Codes enforced on inspection reports

- California Code of Regulations (C.C.R.)
- Can be found at the California Department of Pesticide Regulation website:
- <https://www.cdpr.ca.gov/>
- For example in the search box, TYPE: “CCR 6628”
- You will see “Section 6600-**6628**”
- California Food and Agriculture Code (FAC)
- Can be found at the California Legislative Information website:
- <https://leginfo.legislature.ca.gov>
- Under “Quick Code Search”, select Code: “**FAC**” then enter Code Number such as **12001**

5 digits long (12XXX or 11XXX)

6618(b) (4). Notice of Applications.

(4) Compliance by public agencies with the notice or barrier requirements of section 12978 of the Food and Agricultural Code meets the notice requirements of this subsection.

FAC 12978-Pesticide applications on public property which take place on school grounds, parks, or other public rights-of-way where public exposure is **foreseeable** shall be posted with warning signs. (a) This section shall apply to all pesticide applications which have worker reentry intervals of at least 24 hours.

Pesticides used by public agencies (spot treatments) will only require that people stay out of the treated areas until dry.

Most situations the applicator will make the applications during early morning hours or during a time when they feel that the area will have a low traffic of people.

As long as the applicator is present and close by to make sure people stay away from the treated areas until the spray is dry, then this would be a strategy that would be enough to satisfy FAC 12978 and thus 6618 (b) (4), without using posted warning signs.

Review with the manager what strategies are instructed to the applicator when making a pesticide application on public property (parks, rights of way such as roads trails, paths) in order to **prevent** exposure to the public.

ROUNDUP ProMAX Label EPA REG. #: 524-579

User Safety Recommendations:

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

3.2 Environmental Hazards

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

3.3 Physical or Chemical Hazards

Spray solutions of this product can be mixed, stored and applied using only stainless steel, fiberglass, plastic or plastic-lined steel containers.

DO NOT MIX, STORE OR APPLY THIS PRODUCT OR SPRAY SOLUTIONS OF THIS PRODUCT IN GALVANIZED STEEL OR UNLINED STEEL (EXCEPT STAINLESS STEEL) CONTAINERS OR SPRAY TANKS. This product or spray solutions of this product react with such containers and tanks to produce hydrogen gas which may form a highly combustible gas mixture. This gas mixture could flash or explode, causing serious personal injury, if ignited by open flame, spark, welder's torch, lighted cigarette or other ignition source.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling. This product can only be used in accordance with the Directions for Use on this label or in separately published Bayer CropScience LP supplemental labeling. Supplemental labeling can be found on the Internet at www.agrian.com, www.cdms.net or www.greenbook.net, or obtained from your Authorized Bayer CropScience LP Retailer or Bayer CropScience LP Representative.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulations.

Agricultural Use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: coveralls, shoes plus socks and chemical-resistant gloves made of any waterproof material.

Roundup Pro Max
EPA Reg. #: 524-579

Non-Agricultural Use Requirements

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries or greenhouses.

Keep people and pets off treated areas until spray solution has dried.

4.0 STORAGE AND DISPOSAL

Proper pesticide storage and disposal are essential to protect against exposure to people and the environment due to leaks and spills, excess product or waste, and vandalism. Do not allow this product to contaminate water, foodstuffs, feed or seed by storage and disposal.

PESTICIDE STORAGE: Store pesticides away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Keep container closed to prevent spills and contamination.

PESTICIDE DISPOSAL: To avoid wastes, use all material in this container, including rinsate, by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program. Such programs are often run by state or local governments or by industry. All disposal must be in accordance with applicable Federal, state and local regulations and procedures.

CONTAINER HANDLING AND DISPOSAL: Nonrefillable container. Do not reuse this container to hold materials other than pesticides or dilute pesticides (rinsate). After emptying and cleaning, it may be allowable to temporarily hold rinsate or other pesticide-related materials in the container. Contact your state regulatory agency to determine allowable practices in your state. Triple rinse or pressure rinse (or equivalent) this container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with

6627. Monthly Summary Pesticide Use Reports.

Remember to submit your use reports by **the 10th of the following month** of the month when you completed your pesticide applications.

(PUBLIC AGENCIES)-If you did not make any pesticide applications for the month, please do **NOT** submit a negative pesticide use report.

Negative pesticide use reports **only apply** to pest control businesses (ex: Landscaping Companies).

CalAg Permits

If you wish to enter your pesticide use reports through CalAg Permits, contact your district biologist for a USER NAME and PASSWORD.

We can also forward a link to a You Tube video on how to enter pesticide use on CalAg Permits

REMINDER: Each county will issue a business a separate user name and password ONLY unique to that county.

The screenshot shows the CalAgPermits web application interface. At the top, there is a navigation bar with the CalAgPermits logo and the text "San Mateo". The navigation bar includes links for Home, Product Lookup, PUR/NOI Query, RMP - Op-ID, Pesticide Use Report, and Help. Below the navigation bar, the user is logged in as "ABC GROWERS". The main content area is divided into several sections:

- Welcome**: A section with a green header.
- Ag PURs**: A section with a red header, containing links to "Enter a new 7 Day Job Report for Commercial Applicators" and "Enter a new Monthly Report for Grower Applications".
- MSPURs**: A section with a blue header, containing links to "Enter a new Structural Monthly Summary report (MSPUR)", "Enter a new Non-structural MSPUR", and "Enter a new Zero Usage Report".
- NOIs**: A section with a blue header, containing a link to "Enter a new Notice of Intent".
- Permits**: A section with a blue header, containing a dropdown menu to "Select Permit for viewing" (currently showing "4100380: ABC GROWERS") and a "View Permit" button.
- CEDTS**: A section with a blue header, containing a link to "Upload pre-formatted CEDTS data".
- Help and Training**: A section with a green header, containing links to "Training Videos" and "FAQs Under Construction".
- My Licenses and Certifications - Koren Widdel ABC GROWERS**: A section with a green header, containing a table with columns "License/Cert. #", "Type", "Expiration", and "Registered On". The table shows "No records to display."
- My PUR/NOI Activity**: A section with a green header, containing a table with columns "Report Type", "Drafts", "Submitted", "County Entered", and "Sent to DPR". The table shows activity for "Ag. Job Reports", "Ag. Monthly Reports", "MSPURs", and "NOIs".
- Useful Links**: A section with a green header, containing links to "California Department of Pesticide Regulation", "Pesticide Use Reporting (PUR) Forms", "Licensing and Certification Program", "DPR News and Publications", "Restricted Materials Use Requirements", "CalAgPermits Contact Information", and "Contact Tech Support".

6726. Emergency Medical Care.

For handlers, emergency medical care shall be planned for in advance. The employer shall locate and inform their handler(s) of the name and location of the facility.

If the medical facility is not reasonably accessible from the central work site, the employer should have procedures in place to obtain medical care in an emergency when the applicator is out in the field

The name, address, and phone number shall be **posted** at the **work site** or **work vehicle** if there is no designated work site.

Simply posting "CALL 9-1-1" in case of emergency, is **NOT** sufficient for satisfying this code section.

Pesticide Safety Information Series the (N-8)

If this is in place, the posting requirements for C.C.R. 6726 would be satisfied.

This form can be used as a training material along with the other Pesticide Safety Information Series handouts (N1 – N8).

Copies of the Pesticide Safety Information Series can be found at:

<https://www.cdpr.ca.gov/>

N series: Non-Agricultural Settings

The image displays two components related to pesticide safety information. The top component is a leaflet titled "PESTICIDE SAFETY Information" from the California Environmental Protection Agency, N No. 8. The leaflet's main heading is "Safety Rules for Pesticide Handlers in Non-Agricultural Settings". It includes text stating that handlers must be at least 18 years old and follow specific safety protocols. A section titled "EMERGENCY MEDICAL CARE" provides instructions for employers and includes a form for recording medical care availability with fields for NAME, ADDRESS, and TELEPHONE. A side note for employers explains the purpose of the leaflet. The bottom component is a screenshot of the California Department of Pesticide Regulation (CDPR) website. The website header includes the CDPR logo, navigation links (About DPR, Join E-Lists, A-Z Index, Careers, Contact Us), a language selector, and a settings icon. The main navigation bar features icons and labels for Programs, Databases, News/Publications, Quick Links, and a Search function, which is highlighted by a red arrow. The website background shows a scenic view of a grassy hillside with yellow wildflowers.

6723. Hazard Communication for Pesticide Handlers.

(b) At the workplace, the employer shall maintain, a central location where employees who handle pesticides, have access to the following:

(2) A copy of a COMPLETED Pesticide Safety Information Series (N-8) posted at the central location

(3) A Material Safety Data Sheet (MSDS), as specified by Title 8 California Code of Regulations, Section 5194, for each pesticide listed in the pesticide use records referred to in subsection (b) (1).

(4) Pesticide use records for pesticides handled by employees

6724 (a) . Written Program

(a) The **employer** shall have a written training program. The training program shall describe the materials (e.g., study guides, pamphlets, pesticide product labeling, Pesticide Safety Information Series leaflets, Material Safety Data Sheets, slides, video tapes) and information that will be provided and used to train his or her employees and identify the person or firm that will provide the training. The training program shall address each of the subjects specified in subsection (b) that is applicable to the specific pesticide handling situation. The employer shall maintain a copy of the training program while in use and for **two years** after use, at a central location at the workplace.

Written Handler Training Program

Pesticide Training
Employer's Written Handler Training Program
Pursuant to 3 CCR section 6724

(Name of Employer)

Name of Firm or Person Providing Training: _____

Note: For the commercial or research production of an agricultural plant commodity, the employer must assure the trainer is one of the following at the time of training (trainer licenses or certificates must be valid):

- A California certified applicator (commercial or private) or Agricultural Pest Control Adviser
- A County Biologist License in Pesticide Regulation or Investigation and Environmental Monitoring
- A University of California Extension Advisor
- A person who has completed nan "instructor training" program
- A California Registered Professional Forester
- Other trainer qualification approved by DPR

Training Materials:

Name of videos, pamphlets, study guides, or other training materials, and a brief description

1 _____

2 _____

3 _____

4 _____

5 _____

(Attach additional pages if necessary)

Circle Pesticide Safety Information Series (PSIS) Leaflets Used:

Pesticide Training
Employer's Written Handler Training Program (continued)
Pursuant to 3 CCR section 6724

(Name of Employer)

This WRITTEN PROGRAM went into effect on (date): _____

This WRITTEN PROGRAM was retired on (date): _____

- A copy of the training program must be maintained while in use and for two years after use, at a central location at the workplace.
- Employee training shall be in a manner the employee can understand, be conducted pursuant to this written training program, and include response to questions.
- Training shall be completed before the employee is allowed to handle pesticides, continually updated to cover any new pesticides that will be handled or training topics to be covered, and repeated at least annually thereafter.
- Training for employees handling pesticides used for the commercial or research production of an agricultural commodity must be at a location reasonably free from distraction and trainers must be present throughout the entire presentation.

The following topics are applicable to my employees handling pesticides and are covered in initial and annual training for each pesticide or chemically-similar group of pesticides handled:

Circle if applicable	Training Topic
Yes No	Format and meaning of information, such as precautionary statements about human health hazards, contained in pesticide product labeling
Yes No	Applicator's responsibility to protect persons, animals, and property while applying pesticides; and not to apply pesticides in a manner that results in contact with persons not involved in the application process
Yes No	Need for, limitations, appropriate use, removal, and sanitation of any required

The Written Handler Training Program **does not need to be completed for every employee** like pesticide handler training forms. **Just complete one copy for all.** Should be completed on an annual basis and kept for 2 years at a central location at the workplace.

Form

ANNUAL PESTICIDE HANDLER SAFETY TRAINING RECORD

Employer/Company: _____

Employee: _____
Last Name First Name Signature

Trainer: _____
Last Name First Name Signature

Trainer's Licenses/Qualifications: _____

Employee Duties ☐ Applicator ☐ Service/Repair ☐ Other _____

Date of Training ____/____/____

* Training shall be completed before the employee is allowed to handle pesticides, continually updated to cover any new pesticides that will be handled, and repeated at least annually thereafter.

* This training shall be in a manner the employee can understand, be conducted pursuant to the written training program, and include response to questions. This record shall be retained for two years and be accessible to employees.

* Training for employees handling pesticides used for the commercial or research production of an agricultural commodity must be at a location reasonably free from distraction and trainers must be present throughout the entire presentation.

TRAINING TOPICS CHECK-OFF LIST

The training shall cover, for each pesticide or chemically similar group of pesticides, to be used:

- ☐ 1. Format and meaning of information, such as precautionary statements about human health hazards, contained in pesticide product labeling;
- ☐ 2. Applicator's responsibility to protect persons, animals, and property while applying pesticides; and not to apply pesticides in a manner that results in contact with persons not involved in the application process;
- ☐ 3. Need for limitations, appropriate use, removal, and sanitation of any required personal protective equipment;
- ☐ 4. Safety requirements and procedures, including engineering controls (such as closed mixing systems and enclosed cabs) for handling, transporting, storing, disposing of pesticides, and spill clean-up;
- ☐ 5. Where and in what forms pesticides may be encountered, including treated surfaces, residues on clothing, personal protective equipment, application equipment, and drift;
- ☐ 6. Hazards of pesticides, including acute, chronic, and delayed effects, and sensitization effects, as identified in pesticide product labeling, Safety Data Sheets, or Pesticide Safety Information Series leaflets;
- ☐ 7. Routes by which pesticides can enter the body;
- ☐ 8. Signs and symptoms of overexposure;
- ☐ 9. Routine decontamination procedures when handling pesticides, including that employees should:

- A) Wash hands before eating, drinking, using the toilet, chewing gum, or using tobacco;
- B) Thoroughly wash or shower with soap and water;
- C) Change into clean clothes as soon as possible; and
- D) Wash work clothes separately from other laundry before wearing them again.

- ☐ 10. How Safety Data Sheets provide hazard, emergency medical treatment, and other information about the pesticides with which employees may come in contact;
- ☐ 11. The hazard communication program requirements of 3 CCR, section 6723;
- ☐ 12. ☐ N/A The purposes and requirements for medical supervision if organophosphate or carbamate pesticides with the signal word "DANGER" or "WARNING" on the labeling are mixed, loaded, or applied for the commercial or research production of an agricultural plant commodity;
- ☐ 13. First aid and emergency decontamination procedures, and emergency eye flushing techniques; and if pesticides are spilled or sprayed on the body to wash immediately with decontamination supplies and as soon as possible, wash or shower with soap and water and change into clean clothes;
- ☐ 14. How and when to obtain emergency medical care;
- ☐ 15. Prevention, recognition, and first aid for heat-related illness in accordance with Title 8 of the California Code of Regulations, section 3395;
- ☐ 16. Requirements of this chapter and chapter 4 relating to pesticide safety, Safety Data Sheets, and Pesticide Safety Information Series leaflets;
- ☐ 17. The requirement that handlers of pesticides used in the commercial or research production of an agricultural commodity must be at least 18 years of age;
- ☐ 18. Environmental concerns such as drift, runoff, and wildlife hazards;
- ☐ 19. Field posting requirements and restricted entry intervals when pesticides are applied for the commercial or research production of an agricultural commodity;
- ☐ 20. That employees should not take pesticides or pesticide containers home from work;
- ☐ 21. Potential hazards to children and pregnant women from pesticide exposures, including that:
 - A) Children and nonworking family members should keep away from treated areas;
 - B) After performing handling activities or after working in a treated area, employees should remove boots or shoes before entering the home and remove work clothes; and
 - C) Employees should wash or shower before physical contact with children or family members.
- ☐ 22. How to report suspected pesticide use violations; and
- ☐ 23. The employee's rights, including the right:
 - A) To personally receive information about pesticides to which he or she may be exposed;
 - B) For his or her physician or an employee representative designated in writing to receive information about pesticides to which he or she may be exposed; and
 - C) To be protected against retaliatory action due to the exercise of any of his or her rights; and
 - D) To report suspected use violations to the Department or county agricultural commissioner.

Respirator Training - 3CCR Section 6739:

- ☐ I will be wearing a respirator because it is required by label, permit conditions, regulation or employer policy. This requires full respirator training, medical evaluation, selection, fit testing and documentation.
- ☐ I will be wearing a respirator voluntarily but it is not required by label, permit conditions, regulation or employer policy. Depending upon the type and source of respirator, this may require modified respirator training, medical evaluation, documentation and postings under the Voluntary Respirator Protection Program - 6739(r).
- ☐ I will not be wearing a respirator of any type and therefore do not require respirator training, medical evaluation, selection, fit testing or documentation.

List of Trade Names or Common Names of Pesticides Covered In Training

1.	7.	13.
2.	8.	14.
3.	9.	15.
4.	10.	16.
5.	11.	17.
6.	12.	18.

Note: It is the employer's responsibility to be familiar with all current laws and regulations pertaining to worker safety requirements. This form may need to be updated periodically. Check with your Agricultural Commissioner's Office.
San Mateo County Agricultural Commissioner's Office - 2018

12. Handler(s) Trained (CCR 6724)

- **Before** the employee is allowed to handle, mix/load, or apply pesticides
- Continually **updated** to cover any new pesticides that will be handled,
- Must be completed **annually**

6676. Container Requirements.

Except as provided in the Food and Agricultural Code pertaining to service containers, any container that holds, or has held, any pesticide, when stored or transported, shall carry the registrant's label. All lids or closures shall be securely tightened except when the procedure described in Section 6684 has been followed. This Section shall not apply to measuring devices that are not used to store or transport a pesticide.

If you are carrying the original pesticide containers, make sure that they are labeled.

6684. Containers Properly Rinsed.

(a) Except for containers to be returned to the registrant, each emptied container that has held less than 28 gallons of a liquid pesticide that is diluted for use shall be rinsed and drained by the user at time of use as follows:

(b)(1) Use the following amount of water or other designated spray carrier for each rinse.

Size of container *Amount of rinse medium*

Less than 5 gallons 1/4 container volume

5 gallons or over 1/5 container volume

(2) Place required minimum amount of rinse medium in the container, replace closure securely, and agitate. Place the rinsate into the spray tank and repeat 2 more times. Then apply the combined rinsate to the applied area.

(3) Drain rinse solution from container into tank mix. Allow container to drain 30 seconds after normal emptying.

6602. Availability of Labeling.

A copy of the registered labeling that allows the manner in which the pesticide is being used shall be available at each use site.

Make sure you have the current pesticide label **on site**.

An applicator can show the label of the pesticide on their phone. However, make sure the EPA registration number of the label on the phone matches the EPA registration number of the pesticide product being used

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Avoid contact with skin, eyes or clothing. Avoid breathing vapor. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

Personal Protective Equipment (PPE)

Applicators and other handlers must wear:

- Long sleeved shirt and long pants;
- Chemical-resistant gloves;
- Shoes and socks;
- Protective eyewear (goggles, face shield or safety glasses).

Mixers/loaders supporting aerial applications must wear a minimum of a NIOSH approved filtering face piece respirator with any N filter (TC-84A). You can also use other NIOSH approved particulate respirators that offer more protection.

Applicators using groundboom equipment with open cabs to treat cotton must wear long-sleeve shirts, long pants, shoes, and socks plus chemical-resistant gloves.

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product. Do not reuse them. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should:

- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon possible, wash thoroughly and change into clean clothing.

ENGINEERING CONTROLS STATEMENT

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [(40 CFR 170.240(d)(4-6))], the handler PPE requirements may be reduced or modified as specified in the WPS.

ENVIRONMENTAL HAZARDS

Do not apply directly to water or to areas where surface water is present. Do not apply to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters or rinsate.

This pesticide is toxic to vascular plants and must be used strictly in accordance with the drift and run-off precautions on this label in order to minimize off-site exposures.

Under some conditions, this product may have a potential to run-off to surface water or adjacent land. Where possible, use methods which reduce soil erosion, such as no tillage to reduce pesticide run-off. Use of vegetation filter strips along rivers, creeks, streams, wetlands, etc. or on the downhill side of fields where run-off could occur to minimize water run-off is recommended.

PHYSICAL AND CHEMICAL HAZARDS

Do not mix or allow contact with oxidizing agents. Hazardous chemical reaction may occur.

Combustible. Do not use or store near heat or open flame.

Selection of Protective Eyewear

If product labeling specifies a type of eyewear, that eyewear or a **more protective type** must be worn.

Protective Eyewear

The employer shall assure that appropriate protective eyewear, providing brow and temple protection that conforms to the curvature of the face and side protection to the eyes, is worn when its use is required.

(a) Whenever protective eyewear is required, and the labeling does not identify a specific type, one of the following types of eyewear or eye protective devices bearing evidence of compliance with American National Standard for Occupational and Education Personal Eye and Face Protection Devices ANSI Z87.1 - 2010 must be worn:

- (1) Safety glasses that provide front, brow, and temple protection.
- (2) Goggles.
- (3) Face shield.

(b) If the pesticide labeling identifies a specific type of protective eyewear, that specified eyewear or more protective eyewear, must be worn.

- All glove barrier materials (Rubber, Neoprene, Other Chemical Resistant Material) must be 14 mils thick **UNLESS** barrier laminate or polyethylene glove materials are required by the pesticide label

SpeedZone[®]

SOUTHERN

BROADLEAF HERBICIDE FOR TURF

PRECAUTIONARY STATEMENTS

Hazards to Human and Domestic Animals

CAUTION: Harmful if absorbed through the skin. Avoid contact with skin, eyes, or clothing. Harmful if swallowed.

Personal Protective Equipment (PPE)

Some materials that are chemical resistant to this product are barrier laminate, nitrile rubber, neoprene rubber or Viton. If you want more options, follow the instructions for category E on a EPA chemical resistance category selection chart.

All mixers, loaders, applicators, flaggers, and other handlers must wear:

- long-sleeved shirt and long pants,
- shoes and socks,
- chemical resistant gloves,
- chemical resistant apron when mixing or loading, cleaning up spills or equipment, or otherwise exposed to the concentrate.

See engineering controls for additional requirements.

14. Employee Working Alone, "Danger"	6730			X
15. Decontamination Facility	6734			X
16. Eyewash Immed. Available - Prod. Ag.	6734(b)			X
17. Field Postings	6776			X
18. Safe Equipment	6742	X		
19. Closed Sys. Used	6746(a)			X
20. Protect. Of Persons/Animals/Property	6614	X		
21. Equipment Registered - PCB	11732	X		
22. Equipment Identified - PCB	6630	X		

11. Coverall, "Warning/Danger" (CCR 6738.1 (e))

- IF you are using a "DANGER" or "WARNING" pesticide then
- Except when using fumigants, unless the pesticide product labeling expressly requires the use of coveralls.
- Cover^{all}: Can be a **one or two piece** garment (long sleeved shirt and pants)
- Provided by employer

Pesticide Use Monitoring Report 104

6724. Handler Training.

The employer shall assure that employees who handle pesticides have been trained pursuant to the requirements of this Section and that all other provisions of this Section have been complied with for employees who handle pesticides.

(d) Training shall be completed before the employee is allowed to handle pesticides, continually updated to cover any new pesticides that will be handled, and repeated at least annually thereafter.

HANDLERS= APPLICATORS and MIXERS/LOADERS, Employees who Service/Repair pesticide application equipment.

Application

Pesticide Use Monitoring Report 104

6734. Decontamination Facility

Only applies if using
DANGER/WARNING pesticides

Within 100 feet of the mixing and loading site, there must be:

- Sufficient water
- Sufficient soap
- Sufficient single use towels
- One clean change of coveralls at each decontamination site

Sufficient water can mean access to a spigot or nearby restroom

Hand sanitizing gels and liquids or wet towelettes do not meet the requirement for soap and single use towels

Application

25 (b) EXEMPT PESTICIDES

These pesticides are “exempt” from EPA registration, because they do not pose an unreasonable risk to public health or the environment. The state of California, however, still defines these products as PESTICIDES. Which means:

- 1) They are subject to Handler Training (6724)
- 2) They are subject to required Personal Protective Equipment (PPE) (6738). Goggle and Gloves
- 3) They are required to be included in pesticide use records (6624) , BUT not pesticide use reports.
- 4) Must satisfy Service Container Labeling (6678) 1) Name and address of firm responsible 2) Name of pesticide 3) Signal Word

Examples of these products include, but is not limited to active ingredients such as:

Cinnamon, Citric Acid, Citronella, Clove, Cotton Seed, Garlic, Lemongrass, Mint, Peppermint, Rosemary, Sesame, Thyme.....

25 (b) EXEMPT PESTICIDES

Bonide “Maize” Weed Preventer Label

25(b) Exempt Statement on label
