org/Training, by directing them to the website through the Business License Application process or during routine field work or inquiries.</p>

(b) Provide your agency’s enforcement strategy for mobile businesses (C.5.e.iii.(1)(b))	
<p>Enforcement actions stormwater inspectors may take are detailed in our Enforcement Response Plan (ERP). Due to the unique nature of mobile businesses it can be difficult to track enforcement of a single business across jurisdictions. The current strategy is for agencies to share information on mobile business enforcement actions with the SMCWPPP CII Subcommittee facilitator. The Subcommittee facilitator periodically updates the Mobile Business Enforcement Information table that resides on the members-only section of the Program’s website (flowstobay.org).</p>	
(c) Provide a list and summary of the specific outreach events and education conducted by your agency to the different types of mobile businesses operating within your jurisdiction (C.5.e.iii.(1)(c))	
<p>The Program developed a regional inventory of mobile businesses in the standard BMP categories listed in the “Mobile Businesses – Best Management Practices” brochure. The BMP brochure and a transmittal letter were mailed to the business. The Mobile Cleaner Businesses BMP brochure is posted on the SMCWPPP website. The CII Subcommittee also worked with the PIP Subcommittee to send outreach messages through social media. These activities are discussed in the SMCWPPP FY16-17 Annual Report.</p> <p>City of South San Francisco Environmental Compliance Inspectors distribute the SMCWPPP Mobile Businesses – Best Management Practices brochure in response to illicit discharges, inquiries from businesses and through the Business License Application process when applicable. The brochure is also made available at various Environmental Compliance Program outreach events each year, including the SSF Farmers’ Market, and is distributed/discussed while conducting annual Pretreatment (Fats, Oils and Grease) inspections at the two large food truck commissaries in the service area.</p>	
(d) Provide number of inspections conducted at mobile businesses and/or job sites in 2016-2017 (C.5.e.iii.(1)(d)):	6
(e) Discuss enforcement actions taken against mobile businesses in 2016-2017 (C.5.e.iii.(1)(e))	
<p>Enforcement actions are typically taken in response to a complaint or illicit discharge through our IDDE Program. Enforcement actions are tracked in the city’s spill and discharge complaint tracking system required by MRP C.5.d.ii. This FY there were 4 enforcement actions taken for mobile businesses.</p>	
(f) List below or attach the list of mobile businesses operating within your agency’s jurisdiction (C.5.e.iii.(1)(f))	
<p>In FY16-17 the CII Subcommittee requested the Program compile a regional inventory of mobile businesses located in San Mateo County. The inventory was developed from individual city lists and internet searches of google, yelp and yellow pages. The inventory includes automotive washing, steam cleaning, power washing, pet grooming and carpet cleaning mobile businesses. The inventory will be periodically updated with mobile businesses stormwater inspectors observe during routine field activities. The inventory is available to all Co-permittees on the members only webpage of the SMCWPPP website. The inventory is included in the SMCWPPP FY16-17 Annual Report.</p>	
(g) Provide a list and summary of the county-wide or regional activities conducted, including sharing of mobile business inventories, BMP requirements, enforcement action information, and education (C.5.e.iii.(1)(g))	
<p>Refer to the C.5 Illicit Discharge Detection and Elimination section of the SMCWPPP FY 16-17 Annual Report for description of activities at the countywide or regional level.</p>	

Section 6 – Provision C.6 Construction Site Controls

C.6.e.iii.(3)(a)-(d) ► Site/Inspection Totals			
Number of active Hillside Sites (sites disturbing < 1 acre of soil requiring storm water runoff quality inspection) (C.6.e.iii.(3)(a))	Number of High Priority Sites (sites disturbing < 1 acre of soil requiring storm water runoff quality inspection) (C.6.e.iii.(3)(c))	Number of sites disturbing ≥ 1 acre of soil (C.6.e.iii.(3)(b))	Total number of storm water runoff quality inspections conducted (include only Hillside Sites, High Priority Sites and sites disturbing 1 acre or more) (C.6.e.iii.(3)(d))
0	2	8	55
<p>Comments:</p> <p>A total of 57 construction site inspections were conducted at total of 10 sites within these categories during Fiscal Year 2016-2017. Of the sites that were greater than 1 acre, three sites were new projects while the other five sites were projects from the previous year.</p> <p>Six additional sites that did not meet the above criteria were inspected as-needed during Fiscal Year 2016-2017 as part of the Program’s construction site inspection program. These sites were inspected due to housekeeping and/or track-out issues reported/noticed during normal field inspections and were brought back into compliance.</p>			

C.6.e.iii.(3)(e) ▶ Construction Related Storm Water Enforcement Actions

	Enforcement Action (as listed in ERP) ⁵⁴	Number Enforcement Actions Issued
Level 1 ⁵⁵	Verbal Warning/Notice of Violation	39
Level 2	Administrative Citation	3
Level 3	Compliance Meeting/Stop Work Order/Cease & Desist Order/Notice to Abate a Public Nuisance	0
Level 4	Criminal Penalties/Civil Injunctions	0
Total		42

C.6.e.iii.(3)(f) ▶ Illicit Discharges

	Number
Number of illicit discharges, actual and those inferred through evidence at hillside sites, high priority sites and sites that disturb 1 acre or more of land (C.6.e.iii.(3)(f))	3

C.6.e.iii.(3)(g) ▶ Corrective Actions

Indicate your reporting methodology below.	
<input checked="" type="checkbox"/>	Permittee reports multiple discrete potential and actual discharges as one enforcement action.
<input type="checkbox"/>	Permittee reports the total number of discrete potential and actual discharges on each site.
	Number
Enforcement actions or discrete potential and actual discharges fully corrected within 10 business days after violations are discovered or otherwise considered corrected in a timely period (C.6.e.iii.(3)(g)).	8
Total number of enforcement actions or discrete potential and actual discharges for the reporting year	8
Comments: None at this time.	

⁵⁴Agencies should list the specific enforcement actions as defined in their ERPs.

⁵⁵For example, Enforcement Level 1 may be Verbal Warning.

C.6.e.iii.(4) ► Evaluation of Inspection Data

Describe your evaluation of the tracking data and data summaries and provide information on the evaluation results (e.g., data trends, typical BMP performance issues, comparisons to previous years, etc.).

Description:
 Overall there were no major problems with the construction sites in 2016/2017. The most common issues for 2016/2017 were for sediment control (track out and potential runoff), non-stormwater management and general site maintenance. There were two more regulated projects in progress in 2016/2017 than in 2015/2016, however this did not directly translate to more inspections conducted – as some projects began at different times throughout the wet season. Based on information through the City’s Planning Committee and Building Department, it is expected that rates of new development and redevelopment will continue to increase in the coming years as the economy continues to recover. The City will attempt to maintain a high level of scrutiny as the number of sites increases.

C.6.e.iii.(4) ► Evaluation of Inspection Program Effectiveness

Describe what appear to be your program’s strengths and weaknesses, and identify needed improvements, including education and outreach.

Description:
 The City of South San Francisco’s program is strong, with frequent inspections performed at each construction site especially during the wet weather season. Inspectors inspect each construction site before the beginning of the wet weather season, prior to qualifying rain events and several times during an extended or severe storm. Inspectors follow up at each site after the storm to determine if any repairs are necessary. Most sites are very quick to respond and repair or replace their BMPs. Occasionally there are sites that require numerous inspections to illicit a response and repair their site BMPs. Inspectors try to work with these sites to bring them back into compliance. While it may occasionally take more than 10 business days, this leeway is only given when discharge from the site is not observed. Inspectors participate in erosion control training at least once every 2 years. Inspection and enforcement data is tabulated in a construction tracking spreadsheet, which underwent minor revision in 2016-2017. The program uses inspection forms that were updated in February 2011 and is transitioning to the forms updated in July 2016. The City of South San Francisco participates in the SMCWPPP New Development Subcommittee and attended meetings during FY 16-17. Refer to the C.6 Construction Site Control section of countywide program’s FY 16-17 Annual Report for a description of activities at the countywide or regional level.

C.6.f.iii. ► Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance
Public Works Traffic Control/Flagger Certification	2/14/17	Effective/Safe traffic control and flagging procedures (applied to C6 inspections within our program).	3

Construction Site Stormwater Compliance (presentation to CalBIG)	9/21/16	Existing and new MRP requirements, including C.6, C.3.i, and C.3.a; proper installation of construction BMPs.	6
---	---------	---	---

Section 7 – Provision C.7. Public Information and Outreach

C.7.b.i.(1) ► Outreach Campaign

Summarize outreach campaign. Include details such as messages, creative developed, and outreach media used. The detailed outreach campaign report may be included as an attachment. If outreach campaign is being done by participation in a countywide or regional program, refer to the separate countywide or regional Annual Report.

Summary:

See Section 7 and Section 9 of the SMCWPPP FY 16-17 Annual Report for a description of activities conducted at Countywide level.

The City of South San Francisco’s ongoing outreach campaign includes providing informational materials and items (including reusable shopping bags) displaying the City’s Pollution Prevention messages, “Pollution Prevention is Everyone’s Job” and/or “Keep South San Francisco Beautiful.” The majority of this campaign utilizes printed media, which is disseminated at local and regional events such as Farmers’ Markets, City events, Creek Cleanups and at the library during Pollution Prevention Week.

In addition, in June 2015, the City of South San Francisco contracted with NCM to advertise an anti-Cigarette Butt Littering message to residents in the service area at the Tanforan Movie Theatre in San Bruno, CA. The audio/video advertisement is 15 seconds long and plays on each screen prior to the coming attractions. The video advertisement has also been posted on the City’s website at <http://www.ssf.net/2119/Outreach-Activities>. The advertisement was screened August 26, 2016 through August 17, 2017. The City is renewing the contract and the advertisement will play again during FY 17-18.

C.7.c. ► Stormwater Pollution Prevention Education

There was no change from FY 15-16 as to the point of contact for information on stormwater issues, or to how the point of contact is publicized and maintained for the City of South San Francisco.

C.7.d. ► Public Outreach and Citizen Involvement Events

Describe general approach to event selection. Provide a list of outreach materials and giveaways distributed.
 Use the following table for reporting and evaluating public outreach events

See the C.7 Public Outreach and Citizen Involvement Events section of SMCWPPP FY 16-17 Annual Report for a summary of activities.

Event Details	Description (messages, audience)	Evaluation of Effectiveness
Provide event name, date, and location. Indicate if event is local, countywide or regional. Indicate if event is public outreach or citizen involvement.	Identify type of event (e.g., school fair, creek clean-up, storm drain stenciling, farmers market etc.), type of audience (school children, gardeners, homeowners etc.) and outreach messages (e.g., Enviroscope presentation, pesticides, stormwater awareness)	Provide general staff feedback on the event (e.g., success at reaching a broad spectrum of the community, well attended, good opportunity to talk to gardeners etc.). Provide other details such as: <ul style="list-style-type: none"> • Success at reaching a broad spectrum of the community • Number of participants compared to previous years. • Post-event effectiveness assessment/evaluation results • Quantity/volume of materials cleaned up, and comparisons to previous efforts
City of SSF Farmers' Market (Local event) Orange Park South San Francisco, CA 7/23/16	Event: Farmers' Market Audience: Local residents, homeowners, children Message: Pollution Prevention (Stormwater, Household Haz Waste, Fats, Oils and Grease, Car Washing)	Environmental Compliance Staff members staffed a Pollution Prevention Outreach Booth, interacting with an estimated 91 local residents regarding the City's Pollution Prevention efforts. As in previous years, this event was successful in that a broad spectrum of local residents and business owners attend the market and staff is able to interact with them. Approximately 94 Reusable Shopping Bags and 122 other items bearing the City's Stormwater Pollution Prevention message were distributed.
City of SSF Farmers' Market (Local event) Orange Park South San Francisco, CA 8/6/16	Event: Farmers' Market Audience: Local residents, homeowners,	Environmental Compliance Staff members staffed a Pollution Prevention Outreach Booth, interacting with an estimated 110 local residents regarding the City's Pollution Prevention efforts.

	<p>children</p> <p>Message: Pollution Prevention (Stormwater, Household Haz Waste, Fats, Oils and Grease, Car Washing)</p>	<p>As in previous years, this event was successful in that a broad spectrum of local residents and business owners attend the market and staff is able to interact with them.</p> <p>Approximately 150 Reusable Shopping Bags and 175 other items bearing the City's Stormwater Pollution Prevention message were distributed.</p>
<p>City of SSF Farmers' Market (Local event) Orange Park South San Francisco, CA 8/13/16</p>	<p>Event: Farmers' Market</p> <p>Audience: Local residents, homeowners, children</p> <p>Message: Pollution Prevention (Stormwater, Household Haz Waste, Fats, Oils and Grease, Car Washing)</p>	<p>Environmental Compliance Staff members staffed a Pollution Prevention Outreach Booth, interacting with an estimated 95 local residents regarding the City's Pollution Prevention efforts.</p> <p>As in previous years, this event was successful in that a broad spectrum of local residents and business owners attend the market and staff is able to interact with them.</p> <p>Approximately 145 Reusable Shopping Bags and 96 other items bearing the City's Stormwater Pollution Prevention message were distributed.</p>
<p>City of SSF Farmers' Market (Local event) Orange Park South San Francisco, CA 9/10/16</p>	<p>Event: Farmers' Market</p> <p>Audience: Local residents, homeowners, children</p> <p>Message: Pollution Prevention (Stormwater, Household Haz Waste, Fats, Oils and Grease, Car Washing)</p>	<p>Environmental Compliance Staff members staffed a Pollution Prevention Outreach Booth, interacting with an estimated 100 local residents regarding the City's Pollution Prevention efforts.</p> <p>As in previous years, this event was successful in that a broad spectrum of local residents and business owners attend the market and staff is able to interact with them.</p> <p>Approximately 100 Reusable Shopping Bags bearing the City's Stormwater Pollution Prevention message were distributed.</p>
<p>City of SSF Farmers' Market (Local event) Orange Park South San Francisco, CA 6/10/17</p>	<p>Event: Farmers' Market</p> <p>Audience: Local residents, homeowners, children</p> <p>Message: Pollution Prevention (Stormwater,</p>	<p>Environmental Compliance Staff members staffed a Pollution Prevention Outreach Booth, interacting with an estimated 121 local residents regarding the City's Pollution Prevention efforts.</p> <p>As in previous years, this event was successful in that a broad spectrum of local residents and business owners attend the market and staff is</p>

	Household Haz Waste, Fats, Oils and Grease, Car Washing)	able to interact with them. Approximately 74 Reusable Shopping Bags and 126 other items bearing the City's Stormwater Pollution Prevention message were distributed.
City of SSF Farmers' Market (Local event) Orange Park South San Francisco, CA 6/17/17	Event: Farmers' Market Audience: Local residents, homeowners, children Message: Pollution Prevention (Stormwater, Household Haz Waste, Fats, Oils and Grease, Car Washing)	Environmental Compliance Staff members staffed a Pollution Prevention Outreach Booth, interacting with an estimated 100 local residents regarding the City's Pollution Prevention efforts. As in previous years, this event was successful in that a broad spectrum of local residents and business owners attend the market and staff is able to interact with them. Approximately 75 Reusable Shopping Bags and 85 other items bearing the City's Stormwater Pollution Prevention message were distributed. <i>Overall, this is an increase in the number of Farmers' Market interactions from the previous Fiscal Year, due to hiring additional staff members.</i>
City of SSF Public Works Kids Tour (local) Corporation Yard SSF 8/8/16	Event: Kindergarten/1 st Grade tour offered by SSF Public Works Audience: School-aged children (5-7) Message: Pollution Prevention (Stormwater)	SSF Public Works Staff members presented a tour to 50 students regarding city operations. The event was deemed successful based on the students' reactions/questions/enthusiasm and feedback from staff- as well as being able to reach young minds with our message that they may then take home to their parents as well. Along with the tour, 50 kits with items bearing the City's Stormwater Pollution Prevention message were distributed, including stickers, pencils, rulers and bug guides.
Pollution Prevention Week (Local Event) South San Francisco Public Library 9/20/16-9/21/16	Event: local City Library event Audience: Local residents and schoolchildren.	Environmental Compliance Staff members interacted with approximately 86 local residents and students. Stormwater Pollution Prevention information and items were provided. Approximately 73 Reusable Shopping Bags and 92 other items bearing the City's Stormwater

	Message: Pollution Prevention (Stormwater, Household Haz Waste, Fats, Oils and Grease, Car Washing)	Pollution Prevention were distributed. As in previous years, this event was a success, as we are able to interact with a broad spectrum of the City's residents and employees – including high school and elementary school students using the public library after school.
FY 16-17 Coordination of California Coastal Clean-up Day in San Mateo County 9/17/16 (Local event in South San Francisco)	Coastal clean-up event – Colma Creek hot spot clean-up. Pollution prevention/anti-littering outreach materials and information to general public and volunteers.	Over 38 volunteers in South San Francisco participated in cleaning up 2400+ feet along Colma Creek and collected approximately 200 gallons of trash and debris. This number was down from the 525 gallons of trash picked up in FY 2015-2016. The event was deemed successful as a broad spectrum of the community was reached and volunteers could tangibly connect littering's effect on the storm drain system and creek/Bay.
FY 16-17 Coordination of California Coastal Clean-up Day in San Mateo County 9/17/16 – Countywide event	Coastal clean-up event Stormwater pollution prevention outreach information was provided at the cleanup site to general public and volunteers. City of SSF staff participated in cleanup event and logistics with San Mateo County personnel. Advertised event through City displays and outreach tables.	See the C.7 Public Information and Outreach section of SMCWPPP's FY 16-17 Annual Report for more details on the county-wide data from this event. Over 38 volunteers in South San Francisco participated in cleaning up 2400+ feet along Colma Creek and collected 200 gallons of trash and debris.
City of SSF Citizen's Academy (local) SSF WQCP 9/13/16	Event: Citizen involvement event Audience: Local citizens Message: Wastewater treatment, stormwater pollution prevention	City Public Works provided education and outreach materials bearing the City's stormwater pollution prevention message to 35 local citizens, including reusable bags, bookmarks and reusable cups. The event was deemed a success, as the group was made up of a variety of citizens interested in City operations, who are highly involved in community issues. Therefore, the pollution prevention message would be carried exponentially after the attendees left the Academy.
City of SSF WQCP Tours (local)	Event: Citizen involvement event	City WQCP staff provided education and

<p>SSF WQCP 3/18/17, 4/11/17, 4/22/17 and 6/10/17</p>	<p>Audience: Local citizens Message: Wastewater treatment, stormwater pollution prevention</p>	<p>outreach materials bearing the City's stormwater pollution prevention message to 45 local citizens, including reusable bags, bookmarks and reusable cups. The event was deemed a success, as the group was made up of a variety of citizens interested in City operations, who are highly involved in community issues. Therefore, the pollution prevention message would be carried exponentially after the attendees left the Academy.</p>
<p>Amgen Earth Day Fair (Local Event) 1150 Veterans Blvd, SSF, CA 94080 4/26/17</p>	<p>Local Corporate Fair Audience: Local businesses, residents and employees of Amgen. Message: Message: Pollution Prevention (Stormwater, Household Haz Waste, Fats, Oils and Grease, Car Washing).</p>	<p>The Environmental Compliance Program staffed a booth at the Amgen Earth Day Fair, which included various organizations and companies interested in presenting Pollution Prevention-themed ideas and information. Approximately 125 people visited the South San Francisco Environmental Compliance table. Approximately 170 Reusable Shopping Bags and 105 additional items bearing the City's Stormwater Pollution Prevention message were distributed. As in previous years, this event was deemed successful, as we were able to interact with several different members of the community as well as a portion of Amgen's 500 employees working in our service area.</p>
<p>SSF CPTF Tree Planting Local Event SSF, CA near Bay Trail 12/10/16</p>	<p>Tree planting event Coordinated with City employees and Community Preservation Task Force (CPTF). Audience: local community members Message: Pollution prevention, keeping trash from the stormwater system/Bay.</p>	<p>Approximately 30 volunteers planted trees and cleaned a SSF neighborhood area. The event was deemed a success as it brought together community volunteers of various ages and provided tangible evidence of litter's effect on the Bay and ecosystem.</p>
<p>SSF Estuary Cleanup Local Event Colma Creek estuary in SSF, CA near WQCP 3/16/17</p>	<p>Estuary Trash Clean-up event by City employees and community members. Audience: local community members Message: Pollution prevention, keeping trash from the stormwater system/Bay.</p>	<p>Approximately 4 Volunteers removed trash and debris from the estuary area of Colma Creek near the WQCP. Approximately 169 gallons of trash was removed.</p>

		The event was deemed successful, as this area is difficult to access, however collects a large amount of litter from the creek and storm drains prior to entering the Bay.
<p>Earth Day Colma Creek Cleanup Local Event Colma Creek in SSF, CA near Bay Trail 4/22/17</p>	<p>Creek Clean-up event with San Mateo County Environmental Health Audience: Community members Message: Pollution prevention (keeping litter/trash from storm drains and creek/Bay).</p>	<p>Approximately 20 Volunteers removed trash and debris from both sides of an approximate 1200-foot stretch of Colma Creek near the WQCP and Bay Trail pedestrian bridge. Approximately 390 gallons of trash was removed.</p> <p>This event was deemed successful as a broad spectrum of the community was reached and volunteers could tangibly connect littering's effect on the storm drain system and creek/Bay.</p>
<p>SSF Take Your Son/Daughter to Work Day Local Event SSF, CA 4/25/17</p>	<p>Local citizen involvement event Audience: sons/daughters of City employees Message: Stormwater pollution prevention</p>	<p>Environmental Compliance staff provided outreach materials containing the City's stormwater pollution prevention message to the 45 children who attended the event. Materials included reusable shopping bags, pencils, rulers and stickers.</p> <p>The event was deemed successful, as our message reached children of various ages, many of whom may not have previously been exposed to it.</p>
<p>SSF Relay for Life Local Event SSF, CA 4/26/17</p>	<p>Local citizen involvement event Audience: local citizens, residents and relay participants Message: Stormwater pollution prevention</p>	<p>Environmental Compliance staff provided 175 outreach materials containing the City's stormwater pollution prevention message for the event including pencils, rulers and magnets.</p> <p>The event was deemed successful, as our message reached residents of various ages, many of whom may not have previously been exposed to it.</p>
<p>National Rivers Day Colma Creek Cleanup Local Event Colma Creek at Utah Ave Bridge, SSF, CA 5/20/17</p>	<p>Creek Clean-up event Coordinated with City employees and San Mateo County Environmental Health Audience: community members Message: Pollution prevention (keeping</p>	<p>Approximately 10 Volunteers removed trash and debris from an approximate 1200-foot stretch of Colma Creek near the Utah Avenue bridge.</p> <p>Approximately 200 gallons trash was removed.</p> <p>This event was deemed successful as various</p>

	litter/trash from storm drains and creek/Bay).	community members could tangibly connect littering's effect on the storm drain system and creek/Bay.
--	--	--

C.7.e. ► Watershed Stewardship Collaborative Efforts

Summarize watershed stewardship collaborative efforts and/or refer to a regional report that provides details. Describe the level of effort and support given (e.g., funding only, active participation etc.). State efforts undertaken and the results of these efforts. If this activity is done regionally refer to a regional report.

Evaluate effectiveness by describing the following:

- Efforts undertaken
- Major accomplishments

Summary:

See the C.7 Watershed Stewardship Collaborative Efforts section of SMCWPPP FY 16-17 Annual Report for a summary of activities.

C.7.f. ► School-Age Children Outreach

Summarize school-age children outreach programs implemented. A detailed report may be included as an attachment. Use the following table for reporting school-age children outreach efforts.

See the C.7 School-Age Children Outreach section of SMCWPPP FY 16-17 Annual Report for a summary of activities.

Program Details	Focus & Short Description	Number of Students/Teachers reached	Evaluation of Effectiveness
Provide the following information: Name Grade or level (elementary/ middle/ high)	Brief description, messages, methods of outreach used	Provide number or participants	Provide agency staff feedback. Report any other evaluation methods used (quiz, teacher feedback etc.). Attach evaluation summary if applicable.
City of SSF Public Works Kids Tour (local) Corporation Yard SSF 8/8/16	Event: Kindergarten/1 st Grade tour offered by SSF Public Works Audience: School-aged children (5-7) Message: Pollution Prevention (Stormwater)	SSF Public Works Staff members (10-15) presented a tour to 50 students regarding city operations and	The event was deemed successful based on the students' reactions/questions/enthusiasm and feedback from staff- as well as being able to reach young minds with our message that they may then take home to their parents as well.

		efforts.	Along with the tour, 50 kits with items bearing the City's Stormwater Pollution Prevention message were distributed, including stickers, pencils, rulers and bug guides.
--	--	----------	--

Section 9 – Provision C.9 Pesticides Toxicity Controls

C.9.a. ► Implement IPM Policy or Ordinance									
Is your municipality implementing its IPM Policy/Ordinance and Standard Operating Procedures?						<input checked="" type="checkbox"/> X	Yes	<input type="checkbox"/>	No
If no, explain:									
Report implementation of IPM BMPs by showing trends in quantities and types of pesticides used, and suggest reasons for increases in use of pesticides that threaten water quality, specifically organophosphates, pyrethroids, carbamates fipronil, indoxacarb, diuron, and diamides. A separate report can be attached as evidence of your implementation.									
Trends in Quantities and Types of Pesticide Active Ingredients Used⁵⁶									
Pesticide Category and Specific Pesticide Active Ingredient Used	Amount ⁵⁷								
	FY 15-16	FY 16-17	FY 17-18	FY 18-19	FY 19-20	FY 20-21			
Organophosphates	None	None							
Active Ingredient Chlorpyrifos		None							
Active Ingredient Diazinon		None							
Active Ingredient Malathion		None							
Pyrethroids (see footnote #57 for list of active ingredients)	None	None							
Active Ingredient Type X		None							
Active Ingredient Type Y		None							
Carbamates	None	None							
Active Ingredient Carbaryl		None							
Active Ingredient Aldicarb		None							
Fipronil	None	None							
Indoxacarb	Reporting not required in FY 15-16	None							

⁵⁶Includes all municipal structural and landscape pesticide usage by employees and contractors.

⁵⁷Weight or volume of the active ingredient, using same units for the product each year. Please specify units used. The active ingredients in any pesticide are listed on the label. The list of active ingredients that need to be reported in the pyrethroids class includes: metofluthrin, bifenthrin, cyfluthrin, beta-cyfluthrin, cypermethrin, deltamethrin, esfenvalerate, lambdacyhalothrin, and permethrin.

Diuron	Reporting not required in FY 15-16	None				
Diamides	Reporting not required in FY 15-16	None				
Active Ingredient Chlorantraniliprole		None				
Active Ingredient Cyantraniliprole		None				
<p>IPM Tactics and Strategies used:</p> <p>The City of SSF implemented IPM tactics and strategies during FY 16-17 including:</p> <ul style="list-style-type: none"> • Use of non-chemical strategies such as monitoring, mowing, mulching and other mechanical means of weed abatement when possible. • Replacing invasive plants with natives. • Allowing allopathic leaf litter to remain on site for weed suppression. 						

C.9.b. ► Train Municipal Employees

Enter the number of employees that applied or used pesticides (including herbicides) within the scope of their duties this reporting year.	21
Enter the number of these employees who received training on your IPM policy and IPM standard operating procedures within this reporting year.	21
Enter the percentage of municipal employees who apply pesticides who have received training in the IPM policy and IPM standard operating procedures within this reporting year.	100%
<p>Type of Training: City of SSF Parks and Rec staff attended the following training FY 16-17:</p> <ul style="list-style-type: none"> -Bay-Friendly Training & Qualification for Maintaining Sustainable Landscapes (August 2017) -SMCWPPP Landscape IPM Training (3/8/17) -CAPCA Pesticide Training, San Mateo (August 2017) -Four staff members hold QAC licenses and two additional staff members are training to obtain the QAC. 	

C.9.c. ► Require Contractors to Implement IPM				
Did your municipality contract with any pesticide service provider in the reporting year, for either landscaping or structural pest control?	X	Yes		No
If yes, did your municipality evaluate the contractor’s list of pesticides and amounts of active ingredients used?	X	Yes		No,
<p>If your municipality contracted with any pesticide service provider, briefly describe how contractor compliance with IPM Policy/Ordinance and SOPs was monitored</p> <p>The City of South San Francisco verifies IPM contractor performance by hiring professionals that certify they are properly trained and use IPM.</p> <p>Frank & Grossman Landscape Contractors, Inc. (signed City of SSF Written Order/contract specifications attached) Gary Cooper, General Operations Manager 1400 Egbert Avenue San Francisco, CA 94124 415 822 1900</p> <p>Terminix International (Green Pro Certified) 32980 Alvarado-Niles #826 Union City, CA 94587 510 489 8689</p> <p>Green Pro Certification (attached) is different from Quality Pro Green (Regional Board cited Quality Pro Green certification). The Green Pro Certification ensures technicians are trained and ‘only make traditional pesticide applications after discussing the options with you and getting your consent’.</p> <p>The City of South San Francisco contract specifications require adherence to IPM, including:</p> <p><i>The Contractor shall act as or coordinate with a licensed specialist to identify any Pest management problems that may arise in the street and parkway landscape; and</i></p> <p><i>The Contractor shall be familiar with various integrated pest management (IPM) programs. The Contractor is required to develop and adopt an IPM plan that complies with an IPM plan consistent with the IPM-based hierarchical decision making process (established by Provision C.9.d, of Water Board Permit No. R2-2009-0074, Municipal Regional Stormwater NPDES Permit) and the City-approved IPM Policy to effectively eradicate any diseases or pests which develop during the duration of this contract. The development and execution of the IPM program shall be the responsibility of the Contractor and will not be considered extra work.</i></p> <p><i>The City of South San Francisco Parks Manager requests any or all labels, licenses, certificates, categories, permits or recommendations before chemicals are applied. An IPM plan developed by the Contractor may have to be approved by the Parks Manager and the County Agricultural Commissioner before implementation. A MSDS must be submitted for each chemical to be used prior to any application program.</i></p> <p><i>Prior to application, the Contractor shall provide a copy of any spray report showing details of areas, times, chemicals, MSDS, and rates of</i></p>				

application as provided by a licensed pest control advisor. A copy shall be provided with billing at the end of the month as well.

The Contractor shall provide the County Agricultural Commissioner's office (as required by law) a monthly record of all pesticides used in the street and parkway landscape facilities. A copy of the same report shall be included with the Contractor's monthly billing to the City. Column "F" of the standard monthly report to the Commissioner shall indicate that a chemical has been used on a South San Francisco facility. Indicate also the types of weeds treated using common names.

The City of South San Francisco Parks Department meets bi-weekly with approved IPM contractors to discuss upcoming projects and maintenance activities, including use of pesticides – pertaining to the contract specifications above and IPM implementation. These meetings are the primary procedure used by the City to ensure compliance with IPM policy. Noncompliance with any of these contractual IPM provisions could constitute breach of contract and cessation of services.

Additionally, IPM contractors are required to submit spray reports and monthly pesticide application records to the City with monthly billing documents - upon which they are reviewed by the City to ensure compliance with IPM contractual requirements.

If your agency did not evaluate the contractor's list of pesticides and amounts of active ingredients used, provide an explanation.

C.9.d. ► Interface with County Agricultural Commissioners

Did your municipality communicate with the County Agricultural Commissioner to: (a) get input and assistance on urban pest management practices and use of pesticides or (b) inform them of water quality issues related to pesticides?	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No
---	--------------------------	-----	-------------------------------------	----

If yes, summarize the communication. If no, explain.
 See Section 9 of the SMCWPPP FY 16-17 Annual Report for summary of communication with the San Mateo County Agricultural Commissioner.

Did your municipality report any observed or citizen-reported violations of pesticide regulations (e.g., illegal handling and applications of pesticides) associated with stormwater management, particularly the California Department of Pesticide Regulation (DPR) surface water protection regulations for outdoor, nonagricultural use of pyrethroid pesticides by any person performing pest control for hire?	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No
--	--------------------------	-----	-------------------------------------	----

If yes, provide a summary of improper pesticide usage reported to the County Agricultural Commissioner and follow-up actions taken to correct any violations. A separate report can be attached as your summary.

C.9.e.ii.(1) ► Public Outreach: Point of Purchase

Provide a summary of public outreach at point of purchase, and any measurable awareness and behavior changes resulting from outreach (here or in a separate report); **OR** reference a report of a regional effort for public outreach in which your agency participates.

Summary:

See the C.9 Pesticides Toxicity Control section of the SMCWPPP FY 16-17 Annual Report for information on point of purchase public outreach conducted countywide and regionally.

C.9.e.ii.(2) ► Public Outreach: Pest Control Contracting Outreach

Provide a summary of outreach to residents who use or contract for structural pest control and landscape professionals); **AND/OR** reference a report of a regional effort for outreach to residents who hire pest control and landscape professionals in which your agency participates.

Summary:

See the C.9 Pesticides Toxicity Control section of the SMCWPPP FY 16-17 Annual Report for a summary of public outreach to residents who hire pest control and landscape professionals.

C.9.e.ii.(3) ► Public Outreach: Pest Control Operators

Provide a summary of public outreach to pest control operators and landscapers and reduced pesticide use (here or in a separate report); **AND/OR** reference a report of a regional effort for outreach to pest control operators and landscapers in which your agency participates.

Summary:

See the C.9 Pesticides Toxicity Control section of SMCWPPP FY 16-17 Annual Report for a summary of outreach to pest control operators and landscapers to reduce pesticide use.

C.9.f. ► Track and Participate in Relevant Regulatory Processes

Summarize participation efforts, information submitted, and how regulatory actions were affected; **AND/OR** reference a regional report that summarizes regional participation efforts, information submitted, and how regulatory actions were affected.

Summary:

During FY 16-17, we participated in regulatory processes related to pesticides through contributions to the Program, BASMAA and CASQA. For additional information, see the Regional Report submitted by BASMAA on behalf of all MRP Permittees.

Section 10 - Provision C.10 Trash Load Reduction

C.10.a.i. ► Trash Load Reduction Summary

For population-based Permittees, provide the overall trash reduction percentage achieved to-date within the jurisdictional area of your municipality that generates problematic trash levels (i.e., Very High, High or Moderate trash generation). Base the reduction percentage on the information presented in C.10.b i-iv and C.10.e.i-ii. Provide a discussion of the calculation used to produce the reduction percentage, including whether the 70% mandatory trash load reduction deadline was attained. If not attained, attach and include reference to a Plan to comply with the deadline in a timely manner, which should include the Permittee’s plan and schedule to install full capture systems/devices.

Trash Load Reductions	
Percent Trash Reduction in All Trash Management Areas (TMAs) due to Trash Full Capture Systems (as reported C.10.b.i)	43.7%
Percent Trash Reduction in all TMAs due to Control Measures Other than Trash Full Capture Systems (as reported in C.10.b.ii) ⁵⁸	29.5%
Percent Trash Reduction due to Jurisdictional-wide Source Control Actions (as reported in C.10.b.iv) ¹	10.0%
SubTotal for Above Actions	83.2%
Trash Offsets (Optional)	
Offset Associated with Additional Creek and Shoreline Cleanups (as reported in C.10.e.i)	0.0%
Offset Associated with Direct Trash Discharges (as reported in C.10.e.ii)	0.0%
Total (Jurisdictional-wide) % Trash Load Reduction in FY 16-17	83.2%

⁵⁸ See Appendix 10-1 for changes between 2009 and FY 16-17 in trash generation by TMA as a result of Full Capture Systems and Other Measures.

Discussion of Trash Load Reduction Calculation and Attainment of the 70% Mandatory Deadline:

The City attained and reported 42% trash load reduction in its FY 15-16 Annual Report. Because the City did not achieve the non-mandatory performance guideline of 60% by July 1, 2016, a Trash Action Plan was prepared and submitted to the Water Board to document the description and schedule of additional trash load reduction control actions that would be implemented to attain and exceed the required 70% percent reduction by July 1, 2017.

The City commissioned the *South San Francisco Trash Capture Feasibility Study* (Schaaf & Wheeler, 2016) determining that the most feasible way for the City to meet the 70% trash reduction goal was through five (5) large scale trash capture devices towards the end of the City's storm drainage system prior to discharging to Colma Creek. These devices were to be installed in strategic medium-high trash generation areas and would have provided a centralized location for construction, maintenance and cleaning, as well as relatively low annual Operation and Maintenance (O&M) costs. The City continued to pursue these devices and hired Schaaf & Wheeler to start the design process. The *South San Francisco Trash Capture Conceptual Design Memo* (Schaaf & Wheeler, 2017) detailed the site logistics and provided conceptual design drawings to show that the five locations were suitable for large scale device installation. The cost estimate for the large scale devices was between \$2,700,000 and \$5,000,000.

The City had been involved in the design phase through February 2017. However, due to limited stormwater funding, lengthy design and construction process, and the high capital investment costs the City's preferred large trash capture device approach was deemed infeasible to meet the 70% trash reduction by July 1, 2017. Therefore, the City changed course and with the assistance of Schaaf & Wheeler, determined that installing between 250-300 full trash capture inlet filters in TMA#s 1, 4 and 5, at an estimated capital cost of \$150,000 to \$165,000 would provide the required 70% trash reduction.

During FY 16-17, the City implemented this action plan and attained an 83% trash load reduction (including trash offsets), which exceeds the mandatory trash load reduction requirement of 70%. Descriptions of the actions taken to reduce trash in the City are summarized in this section of the annual report. Methods used to calculate the reduction are consistent with the methods described in the MRP.

C.10.a.iii. ► Mandatory Trash Full Capture Systems		
Provide the following:		
1) Total number and types of full capture systems (publicly and privately-owned) installed prior to FY 16-17, during FY 16-17, and to-date, including inlet-based and large flow-through or end-of-pipe systems, and qualifying low impact development (LID) required by permit provision C.3.		
2) Total land area (acres) treated by full capture systems for population-based Permittees and total number of systems for non-population based Permittees compared to the total required by the permit.		
Type of System	# of Systems	Areas Treated (Acres)*
Installed Prior to FY 16-17		
Connector Pipe Screen (Public)	76	460.9
Low Impact Development (Private)	1	9.7
Installed in FY 16-17		
Connector Pipe Screen (Public)	259	912.3
Total for all Systems Installed To-date	336	1,385.6
Treatment Acreage Required by Permit (Population-based Permittees)		58
Total # of Systems Required by Permit (Non-population-based Permittees)		N/A

*Areas treated include jurisdictional and non-jurisdictional lands (e.g., public K-12 schools and colleges, and freeways).

C.10.b.i. ► Trash Reduction - Full Capture Systems

Provide the following:

- 1) Jurisdiction-wide trash reduction in FY 16-17 attributable to trash full capture systems implemented in each TMA;
- 2) The total number of full capture systems installed to-date in your jurisdiction;
- 3) The percentage of systems in FY 16-17 that exhibited significant plugged/blinded screens or were >50% full when inspected or maintained;
- 4) A narrative summary of any maintenance issues and the corrective actions taken to avoid future full capture system performance issues; and
- 5) A certification that each full capture system is operated and maintained to meet the full capture system requirements in the permit.

TMA	Jurisdiction-wide Reduction (%)	Total # of Full Capture Systems	% of Systems Exhibiting Plugged/Blinded Screens or >50% full in FY 16-17	Summary of Maintenance Issues and Corrective Actions
1	19.4%	336	0%	<p>These Full Trash Capture devices are inspected/maintained on an average frequency of three times per year - before, during and after storm events. The main issue with the devices is the potential to plug up during storms causing flooding, therefore frequent maintenance is required. Upon installation of the devices, the City had expected to only clean/maintain the devices before and after each storm. However, based on this flooding concern, it has been found that the devices required cleaning/maintenance during storms as well. Another issue with the devices is that the contractor is unavailable to help troubleshoot, as they have gone out of business. Maintenance records are on the Computerized Maintenance Management System (CMMS) located on the City server – CityWorks (maintenance records and reports) and are therefore easily accessed for audit purposes. The areas of treatment for each trash capture device are included in the City of South San Francisco’s Long-term Trash Load Reduction Plan submitted on February 1, 2014*.</p> <p>During FY 2016-2017, only 75 of the current 336 small capture devices were inspected and cleaned. None of the installed devices were found to be > 25% full, and none of the systems exhibited plugged or blinded screens – attributed to the aggressive maintenance schedule noted above.</p>
2	1.4%			
3	1.2%			
4	7.6%			
5	13.8%			
6	0.0%			
7	0.2%			
8	0.0%			
9	0.1%			
Total	43.7%*			

Certification Statement:

The City of South San Francisco certifies that a full capture system maintenance and operation program is currently being implemented to maintain all applicable systems in manner that meets the full capture system requirements included in the Permit.

*Information not yet available on newly installed devices (259 devices installed June 2017).

C.10.b.ii. ► Trash Reduction – Other Trash Management Actions (PART A)	
Provide a summary of trash control actions other than full capture systems or jurisdictional source controls that were implemented within each TMA, including the types of actions, levels and areal extent of implementation, and whether actions are new, including initiation date.	
TMA	Summary of Trash Control Actions Other than Full Capture Systems
1	Improved Trash Bin/Container Management: City staff has been conducting Stormwater inspections throughout the jurisdiction. If during the inspection the site has trash stored improperly, has dumpster lids uncovered, damaged, missing or the facility is otherwise unkempt, the City requires them to clean up their facility of trash, litter and keep their dumpster lids closed. If compliance is not achieved enforcement actions are taken as necessary. This is to minimize wind-blown litter and trash accumulation. The City has been focusing on businesses to move their trash bins off the street and place them inside or out of sight since FY 13-14. The focus was to prevent unlawful outdoor storage, ensure a tight-fitting lid on containers and minimize wind-blown litter and trash accumulation.
2	Improved Trash Bin/Container Management: City staff has been conducting Stormwater inspections throughout the jurisdiction. If during the inspection the site has trash stored improperly, has dumpster lids uncovered, damaged, missing or the facility is otherwise unkempt, the City requires them to clean up their facility of trash, litter and keep their dumpster lids closed. If compliance is not achieved enforcement actions are taken as necessary. This is to minimize wind-blown litter and trash accumulation. The City has been focusing on businesses to move their trash bins off the street and place them inside or out of sight since FY 13-14. The focus was to prevent unlawful outdoor storage, ensure a tight-fitting lid on containers and minimize wind-blown litter and trash accumulation.
3	Improved Trash Bin/Container Management: In 2015, the City began working with SSF Scavenger through SMCWPPP’s Litter Workgroup, and has targeted an area in this TMA and begun an initial Pilot Study into potential collaborative litter reduction efforts.
3	Improved Trash Bin/Container Management: City staff has been conducting Stormwater inspections throughout the jurisdiction. If during the inspection the site has trash stored improperly, has dumpster lids uncovered, damaged, missing or the facility is otherwise unkempt, the City requires them to clean up their facility of trash, litter and keep their dumpster lids closed. If compliance is not achieved enforcement actions are taken as necessary. This is to minimize wind-blown litter and trash accumulation. The City has been focusing on businesses to move their trash bins off the street and place them inside or out of sight since FY 13-14. The focus was to prevent unlawful outdoor storage, ensure a tight-fitting lid on containers and minimize wind-blown litter and trash accumulation.
3	Partial Trash Capture: A large shopping center making up approximately 50% of TMA 3 that had previously contributed very heavily to the original trash load was demolished and redeveloped in 2013-2014. The redeveloped commercial shopping center incorporates several BMPs and private trash capture/ stormwater treatment devices on site, reducing the level of trash making it into the MS4 from this TMA.
5	Improved Trash Bin/Container Management: City staff has been conducting Stormwater inspections throughout the jurisdiction. If during the inspection the site has trash stored improperly, has dumpster lids uncovered, damaged, missing or the facility is otherwise unkempt the City requires them to clean up their facility of trash, litter and keep their dumpster lids closed. If compliance is not achieved enforcement actions are taken as necessary. This is to minimize wind-blown litter and trash accumulation. The City has been focusing on businesses to move their trash bins off the street and place them inside or out of sight since FY 13-14. The focus was

	to prevent unlawful outdoor storage, ensure a tight fitting lid on containers and minimize wind-blown litter and trash accumulation. Illegal Dumping Controls: Barriers were installed in two locations in FY 13-14 per the Long-term Trash Plan.
7	Container Management: Parks Division purchased 30 additional polyethylene trash can domes to limit litter blowing away in windy, high trash areas and developed areas. Additionally, the City revised the new construction trash can standard to include partial covers on cans to minimize litter escape. Twenty-four new permanent trash cans with partial covers were installed at 5 new sites.
1-9	On-land Cleanup: SSF Adopt-A-Storm Drain Program was implemented during FY 2016-2017. Volunteers request a storm drain catch basin(s) and are provided with cleanup materials by the City. Volunteers then regularly clean the street/gutter area around the catch basin and the catch basin grates. To date, 81 volunteers have signed up to adopt 127 storm drain catch basins.

C.10.b.ii. ► Trash Reduction – Other Trash Management Actions (PART B)

Provide the following:

- 1) A summary of the on-land visual assessments in each TMA (or control measure area), including the street miles or acres available for assessment (i.e., those associated with VH, H, or M trash generation areas not treated by full capture systems), the street miles or acres assessed, the % of available street miles or acres assessed, and the average number of assessments conducted per site within the TMA; and
- 2) Percent jurisdictional-wide trash reduction in FY 16-17 attributable to trash management actions other than full capture systems implemented in each TMA.

TMA ID <i>or (as applicable)</i> Control Measure Area	Total Street Miles Available for Assessment	Summary of On-land Visual Assessments			Jurisdictional-wide Reduction (%)
		Street Miles Assessed	% of Applicable Street Miles Assessed	Ave. # of Assessments Conducted at Each Site	
1	0.97	0.16	16.89%	3.0	0.1%
2	3.80	0.75	19.68%	6.3	9.4%
3	0.93	0.41	43.72%	6.5	3.7%
4	2.09	0.00	0.00%	0.0	0.0%
5	5.83	2.05	35.16%	4.1	14.6%
6	1.01	0.35	35.09%	3.0	1.3%
7	1.86	0.54	29.14%	5.7	0.5%
8	0.21	0.00	0.00%	0.0	0.0%
9	1.71	0.00	0.00%	0.0	0.0%
Total		4.26	-	-	29.5%

C.10.b.iv. ► Trash Reduction – Source Controls

Provide a description of each jurisdictional-wide trash source control action implemented to-date. For each control action, identify the trash reduction evaluation method(s) used to demonstrate on-going reductions, summarize the results of the evaluation(s), and estimate the associated reduction of trash within your jurisdictional area. Note: There is a maximum of 10% total credit for source controls.

Source Control Action	Summary Description & Dominant Trash Sources and Types Targeted	Evaluation/Enforcement Method(s)	Summary of Evaluation/Enforcement Results To-date	% Reduction	Total Reduction Credit (%)
-----------------------	---	----------------------------------	---	-------------	----------------------------

C.10.b.iv. ► Trash Reduction – Source Controls

Provide a description of each jurisdictional-wide trash source control action implemented to-date. For each control action, identify the trash reduction evaluation method(s) used to demonstrate on-going reductions, summarize the results of the evaluation(s), and estimate the associated reduction of trash within your jurisdictional area. Note: There is a maximum of 10% total credit for source controls.

<p>Single Use Bag Ordinance</p>	<p>The City adopted an Ordinance on April 22, 2013 banning the distribution of single-use plastic carryout bags. The Ordinance went into effect 30 days later http://qcode.us/codes/southsanfrancisco/ (Title 8 chapter 8.64 Reusable Bags). The focus of the Ordinance was to minimize pedestrian and wind-blown litter consisting of single-use plastic bags. The San Mateo County Environmental Health Division has been authorized and directed to enforce this Ordinance.</p>	<p>On behalf of all SMCWPPP Permittees, the County of San Mateo conducted assessments evaluating the effectiveness of the single use plastic bag ban in municipalities within San Mateo County. Assessments conducted by the County included audits of businesses and surveys of customer bag usage at many businesses in San Mateo County. Additionally, the number of complaints by customers was also tracked by the County. The results of assessments conducted by these cities are gauged to be representative of all SMCWPPP Permittees, given the consistency between the scope, implementation, and enforcement of the ordinances among the municipalities.</p> <p>The City of SSF developed its % trash reduced estimate using the following norms:</p> <ol style="list-style-type: none"> 1.) Single use plastic bags comprise 8% of the trash discharged from stormwater conveyances, based on the Regional Trash Generation Study conducted by BASMAA; 2) 95% of single use plastic bags distributed in the City of South San Francisco are affected by the implementation of the ordinance, based on the County of San Mateo's Environmental Impact Report; and 3) Of the bags affected by the ordinance, there are now 90% less bags being distributed, based on customer complaints received by the County of San Mateo's Department of Environmental Health Services. This is conservative estimate given that in FY 13-14 Environmental Services only received complaints about 4, of the over 1900 businesses in San Mateo County that are affected by the single-use plastic bag ordinances. 	<p>Results of assessments conducted by the County of San Mateo on behalf of all municipalities in San Mateo County indicate that the City of South San Francisco's ordinance is effective in reducing the number of single use plastic bags in stormwater discharges. This preliminary conclusion is based on the very small number of complaints received from customers about businesses in San Mateo County that are continuing to use single use plastic bags after ordinances were adopted. Typically, single use bags are 8% of the trash observed in stormwater discharges, the City of South San Francisco concludes that there has been a 7% (i.e., 8% x 86% effectiveness in reducing bags) reduction in trash in stormwater discharges as a result of the City of South San Francisco's ordinance.</p>	<p>7%</p>	<p>10.0% (Maximum)</p>
<p>FY 16-17 AR Form</p>		<p>10-9</p>		<p>9/30/17</p>	

C.10.b.iv. ► Trash Reduction – Source Controls

Provide a description of each jurisdictional-wide trash source control action implemented to-date. For each control action, identify the trash reduction evaluation method(s) used to demonstrate on-going reductions, summarize the results of the evaluation(s), and estimate the associated reduction of trash within your jurisdictional area. Note: There is a maximum of 10% total credit for source controls.

<p>Expanded Polystyrene Food Service Ware Ordinance</p>	<p>The City adopted the polystyrene food ware packaging ban on October 8, 2008, which prohibits food vendors from distributing food to customers in polystyrene packaging. The focus of the ban was to minimize pedestrian and wind-blown litter consisting of polystyrene food service ware. City Code Enforcement Staff enforces the ban within the city. http://qcode.us/codes/southsanfrancisco/ (Title 8 chapter 8.60 Green Food Packaging).</p>	<p>Although the City of South San Francisco has adopted and implemented an ordinance prohibiting the distribution of EPS food ware by food vendors, evaluations of the effectiveness of the ordinance have not yet been conducted. For the purpose of estimating trash reductions in stormwater discharges associated with the ordinance, the results of assessments conducted by the cities of Los Altos and Palo Alto were used to denote the reduction of trash associated with the City of South San Francisco's ordinance. Assessments conducted by the cities of Los Altos and Palo Alto were used to gauge the reduction of trash associated with the City of South San Francisco's ordinance. Assessments conducted by these cities were conducted prior to and following the effective date of their ordinances, and include audits of businesses and/or assessments of EPS food ware observed on streets, storm drains and local creeks. The results of assessments conducted by these cities are expected to be representative of the effectiveness of the City of South San Francisco's ordinance because the implementation (including enforcement) of the City of South San Francisco's ordinance is similar to the City of Los Altos' and Palo Alto's. The City of south San Francisco developed its % trash reduced estimate using the following assumptions: 1.) EPS food ware comprises 6% of the trash discharged from stormwater conveyances, based on the Regional Trash Generation Study 2) 80% of EPS food ware distributed by food vendors or sold via stores in the City of South San Francisco is affected by the implementation of the ordinance; and 3) There is now 95% less EPS food ware being distributed, sold and/or observed in the environment, based on assessments conducted by the City of Palo Alto and City of Los Altos.</p>	<p>Results of assessments that are representative of the City of South San Francisco, but were conducted by the cities of Los Altos and Palo Alto, indicate that South San Francisco's ordinance is effective in reducing EPS food ware in stormwater discharges. This conclusion is based on the following valuation - an average of 95% of businesses affected by the ordinance are no longer distributing EPS food ware post-ordinance. Based on these results, the estimated average reduction of EPS food ware in stormwater discharges is 90%. Supposing EPS food ware is 6% of the trash observed in stormwater discharges, the City of South San Francisco concludes that there has been a 5% (i.e., 6% x 90%) reduction in trash in stormwater discharges as a result of the ordinance.</p>	<p>5%</p>	
---	---	--	--	-----------	--

C.10.c. ► Trash Hot Spot Cleanups

Provide the FY 16-17 cleanup date and volume of trash removed during each MRP-required Trash Hot Spot cleanup during each fiscal year listed. Indicate whether the site was a new site in FY 16-17.

Trash Hot Spot	New Site in FY 16-17 (Y/N)	FY 16-17 Cleanup Date(s)	Volume of Trash Removed (cubic yards)				
			FY 2012-13	FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17
SSF01	N	9/17/2016	12.7	2.8	1.3	5.2	1.2
SSF02	N	9/17/2016					

Please note that volumes were combined for SSF01 and SSF02, as hot spot sites are adjacent to each other.

C.10.d. ► Long-Term Trash Load Reduction Plan	
Provide descriptions of significant revisions made to your Long-term Trash Load Reduction Plan submitted to the Water Board in February 2014. Describe significant changes made to primary or secondary trash management areas (TMA), baseline trash generation maps, control measures, or time schedules identified in your plan. Indicate whether your baseline trash generation map was revised and if so what information was collected to support the revision. If your baseline trash generation map was revised, attach it to your Annual Report.	
Description of Significant Revision	Associated TMA
In FY 15-16, consistent with all MRP Permittees, all public K-12 schools, college and university parcels were made non-jurisdictional on the City’s baseline trash generation maps. Under California Government Code Sections 4450 through 4461, the construction, modification, or alternation of facilities and/or structures on these parcels are under the jurisdiction of the California Division of State Architect and not the City. The public right-of-way (e.g., streets and sidewalks) surrounding these parcels remain as jurisdictional on the City’s baseline trash generation maps. The City’s revised baseline trash generation map was included as Appendix 10-2 in the FY 15-16 Annual Report.	All applicable
In FY 15-16, TMA 8 in the baseline trash generation map was changed from medium to low trash generation based on field observations and information regarding the TMA, and confirmed via visual assessment. TMA 8 consists of the Genentech campus, which employs a large maintenance team that cleans the area at least daily. Please see Attachment E for the revised SSF baseline trash generation map.	8
South SF Scavenger agreed in January 2014, to do an audit of a certain section of MFD properties in TMA 1 during 2014 that would entail ensuring businesses are receiving the proper level of service and assessing any container issues and housekeeping issues that may be contributing to litter reaching the environment and storm drain system. Due to various circumstances, this audit was postponed and will now occur during FY 2016-2017 (tentatively planned to begin September 2016). Subsequent audits are possible depending on the results of this initial one.	1
The City of SSF had originally planned to install a new stormwater pump station in FY 14-15 at South Airport Blvd and Mitchell Avenue to replace an existing pumping system. The new station was scheduled to include a full trash capture device. Although this pump station was retro-fitted in FY 2014-2015, the planned trash capture device was not installed at that time, pending further study and receipt of the City’s Storm Drain Master Plan, which was finalized during FY 2015-2016. This location is still a potential option for a full trash capture device per the recently completed SSF Trash Reduction Plan.	5
The City of SSF had originally planned to install a large full trash capture device in FY 14-15 in this TMA at an existing stormwater pump station. However, the planned trash capture device was not installed during this time, pending further study and receipt of the City’s Storm Drain Master Plan, which was finalized during FY 2015-2016. This location is still a potential option for a full trash capture device per the recently completed SSF Trash Reduction Plan.	4
The Long-Term Trash Plan and <i>South San Francisco Trash Capture Feasibility Study</i> (Schaaf & Wheeler, 2016) determined that the most feasible way for the City to meet the 70% trash reduction goal was through five (5) large scale trash capture devices towards the end of the City’s storm drainage system prior to discharging to Colma Creek. These devices were to be installed in strategic medium-high trash generation areas and would have provided a centralized location for construction, maintenance and cleaning, as well as relatively low annual Operation and Maintenance (O&M) costs. The City continued to pursue these devices and hired Schaaf & Wheeler to start the design process. The <i>South San Francisco Trash Capture Conceptual Design Memo</i> (Schaaf & Wheeler, 2017) detailed the site logistics and provided conceptual design drawings to show that the five	1,4,5

<p>locations were suitable for large scale device installation. The cost estimate for the large scale devices was between \$2,700,000 and \$5,000,000.</p> <p>The City had been involved in the design phase through February 2017. However, due to limited stormwater funding, lengthy design and construction process, and the high capital investment costs the City's preferred large trash capture device approach was deemed infeasible to meet the 70% trash reduction by July 1, 2017.</p> <p>Therefore, the City has changed course and with the assistance of Schaaf & Wheeler, has determined that installing between 250-300 full trash capture inlet filters in TMA#s 1, 4 and 5, at an estimated capital cost of \$150,000 to \$165,000 would provide the required 70% trash reduction.</p>	
---	--

C.10.e. ► Trash Reduction Offsets (Optional)

Provide a summary description of each offset program implemented, the volume of trash removed, and the offset claimed in FY 16-17. Also, for additional creek and shoreline cleanups, describe the number and frequency of cleanups conducted, and the locations and cleanup dates. For direct discharge control programs approved by the Water Board Executive Officer, also describe the results of the assessments conducted in receiving waters to demonstrate the effectiveness of the control program. Include an Appendix that provides the calculations and data used to determine the trash reduction offset.

Offset Program	Summary Description of Actions and Assessment Results	Volume of Trash (CY) Removed/Controlled in FY 16-17	Offset (% Jurisdiction-wide Reduction)
Additional Creek and Shoreline Cleanups (Max 10% Offset)	NA	NA	NA
Direct Trash Discharge Controls (Max 15% Offset)	NA	NA	NA

Section 11 - Provision C.11 Mercury Controls

C.11.a. ► Implement Control Measures to Achieve Mercury Load Reductions
C.11.b. ► Assess Mercury Load Reductions from Stormwater

See the Program's FY 2016-17 Annual Report for:

- Documentation of mercury control measures implemented in our agency's jurisdictional area for which load reductions will be reported and the associated management areas;
- A description of how the BASMAA Interim Accounting Methodology⁵⁹ was used to calculate the mercury load reduced by each control measure implemented in our agency's jurisdictional area and the calculation results (i.e., the estimated mercury load reduced by each control measure); and
- Supporting data and information necessary to substantiate the load reduction estimates.

C.11.c. ► Plan and Implement Green Infrastructure to Reduce Mercury Loads

If the regional or countywide mercury load reductions required by this sub-provision via Green Infrastructure by the end of the permit term are not met, will Permittees in your county use the default population-based method to calculate the portion of the countywide load reduction required of each Permittee?

X	Yes		No
---	-----	--	----

C.11.e. ► Implement a Risk Reduction Program

A summary of Program and regional accomplishments for this sub-provision are included in the C.11 Mercury Controls section of the Program's FY 2016-17 Annual Report and/or a BASMAA regional report.

⁵⁹BASMAA 2017. Interim Accounting Methodology for TMDL Loads Reduced, Version 1.0. Prepared for BASMAA by Geosyntec Consultants and EOA, Inc., September 19, 2016.

Section 12 - Provision C.12 PCBs Controls

C.12.a. ► Implement Control Measures to Achieve PCBs Load Reductions
C.12.b. ► Assess PCBs Load Reductions from Stormwater

See the Program’s FY 2016-17 Annual Report for:

- Documentation of PCBs control measures implemented in our agency’s jurisdictional area for which load reductions will be reported and the associated management areas;
- A description of how the BASMAA Interim Accounting Methodology⁶⁰ was used to calculate the PCBs load reduced by each control measure implemented in our agency’s jurisdictional area and the calculation results (i.e., the estimated PCBs load reduced by each control measure); and
- Supporting data and information necessary to substantiate the load reduction estimates.

If the regional and countywide PCBs load reductions required by C.12.a are not met, will Permittees in your county use the default population-based method to calculate the portion of the countywide load reduction required of each Permittee?	X	Yes		No
--	---	-----	--	----

⁶⁰BASMAA 2017. Interim Accounting Methodology for TMDL Loads Reduced, Version 1.0. Prepared for BASMAA by Geosyntec Consultants and EOA, Inc., September 19, 2016.

C.12.f. ► Manage PCB-Containing Materials and Wastes During Building Demolition Activities So That PCBs Do Not Enter Municipal Storm Drains

A summary of Program and regional accomplishments for this sub-provision is included in the C.12 PCBs Controls section of Program's FY 2016-17 Annual Report and/or a BASMAA regional report.

Does your agency plan to seek exemption from this requirement?

Yes

No

C.12.g. ► Fate and Transport Study of PCBs: Urban Runoff Impact on San Francisco Bay Margins

A summary of Program and regional accomplishments for this sub-provision are included in the C.12 PCBs Controls section of the Program's FY 2016-17 Annual Report and/or a BASMAA regional report.

C.12.h. ► Implement a Risk Reduction Program

A summary of Program and regional accomplishments for this sub-provision are included in the C.12 PCBs Controls section of the Program's FY 2016-17 Annual Report and/or a BASMAA regional report.

Section 13 - Provision C.13 Copper Controls

C.13.a.iii. ► Manage Waste Generated from Cleaning and Treating of Copper Architectural Features

Provide summaries of permitting and enforcement activities to manage waste generated from cleaning and treating of copper architectural features, including copper roofs, during construction and post-construction.

Summary:

During construction, City of SSF Environmental Compliance and Building Inspectors are responsible for identifying copper architectural features, and if appropriate, BMPs are implemented. Any issues noted are documented and enforcement actions are recorded in the Provision C.6 erosion control inspection tracking sheet.

Post-construction, City of SSF Environmental Compliance Inspectors are responsible for responding to, investigating and identifying illegal discharge of wash water from washing copper architectural features. Any enforcement actions or reported discharges are recorded in the Provision C.5 Illicit Discharge inspection records and tracking sheet.

The SMCWPPP "Requirements for Architectural Copper" Fact Sheet is made available to the public, construction inspectors and illicit discharge inspectors on the SMCWPPP website (www.flowstobay.org/files/newdevelopment/flyersfactsheets/ArchitecturalcopperBMPs.pdf). Inspectors are made aware of the concerns with copper architectural features at SMCWPPP Training Workshops and internal municipal trainings.

C.13.b.iii. ► Manage Discharges from Pools, Spas, and Fountains that Contain Copper-Based Chemicals

Provide summaries of any enforcement activities related to copper-containing discharges from pools, spas, and fountains.

Summary:

Upon review of our Provision C.5 illicit discharge inspection data we found no enforcement activities related to copper-containing discharges from pools, spas, and fountains.

C.13.c.iii. ► Industrial Sources Copper Reduction Results

Based upon inspection activities conducted under Provision C.4, highlight copper reduction results achieved among the facilities identified as potential users or sources of copper, facilities inspected, and BMPs addressed.

Summary:

The City of South San Francisco had one plating facility that was inspected twice a year. This facility ceased operations on 10/21/15 and has vacated the premises. No stormwater issues have historically occurred at this site. City Environmental Compliance staff reviews Business License Applications for all new businesses entering the service area in order to determine potential copper users or sources of copper – which are followed up with inspections if applicable.

Section 15 -Provision C.15 Exempted and Conditionally Exempted Discharges

C.15.b.vi.(2) ► Irrigation Water, Landscape Irrigation, and Lawn or Garden Watering

Provide implementation summaries of the required BMPs to promote measures that minimize runoff and pollutant loading from excess irrigation. Generally the categories are:

- Promote conservation programs
- Promote outreach for less toxic pest control and landscape management
- Promote use of drought tolerant and native vegetation
- Promote outreach messages to encourage appropriate watering/irrigation practices
- Implement Illicit Discharge Enforcement Response Plan for ongoing, large volume landscape irrigation runoff

Summary:

See Section C.9.e.ii of SMCWPPP's FY 16-17 Annual Report for a description of SMCWPPP's activities related to point-of-purchase outreach which promotes less toxic pest control and landscape management. See Section C.7 of SMCWPPP's FY 16-17 Annual Report for a description of outreach conducted to promote water conservation programs, such as promoting rain barrel use. Information on water conservation, less-toxic pest control and appropriate watering/irrigation practices is also posted on SMCWPPP's website (www.flowstobay.org).

City of SSF Environmental Compliance staff makes these Countywide outreach materials available and distributes them as applicable during local outreach events (ex. Farmers' Markets, Pollution Prevention Week). Additionally, City of SSF Environmental Compliance staff distributes these Countywide materials through the Illicit Discharge program and during the Building Permit review process, as applicable.

City of South San Francisco

P.O. Box 711 (City Hall,
400 Grand Avenue)
South San Francisco, CA

City Council

Resolution: RES 60-2017

File Number: 17-502

Enactment Number: RES 60-2017

RESOLUTION APPROVING THE SOUTH SAN FRANCISCO
GREEN INFRASTRUCTURE PLAN WORKPLAN IN ACCORDANCE
WITH PROVISION C.3.J OF THE MUNICIPAL REGIONAL PERMIT.

WHEREAS, the San Francisco Bay Regional Water Quality Control Board's Municipal Regional Permit ("MRP") regulates stormwater discharges from municipal storm drain systems throughout San Mateo County, including the City of South San Francisco; and

WHEREAS, Provision C.3.j of the MRP requires each permittee to develop a Green Infrastructure Plan that demonstrates how permittees will gradually shift from traditional "gray" storm drain infrastructure, which channels polluted runoff directly into receiving waters without treatment, to a more resilient and sustainable storm drain system comprised of "green" infrastructure, which captures, stores and treats stormwater; and

WHEREAS, the MRP also requires that Green Infrastructure Plans be collectively designed to achieve specific reductions in mercury and polychlorinated biphenyls (PCBs) within specific time horizons; and

WHEREAS, all permittees under the MRP are required to approve by June 30, 2017 a Green Infrastructure Plan Workplan; and

WHEREAS, the City/County Association of Governments of San Mateo County (C/CAG) has been working with its member agencies, including the City of South San Francisco to develop model green infrastructure planning documents, including a model workplan; and

WHEREAS, the South San Francisco Green Infrastructure Plan Workplan details the required tasks to develop a Green Infrastructure Plan compliant with MRP requirements, including those aspects that will be implemented by C/CAG and those by local agencies; and

WHEREAS, the City of South San Francisco is committed to complying with requirements of the MRP; and

WHEREAS, it is the intent of the City of South San Francisco to allocate sufficient resources to ensure timely development of a Green Infrastructure Plan in accordance with MRP requirements; and

WHEREAS, the cost to develop a Green Infrastructure Plan is estimated to be \$450,000 over three

fiscal years; and

WHEREAS, the Fiscal Year (FY) 2015-16 Capital Improvement Program allocated \$200,000 for green infrastructure planning; and

WHEREAS, remaining funds for the development of the Green Infrastructure Plan will be requested in FY 2018-19 and FY 2019-20.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of South San Francisco that the City Council of the City of South San Francisco, hereby approves the South San Francisco Green Infrastructure Plan Workplan and commits to completing the Green Infrastructure Plan by September 2019.

* * * * *

At a meeting of the Special City Council on 6/27/2017, a motion was made by Mark Addiego, seconded by Richard Garbarino, that this Resolution be approved. The motion passed.

Yes: 5 Matsumoto, Normandy, Addiego, Gupta, and Garbarino

Attest by

Gabriel Rodriguez
